The Electricity Supply Industry
(Rateable Values) (England) Order 2000

PART III

ELECTRICITY TRANSMISSION AND DISTRIBUTION

Transmission hereditaments: recalculation factor

9. In relation to each class of hereditaments listed in Part A of the Schedule the recalculation factor in respect of a relevant year shall be the figure produced for that class by applying the formula—

$$T \left[\begin{array}{cc} k & K \\ & K \end{array} \right]$$

where—

T is the amount specified in relation to that class in the Schedule;

k is the estimated number of circuit kilometres of main transmission line occupied by the designated person as respects that class on 31st March in the relevant preceding year; and

K is the estimated number of circuit kilometres of main transmission line occupied by that person on 31st March 2000.
