6. Enter in this column (6), opposite each factor in column (5), and in ascending order each relevant year, age group or year group applicable in accordance with the allocation formula for primary and secondary schools, specifying separately any specific separate categories for pupils in nursery classes or for those funded according to the subject being studied. Where the number of pupils in nursery classes is weighted then the weightings must be shown and a note provided to explain whether numbers are the actual numbers or based on full-time equivalents. Where full-time equivalents are used in the calculation, the actual numbers must also be provided in a separate note.

7. Enter in this column (7), opposite each entry in column (6), the total number of registered pupils in that year or, age group or year group at primary and secondary schools taken into account in the allocation formula pursuant to regulation 11 of the 1999 Regulations but ignoring any weighting in accordance with paragraph (7) of that regulation or any adjustment under paragraph (8) of that regulation.

8. Enter in this column (8), opposite each entry in column (6), the amount attributed to each pupil in that year, age group or year group.
