2002 No. 3129

ELECTRICITY

The Electricity (Approval of Pattern or Construction and Installation and Certification) (Amendment) Regulations 2002

Made - - - - *12th December 2002*

Coming into force - - *1st February 2003*

In exercise of the powers conferred on the Gas and Electricity Markets Authority⁽¹⁾ (“the Authority”) by sections 31 and 60 of, and paragraphs 2 and 13 of Schedule 7 to, the Electricity Act 1989⁽²⁾ (“the Act”), and with the consent of the Secretary of State in accordance with paragraph 13 of Schedule 7 to the Act, the Authority hereby makes the following Regulations:

Citation, commencement and interpretation

1.—(1) These regulations may be cited as the Electricity (Approval of Pattern or Construction and Installation and Certification) (Amendment) Regulations 2002 and shall come into force on 1st February 2003.

(2) In these Regulations, unless the context otherwise requires—

“the Approval Regulations” means the Meters (Approval of Pattern or Construction and Manner of Installation) Regulations 1998⁽³⁾; and

“the Certification Regulations” means the Meters (Certification) Regulations 1998⁽⁴⁾.

Amendment of Regulations

2.—(1) The Approval Regulations shall be amended in accordance with Part I of the Schedule to these Regulations.

(2) The Certification Regulations shall be amended in accordance with Part II of the Schedule to these Regulations.

(1) The Gas and Electricity Markets Authority was established by section 1 of the Utilities Act 2000 (c. 27).

(2) 1989 c. 29; the functions of the Director-General of Electricity Supply were transferred to the Authority by section 3 of the Utilities Act 2000. Section 3(2) provides for references to the Director in enactments to have effect as if they were references to the Authority.

(3) S.I.1998/1565.

(4) S.I. 1998/1566.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Transitional

3.—(1) Persons who immediately before the coming into force of these Regulations were authorised for any of the purposes the Certification Regulations shall continue to be so authorised but, subject to paragraph (2), from the date on which these Regulations come into force, their authorisation shall be subject to the provisions of the Certification Regulations as amended by these Regulations and they shall carry out their functions under the Certification Regulations accordingly.

(2) Amendments made by these Regulations in respect of fees shall have effect only in relation to submissions or requests for authorisation made on or after the date on which these Regulations come into force.

The seal of the Authority, authenticated by me,

L.S.

9th December 2002

Callum McCarthy,
Chairman, Gas and Electricity Markets Authority

I consent.

12th December 2002

Brian Wilson,
Minister of State for Energy and Construction,
Department of Trade and Industry

SCHEDULE

Article 2

Part I

AMENDMENTS TO THE APPROVAL REGULATIONS

- 1.—(1) Amend regulation 2 as follows.
 - (2) In paragraph (1), after “Regulations:—”, insert—
 - ““the Authority” means the Gas and Electricity Markets Authority⁽⁵⁾;
 - “certified test report” means a copy certified by the nominated laboratory as a true copy of the full report of the tests carried out by the laboratory for the purpose of establishing whether the pattern or construction or manner of installation of the meter is capable of meeting the requirement in regulation 5(1) and the results of those tests;”
 - (3) In paragraph (1), after the definition of “meter examiner”, insert—
 - ““nominated laboratory” means a laboratory nominated by the Authority for the purpose of testing meters.”
- 2.—(1) Amend regulation 4 as follows.
 - (2) In paragraph (1)(a), after “person;”, omit “and”.
 - (3) At the end of paragraph (1)(b), insert
 - “; and
 - (c) where a report has been obtained in support of the application from a nominated laboratory, a certified test report.”
- 3.—(1) Amend regulation 5 as follows.
 - (2) In paragraph (1) after “(3)” insert “or (3A)”
 - (3) After paragraph (3) insert—
 - “(3A) A meter examiner shall not, unless requested to do so by the person who made the submission, carry out or procure the carrying out of tests in accordance with paragraph (1) if, in connection with the submission,—
 - (a) a certified test report has been submitted in support of the application for approval in accordance with regulation 4(1)(c); and
 - (b) he is satisfied—
 - (i) that the report of the nominated laboratory is sufficient and reliable for the purpose of determining whether the pattern or, as the case may be, the construction or the manner of installation of the meter meets the requirement in paragraph (1); and
 - (ii) on the basis of the report that the pattern or construction of the meter or the proposed manner of its installation is such that any meter of that pattern or construction or such a meter installed in that manner will be capable of meeting the requirement in sub-paragraph (1).”
- 4.—(1) Amend regulation 10 as follows.
 - (2) For paragraph (2), substitute—

(5) The Gas and Electricity Markets Authority was established by section 1(1) of the Utilities Act 2000 (c. 27).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

“(2) The fee shall be an amount equal to the aggregate of—

- (a) in the case of a meter examiner who is a member of the Authority’s staff,
 - (i) a sum calculated at the rate of £45 per hour for all time that the meter examiner spent examining or testing or procuring the testing of the meter, including any time spent attending at any test carried out by another; plus
 - (ii) any reasonable expenses, including incidental expenses, of the meter examiner in travelling to and from premises other than those of the Authority for the purpose of attending at any test carried out by another; plus
- (b) a sum equal to the costs incurred by the Authority (other than the cost of employing the meter examiner referred to in sub-paragraph (a) and any expenses referred to in sub-paragraph (b)) attributable to procuring from any person the provision of premises, equipment or personnel (including a meter examiner) for the purpose of examining or carrying out any test on the meter.

(2A) For the purposes of calculation under paragraph (2)(a) any part of an hour exceeding 30 minutes shall be charged as an hour.”

Part II

AMENDMENTS TO THE CERTIFICATION REGULATIONS

5.—(1) Amend regulation 2 as follows.

(2) In paragraph (2),—

(a) after the definition of “authorised repairer”, insert—

““the Authority” means the Gas and Electricity Markets Authority⁽⁶⁾,”

(b) after the definition of “meter examiner” insert—

““nominated laboratory” means a laboratory nominated by the Authority for the purpose of testing meters;”.

6. For regulation 3, substitute—

“3.—(1) Any person who manufactures meters and satisfies the Authority that—

- (a) he owns or has available to him apparatus for the examination, testing and regulation of meters which complies with directions;
- (b) he operates at a manufacturing unit a quality assurance system in respect of every meter manufactured by him at that unit which conforms to the standard contained in European Standard EN ISO 9001:2000 or to any standard, technical regulation, manufacturing method or code of practice accepted in other EEA States conformity with which will achieve an equivalent assurance of quality; and
- (c) he would be capable of complying with the conditions set out in paragraph (7),

and, if, at the point of authorisation, paragraph (3) applies, that his proposals for audit are such as would, if implemented, meet the minimum requirements for audit set out in paragraph (4), may, upon payment of the appropriate fee, be authorised by the Authority for the purpose of these regulations for a period not exceeding three years in respect of meters manufactured by him at that unit.

⁽⁶⁾ The Gas and Electricity Markets Authority was established by section 1(1) of the Utilities Act 2000 (c. 27).

(2) Any such authorisation as is mentioned in paragraph (1) may, from time to time, if the authorised person so requests and for so long as the Authority remains satisfied as to the matters described there, be renewed for a further period not exceeding three years by the Authority.

(3) This paragraph applies if the person intends to make arrangements for audit to be carried out otherwise than by the Authority.

(4) The minimum requirements for audit are:

- (a) the audit shall be carried out by a nominated laboratory or a meter examiner;
- (b) a nominated laboratory carrying out an audit shall be permitted at least the same level of access as the Authority is to be permitted under paragraph (7)(e);
- (c) in the course of any period of three months, all relevant apparatus, processes, systems and records shall be submitted to audit;
- (d) the nominated laboratory or, as the case may be, meter examiner shall make their report of each audit directly to the Authority at the same time as they report to the authorised person;
- (e) every report shall be made within 14 days of completion of the audit to which it relates.

(5) Without prejudice to other means open to the Authority to satisfy itself as to the matters contained in paragraph (1)(a) to (c), the Authority may be satisfied as to those matters on the basis of a report by a nominated laboratory which concludes that the requirements of each of sub-paragraphs (a) to (c) are met in relation to the person seeking authorisation.

Provided that the report in question is not more than three months old at the point at which the request for authorisation is made.

(6) A person to whom paragraph (3) did not apply at the point of authorisation who subsequently forms an intention to make arrangements to which that paragraph refers shall inform the Authority of his proposals in such manner as the Authority may direct.

(7) An authorisation granted by the Authority to a person who satisfies the provisions of paragraph (1) shall be subject to the following conditions—

- (a) that the authorisation shall apply only in respect of meters which have been examined, tested and regulated using the apparatus referred to in sub-paragraph (a) of paragraph (1);
- (b) that the authorised person shall operate at all times in each manufacturing unit a quality assurance system which conforms to the standard referred to in sub-paragraph (b) of paragraph (1) and shall maintain a record in permanent form of the system which he operates and of the actions taken to comply with that system in respect of the meter or meters which he intends to submit for certification in accordance with regulation 6;
- (c) that the authorised person shall secure that each meter referred to in sub-paragraph (b) of this paragraph shall be examined and tested in accordance with the provisions of Schedule 1 or one of the European provisions;
- (d) that the authorised person shall cause every meter in respect of which a certificate has been issued under regulation 7 or 9 to be so stored while it remains under his control and so packaged for delivery when it is dispatched from his control as to prevent, so far as reasonably practicable, damage which would cause it to operate in a manner which would not conform with the permitted margins of error;

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (e) that the authorised person shall permit the Authority, a meter examiner or any person acting on behalf of the Authority to have access to any manufacturing unit and to examine and test all apparatus and to inspect all records referred to in this paragraph at all reasonable times for the purpose of ensuring that the authorised person is complying with the conditions of his authorisation;
 - (f) that where the authorised person has made arrangements for audit to be carried out otherwise than by the Authority and either—
 - (i) those arrangements have ceased; or
 - (ii) no audit has taken place under the arrangements for a period of three months; or
 - (iii) he proposes that the arrangements be modified in any material respectthe authorised person shall inform the Authority immediately, giving reasons in any case and, in the case of (iii), an account of the proposed modifications in such manner as the Authority may direct.
 - (g) that the authorised person shall comply with directions;
 - (h) that the authorised person shall promptly pay any fee payable by him in accordance with regulation 11.
- (8) In the case of proposals made in pursuance of paragraph (6) or of information provided pursuant to paragraph (7)(f)(iii), the Authority shall, within 28 days of being informed of them, notify the authorised person of its view as to whether the requirements of paragraph (4) would be met by such arrangements.
- (9) An authorisation under this regulation may be terminated in accordance with paragraph (11) at any time by the Authority if in the reasonable opinion of the Authority the authorised person is in breach of any condition of his authorisation and—
- (a) the Authority has notified the authorised person of the breach;
 - (b) in the case of a breach which is, in the opinion of the Authority, capable of being remedied, the authorised person has refused or failed within a reasonable time to remedy that breach after notice has been given to him by the Authority notifying of the breach; and
 - (c) the period specified in paragraph (10) has expired.
- (10) The period for the purposes of paragraph (9) is, as the case may be, 28 days,—
- (a) in a case to which paragraph (9)(b) applies, from the date on which the Authority notifies the authorised person of its opinion that the authorised person has refused or failed within a reasonable time to remedy the breach;
 - (b) in any other case, from the date on which the Authority notified the breach.
- (11) Termination of authorisation shall be effected by notice in writing by the Authority served upon the authorised person.
- (12) For the purposes of this regulation and Schedule 2—
- (a) a person may be treated as having manufactured a meter notwithstanding that he has not himself manufactured every component part of that meter provided he has assembled the meter;
 - (b) “assembled” includes the carrying out of repairs or modifications to a meter within a period of twelve months after the date upon which a certificate in respect of that meter was first issued under regulation 7 or 9;
 - (c) “audit” means an audit of the apparatus, processes, systems (including quality assurance systems) and records available, utilised operated or maintained by the

authorised person in connection with his activities as an authorised person under this regulation;

- (d) “inspection” means an inspection to ascertain compliance with any conditions of authorisation and includes any monitoring of directions issued by the Authority;
- (e) “manufacturing unit” means any premises specified to the Authority in writing (which may identify the premises by reference to a plan) at which meters are manufactured but excludes any premises which are used, otherwise than as provided for in sub-paragraph (b), for the cleaning and repair of meters which have previously been used for measuring the quantity of electricity supplied.

(13) Nothing in this regulation shall have effect so as to prevent the Authority at any time or in any case carrying out or procuring an audit or an inspection in connection with the performance of its functions under this regulation or charging the requisite fee for so doing.”

7.—(1) For regulation 4, substitute—

“4.—(1) Any person who repairs meters and satisfies the Authority that—

- (a) he owns or has available to him apparatus for the examination, testing and regulation of meters which complies with directions;
- (b) he operates at a repair unit a quality assurance system in respect of every meter repaired by him at that unit which conforms to the standard contained in European Standard EN ISO 9001:2000 or to any standard, technical regulation, manufacturing method or code of practice accepted in other EEA States conformity with which will achieve an equivalent assurance of quality; and
- (c) he would be capable of complying with the conditions set out in paragraph (7),

and, if, at the point of authorisation, paragraph (3) applies, that his proposals for audit are such as would, if implemented, meet the minimum requirements for audit set out in paragraph (4), may, upon payment of the appropriate fee, be authorised by the Authority for the purpose of these regulations for a period not exceeding three years in respect of meters repaired by him at that unit.

(2) Any such authorisation as is mentioned in paragraph (1) may, from time to time, if the authorised person so requests and for so long as the Authority remains satisfied as to the matters described there, be renewed for a further period not exceeding three years by the Authority.

(3) This paragraph applies if the person intends to make arrangements for audit to be carried out otherwise than by the Authority.

(4) The minimum requirements for audit are:

- (a) the audit shall be carried out by a nominated laboratory or a meter examiner;
- (b) a nominated laboratory carrying out an audit shall be permitted at least the same level of access as is to be permitted the Authority under paragraph (7)(f);
- (c) in the course of any period of three months, all relevant apparatus, processes, systems and records shall be submitted to audit;
- (d) the nominated laboratory or, as the case may be, meter examiner shall make their report of each audit directly to the Authority at the same time as they report to the authorised person;
- (e) every report shall be made within 14 days of completion of the audit to which it relates.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(5) Without prejudice to other means open to the Authority to satisfy itself as to the matters contained in paragraph (1)(a) to (c), the Authority may be satisfied as to those matters on the basis of a report by a nominated laboratory which concludes that the requirements of each of sub-paragraphs (a) to (c) are met in relation to the person seeking authorisation.

Provided that the report in question is not more than three months old at the point at which the request for authorisation is made.

(6) A person to whom paragraph (3) did not apply at the point of authorisation who subsequently forms an intention to make arrangements to which that paragraph refers shall inform the Authority of his proposals in such manner as the Authority may direct.

(7) An authorisation granted by the Authority to a person who satisfies the provisions of paragraph (1) shall be subject to the following conditions—

- (a) that the authorisation shall apply only in respect of meters which have been examined, tested and regulated using the apparatus referred to in sub-paragraph (a) of paragraph (1);
- (b) that the authorised person shall operate at all times in each repair unit a quality assurance system which conforms to the standard referred to in sub-paragraph (b) of paragraph (1) and shall maintain a record in permanent form of the system which he operates and of the actions taken to comply with that system in respect of the meter or meters which he intends to submit for certification in accordance with regulation 6;
- (c) that the authorised person shall cause each meter which is repaired at a repair unit to be repaired to a standard and using such materials as would reasonably be expected to enable it to operate within the permitted margins of error for not less than the certification period;
- (d) that the authorised person shall secure that each meter referred to in sub-paragraph (b) of this paragraph shall be examined and tested in accordance with the provisions of Schedule 1 or one of the European provisions;
- (e) that the authorised person shall cause every meter in respect of which a certificate has been issued under regulation 7 or 9 to be so stored while it remains under his control and so packaged for delivery when it is dispatched from his control as to prevent, so far as reasonably practicable, damage which would cause it to operate in a manner which would not conform with the permitted margins of error;
- (f) that the authorised person shall permit the Authority, a meter examiner or any person acting on behalf of the Authority to have access to any manufacturing unit and to examine and test all apparatus and to inspect all records referred to in this paragraph at all reasonable times for the purpose of ensuring that the authorised person is complying with the conditions of his authorisation;
- (g) that where the authorised person has made arrangements for audit to be carried out otherwise than by the Authority and either—
 - (i) those arrangements have ceased; or
 - (ii) no audit has taken place under the arrangements for a period of three months; or
 - (iii) he proposes that the arrangements be modified in any material respectthe authorised person shall inform the Authority immediately, giving reasons in any case and, in the case of (iii), an account of the proposed modifications in such manner as the Authority may direct.
- (h) that the authorised person shall comply with directions;

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(i) that the authorised person shall promptly pay any fee payable by him in accordance with regulation 11.

(8) In the case of proposals made in pursuance of paragraph (6) or of information provided pursuant to paragraph (7)(g)(iii), the Authority shall, within 28 days of being informed of them, notify the authorised person of its view as to whether the requirements of paragraph (4) would be met by such arrangements.

(9) An authorisation under this regulation may be terminated in accordance with paragraph (11) at any time by the Authority if in the reasonable opinion of the Authority the authorised person is in breach of any condition of his authorisation and—

- (a) the Authority has notified the authorised person of the breach;
- (b) in the case of a breach which is, in the opinion of the Authority, capable of being remedied, the authorised person has refused or failed within a reasonable time to remedy that breach after notice has been given to him by the Authority notifying of the breach; and
- (c) the period specified in paragraph (10) has expired.

(10) The period for the purposes of paragraph (9) is, as the case may be, 28 days,—

- (a) in a case to which paragraph (9)(b) applies, from the date on which the Authority notifies the authorised person of its opinion that the authorised person has refused or failed within a reasonable time to remedy the breach;
- (b) in any other case, from the date on which the Authority notified the breach.

(11) Termination of authorisation shall be effected by notice in writing by the Authority served upon the authorised person.

(12) For the purposes of this regulation and Schedule 2—

- “(a) “audit” means an audit of the apparatus, processes, systems (including quality assurance systems) and records available, utilised operated or maintained by the authorised person in connection with his activities as an authorised person under this regulation;
- (b) “inspection” means an inspection to ascertain compliance with any conditions of authorisation and includes any monitoring of directions issued by the Authority; and
- (c) “repair unit” means premises specified to the Authority in writing (which may identify the premises by reference to a plan) at which meters which have previously been used for measuring the quantity of electricity supplied are cleaned, repaired, tested or regulated but excluding any premises which are used for the manufacture or assembly of meters.”

(13) Nothing in this regulation shall have effect so as to prevent the Authority at any time or in any case carrying out or procuring an audit or an inspection in connection with the performance of its functions under this regulation or charging the requisite fee for so doing.”

8. For regulation 5, substitute—

“**5.**—(1) If the Authority is satisfied that a person is competent to carry out the functions contained in or referred to in regulation 7, the Authority may authorise that person to be an examiner for the purpose of the Act.

(2) An authorisation under paragraph (1) may be general or may be limited to one or more descriptions of meters, according to the Authority’s determination of the competence of the person authorised and once given may be modified in the light of further evidence of competence.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(3) An authorisation granted by the Authority under paragraph (1) shall be subject to the following conditions:—

- (a) that the authorised examiner shall only certify meters in the following circumstances—
 - (i) if he is employed by an electricity supplier and a meter is submitted to him for certification by that supplier;
 - (ii) if he is employed by an authorised manufacturer or authorised repairer and a meter has been manufactured by, or, as the case may be, repaired by, and is submitted to him for certification by, that manufacturer or repairer;
 - (iii) if he is employed by a nominated laboratory, and a meter is submitted for certification to the nominated laboratory;
- (b) in the case of an authorised examiner whose authorisation is limited pursuant to paragraph (2), that he shall not certify any meter not falling within the description of meters for which he has been authorised.
- (c) that he shall not certify any meter which he has wholly or partly manufactured or repaired or one which he has examined, tested or regulated in any capacity other than that of authorised examiner;
- (d) that, where regulation 9 applies, he shall examine and test not less than the number of meters selected in accordance with a sampling procedure determined by the Authority having regard to national or international sampling procedures or plans;
- (e) that he shall send to the Authority not more than seven days after the expiry of each month a report stating the number of meters which have been submitted to him in accordance with regulation 6 and the number of meters in respect of which a certificate has been issued under regulation 7 or 9 during the preceding month;
- (f) that he shall retain a copy of each certificate issued by him for a period of not less than one year from the date of issue and shall produce the copy to the Authority if requested to do so;
- (g) that he shall take all reasonable steps to maintain his competence to carry out the functions in respect of which he has been authorised;
- (h) that he shall exercise proper care and attention at all times in performing his functions under regulation 7 or 9.

(4) An authorisation granted by the Authority under this regulation may be terminated in accordance with paragraphs (9) to (11) at any time by the Authority if in the reasonable opinion of the Authority any of the circumstances of paragraphs (5) to (7) applies in his case.

- (5) The authorised examiner is in breach of any condition of his authorisation and—
 - (a) the Authority has notified the authorised examiner of the breach;
 - (b) in the case of a breach which is, in the opinion of the Authority, capable of being remedied, the authorised person has refused or failed within a reasonable time to remedy that breach after notice has been given to him by the Authority notifying of the breach; and
 - (c) the period specified in paragraph (8) has expired.

(6) In the reasonably held opinion of the Authority the authorised examiner is no longer competent to carry out the functions for which he has been authorised.

(7) The authorised examiner has not, for a period of one year performed the functions for which he has been authorised and there is no reason to believe that he will do so within the next following period of 3 months.

- (8) The period for the purposes of paragraph (5) is, as the case may be, 28 days,—
- (a) in a case to which paragraph (5)(b) applies, from the date on which the Authority notifies the authorised examiner of its opinion that the authorised examiner has refused or failed within a reasonable time to remedy the breach;
 - (b) in any other case, from the date on which the Authority notified the breach.

(9) Termination of authorisation shall be effected by notice in writing by the Authority served upon the authorised examiner.

(10) The Authority shall not terminate an authorisation in the circumstances of paragraph (6) or (7) until it has served notice on the authorised examiner of its intention and the ground on which it proposes to act and provided him with a reasonable opportunity to be heard, and in any event until a period of 28 days has expired since the service of the notice.

(11) The Authority shall take account of all representations received before exercising the power of termination.”

9.—(1) Amend regulation 6 as follows.

(2) For paragraph (1), substitute—

“(1) A person who requires a meter to be certified for the purposes of the Act may submit the meter to an authorised examiner who is authorised to certify a meter of that description, to a nominated laboratory or to a meter examiner.”

(3) After paragraph (1), insert—

“(1A) A nominated laboratory to which a meter is submitted under paragraph (1) shall direct either—

- (a) a meter examiner; or
- (b) an authorised examiner

who is in the employ of the laboratory to carry out the procedures provided for under regulations 7 and 9; and those regulations and regulation 8 shall apply as if the meter in question had been submitted to the meter examiner or the authorised examiner so directed.”

10. For regulation 11, substitute—

“11.—(1) The fee payable to the Authority for the examination testing and certification of meters(7)—

- (a) by a meter examiner who is a member of the Authority’s staff, or
- (b) by a meter examiner, not a member of the Authority’s staff, who has been instructed by the Authority, whether directly or indirectly by instruction given to the meter examiner’s employer, to examine and test meters submitted for certification,

shall be calculated in accordance with paragraph (3).

(2) The fees payable to the Authority in respect of authorisation(8) pursuant to regulation 3 or 4 shall be calculated in accordance with paragraphs (4) and (5).

(7) Paragraph 5(4)(b) of Schedule 7 to the Act, which provides for regulations to determine the fees payable for examining, testing and certifying meters, is qualified by Part II of Schedule 1 and Schedule 2 to The Electricity Act 1989 (Fees) Order 1990, S.I. 1990/184, specifying, respectively, additional functions the costs of which are to be taken into account in determining the amount of a fee and additional matters to be taken into account in determining those costs.

(8) Paragraph 5(5)(a) of Schedule 7 to the Act, which provides for regulations to determine the fees payable in respect of any authorisation under sub-paragraph (1) or (3) of that paragraph, is qualified by Part II of Schedule 1 and Schedule 2 to The Electricity Act 1989 (Fees) Order 1990, S.I. 1990/184, specifying, respectively, additional functions the costs of which are to be taken into account in determining the amount of a fee and additional matters to be taken into account in determining those costs.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (3) The fee referred to in paragraph (1) shall be an amount equal to the aggregate of:—
- (a) in the case of a meter examiner who is a member of the authority’s staff,
 - (i) a sum calculated at the rate of £45 per hour for all time that the meter examiner spent examining or testing or procuring the testing of the meter, including any time spent attending at any test carried out by another; plus
 - (ii) any reasonable expenses, including incidental expenses, of the meter examiner in travelling to and from premises other than those of the Authority for the purpose of attending at any test carried out by another; plus
 - (b) a sum equal to the costs incurred by the Authority (other than the cost of employing the meter examiner referred to in sub-paragraph (a)) attributable to procuring from any person the provision of premises, equipment or personnel (including a meter examiner) for the purpose of examining or carrying out any test on the meter.
- (4) The fee for an authorisation under regulation 3(1) or 4(1) shall be an amount equal to the costs incurred by the Authority in determining whether it is satisfied as to the matters referred to in paragraphs 3(1)(a) to (c) and 4(1)(a) to (c), including the cost to the Authority of obtaining a report from a nominated laboratory in respect of the matters referred to in paragraphs 3(1)(a) to (c) and 4(1)(a) to (c).
- (5) The fee for an audit or an inspection carried out by or procured by the Authority shall be:
- (a) in the case of an audit or inspection carried out by a member or members of the Authority’s staff, £110 per person per hour.
 - (b) in the case of an audit or inspection procured by the Authority, a sum equal to the costs incurred by the Authority attributable to obtaining the audit or inspection.
- (6) For the purpose of calculation under paragraphs (3) and (5) any part of an hour exceeding 30 minutes shall be charged as an hour.”

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the Meters (Approval of Pattern or Construction and Manner of Installation) Regulations 1998 and the Meters (Certification) Regulations 1998 with the following effect.

The Meters (Approval of Pattern or Construction and Manner of Installation) Regulations 1998 (“the Approval Regulations”) are amended principally so as to provide that a meter examiner (appointed under paragraph 4 of Schedule 7 to the Electricity Act 1989) shall not, unless asked to do so by a person submitting a meter for approval, carry out examinations or tests on a meter submitted for approval of its pattern or construction or manner of installation if the report of a nominated laboratory on the meter enables the examiner to conclude that the specified requirement will be met. The requirement is that a meter of that pattern or construction or a meter installed in that manner will be capable of accurately recording the quantity of electricity for which the meter is intended to operate.

The amendments also enable the Gas and Electricity Markets Authority (“the Authority”) to use the services of a nominated laboratory in carrying out its functions under the Approval Regulations.

The Meters (Certification) Regulations 1998 (“the Certification Regulations”) are amended principally so as: to enable the Authority to rely on a report prepared by a nominated laboratory to satisfy itself as to the fitness of a manufacturer or repairer of meters to be authorised; to amend the conditions that apply to an examiner authorised under the regulations; to facilitate the use by an authorised manufacturer or repairer of a nominated laboratory in the arrangements they make for audit of their apparatus, processes, systems and records; to enable a nominated laboratory to deploy authorised examiners employed by it; and to enable the Authority to use the services of a nominated laboratory in carrying out its functions under the Certification Regulations.

The way in which fees are charged for approval, authorisation and certification also changes for submissions or requests for authorisation made on or after the date on which these Regulations come into force to allow the Authority to recover the costs of using external resources in the carrying out of its functions.

A Regulatory Impact Assessment for this Instrument has been prepared and copies can be obtained from Ofgem, 9 Millbank, London, SW1P 3GE. A copy of the Regulatory Impact Assessment has been placed in the library of both Houses of Parliament.
