**2000 No. 388**

**The Weighing Equipment (Automatic Gravimetric  
Filling Instruments) Regulations 2000**

**PART II**

**GENERAL REQUIREMENTS FOR USE FOR TRADE**

**Supplementary requirements**

7.—(1) Every filling instrument submitted for testing shall be completely assembled and in a clean condition.

(2) For the purposes of the performance by an inspector of his functions under the 1985 Act or these Regulations relating to inspection, testing, passing as fit for use for trade and stamping of any filling instrument, a person submitting such an instrument to an inspector or who an inspector has reasonable cause to believe has control of such an instrument for use for trade shall, if requested, provide for the inspector's use such material as the inspector may reasonably require and a control instrument: any material or control instrument so provided shall be returned to the person in question.

(3) A filling instrument, other than one which has been transported without having been dismantled, shall not be tested, passed as fit for use for trade and stamped unless it has been completely erected ready for use and, subject to paragraph (4), installed in the position in which it is to be used.

(4) Where an inspector is satisfied that any dismantling and re-assembly or transportation of a filling instrument to its intended place of use could not, in his opinion, affect the accuracy or functioning of that filling instrument, it may be examined, with a view to passing that filling instrument as fit for use for trade at a place other than the intended place of use, for the purposes of initial verification testing.
