In so far as particulars of any of the anions, cations, non-ionised compounds or trace elements specified in column 1 of Schedule 2 are required to be given pursuant to sub-paragraph (b) of paragraph 2 above, the concentration of each such anion, cation, non-ionised compound or trace element shall, in those particulars, be expressed in the unit of measurement specified opposite it in column 2 of that Schedule.

4. Where such particulars have been so given, the relevant authority shall assess them and shall, for the purposes of Article 1, recognise the water to which those particulars relate if it is satisfied that—

- (a) the water is natural mineral water which complies with paragraph 3 of Section I of Annex I; and

Part II

Natural mineral waters extracted from the ground in a country other than an EEA State

1. A person seeking to have a water which is extracted from the ground in a country other than an EEA State recognised as a natural mineral water for the purposes of Article 1 shall make application in writing to the Minister, giving the particulars set out in paragraph 2 below.
