2002 No. 2665

The Electricity Safety, Quality and Continuity Regulations 2002

PART II

PROTECTION AND EARTHING

Electrical protection

6. A generator or distributor shall be responsible for the application of such protective devices to his network as will, so far as is reasonably practicable, prevent any current, including any leakage to earth, from flowing in any part of his network for such a period that that part of his network can no longer carry that current without danger.

Changes to legislation:

There are currently no known outstanding effects for the The Electricity Safety, Quality and Continuity Regulations 2002, Section 6.
