

SCHEDULE 3

Article 3(1)(b)

EXEMPTIONS FROM SECTION 4(1)(bb) OF THE ACT (DISTRIBUTION EXEMPTIONS)

Class A: Small distributors

Persons (other than licensed distributors) who do not at any time distribute more electrical power than 2.5 megawatts for the purpose of giving a supply to domestic consumers or enabling a supply to be so given with that electrical power.

A.1. For the purposes of Class A electrical power distributed by a body corporate, which is associated with, connected to or related to any distributor and which does not fall within Class B below, shall be treated as distributed by that distributor.

Class B: On-site distribution

Persons (other than licensed distributors) who do not at any time distribute from any distribution system more electrical power than one megawatt for the purpose of giving a supply to domestic consumers or enabling a supply to be so given with that electrical power provided that each domestic consumer receives the electrical power, disregarding stand-by electrical power, from a generating station embedded in the same distribution system as himself.

B.1 For the purposes of Class B “stand-by electrical power” means electricity supplied periodically or intermittently to a person to make good any shortfall in the availability of electricity to that person from its own generation for the purposes of its supply of electricity to domestic consumers seeking such supply, where such shortfall arises from the generating station being wholly or partly out of commission for a temporary period.

Class C: Distribution to non-domestic consumers

Persons (other than licensed distributors) who do not at any time distribute electrical power for the purpose of giving a supply to domestic consumers or enabling a supply to be so given with that electrical power.
