The Beet Seed (England) Regulations 2002 (revoked)

PART II

Procedures Relating to the Official Certification of Seed

Entry of seed lots

5.—(1) Subject to paragraph (2), an application to enter a seed lot from which it is intended that a crop is to be produced from which pre-basic, basic or CS seed is to be harvested may be made to the Secretary of State by a registered person.

(2) An application made under this regulation—

- (a) shall be made in such form and manner as the Secretary of State may require;
- (b) shall be made—
 - (i) at such time as the Secretary of State may require, or
 - (ii) in the case of an application to enter a seed lot made after that time, at such time as the Secretary of State may otherwise allow; and
- (c) shall be accompanied—
 - (i) unless otherwise agreed by the Secretary of State, by an official sample of seed from the seed lot that is identified by the reference number of the seed lot from which it was taken, and
 - (ii) by such information and other documents as the Secretary of State may require, including, if required, a copy of a qualifying seed test report relating to the seed lot.

(3) At an appropriate time following the receipt of an application made under this regulation, the Secretary of State may sow a control plot with seed taken from an official sample of seed taken from the seed lot (whether the official sample submitted in accordance with paragraph (2)(c)(i) or another official sample of seed taken from the seed lot).

(4) In this regulation—

“appropriate time” means a time during the period when seed of the relevant species is usually sown, and

“qualifying seed test report” means—

- (a) a seed test report issued in accordance with regulation 10(8), (9), (10) or (11), or
- (b) in a case where an official sample taken from the seed lot has been found to meet the conditions for the category of seed for which it was tested under regulation 10(6)(b), a seed test report issued in accordance with regulation 10(12)(b).

Entry of crop

6.—(1) A registered person who has sown seed from an entered or late entered seed lot from which it is intended to produce a crop from which pre-basic, basic or CS seed is to be harvested shall notify the Secretary of State that he has sown the seed.

(2) A notification given under this regulation—

- (a) shall be given in such form and manner as the Secretary of State may require;
- (b) shall be given within such time as the Secretary of State may require;
- (c) shall specify the reference number of the seed lot from which the sown seed has been taken; and
- (d) shall be accompanied by such information and other documents as the Secretary of State may require.

(3) Subject to paragraph (4), the Secretary of State shall acknowledge receipt of a notification given under this regulation.

(4) Subject to paragraph (5), unless specifically requested to do so by the applicant, the Secretary of State shall not individually acknowledge the receipt of each notification given under this regulation that she receives but shall periodically provide the applicant with a list of those crops for which she has received such a notification from him.

(5) Where the Secretary of State has previously provided the applicant with a list of those crops for which she has received a notification under this regulation from him, any subsequent list periodically provided to the applicant under paragraph (4) shall list only those crops in respect of which the Secretary of State has received a notification under this regulation from him since last providing the applicant with the last such list.

Field inspection of crops

7.—(1) Subject to paragraph (2), an application may be made to the Secretary of State by a registered person for the field inspection of—

- (a) a crop being produced in England from an entered or late entered seed lot from which it is intended that pre-basic seed is to be harvested (“a regulation 7(1)(a) crop”);
- (b) a crop being produced in England from an entered or late entered seed lot from which it is intended that basic seed is to be harvested (“a regulation 7(1)(b) crop”);
- (c) a crop being produced in England from a late entered seed lot from which it is intended that CS seed is to be harvested (“a regulation 7(1)(c) crop”); or
- (d) a crop being produced in England from an entered seed lot from which it is intended that CS seed is to be harvested of a variety that is not listed but for which an outstanding application for listing has been made (“a regulation 7(1)(d) crop”).

(2) An application made under paragraph (1) shall not be made in respect of a regulation 7(1)(a), (b) or (c) crop to produce seed of a variety, or hybrid variety, that is not listed, or seed of a component of a hybrid variety that is not listed, unless—

- (a) an application for the listing of the variety or the hybrid variety has been made which has not been withdrawn or finally determined; or
- (b) a marketing extension is in force in respect of the variety or hybrid variety.

(3) Subject to paragraph (4), an application for the field inspection of a crop being produced in England from an entered seed lot from which it is intended that CS seed is to be harvested (“a regulation 7(3) crop”) may be made to a licensed crop inspector by a registered person.

(4) An application under paragraph (3) shall not be made—

- (a) in respect of a crop to produce seed of a variety or hybrid variety that is not listed unless a marketing extension is in force in respect of the variety or hybrid variety, and
 - (b) except in respect of a crop that is being produced from—
 - (i) seed that has been subject to satisfactory official post control, or
 - (ii) seed that is subject to official post control and for which a determination as to whether the seed is satisfactory seed from which to produce CS seed is awaited.
- (5) If required by the Secretary of State, an application made under paragraph (3) shall be considered by her instead of by a licensed crop inspector.
- (6) If permitted by the Secretary of State, an application made under paragraph (3) may be made to her instead of to a licensed crop inspector.
- (7) An application made under paragraph (1) or (3) shall be made in such form and manner and at such time as the Secretary of State may require and shall be accompanied by such information, material, records, illustrations and other documents as she may require.
- (8) Following the receipt of an application made under paragraph (1) or (3), the Secretary of State (in the case of an application made under paragraph (1) or an application made under paragraph (3) that is being considered by her under paragraph (5) or has been made to her under paragraph (6)), or the licensed crop inspector to whom an application has been made under paragraph (3) (as the case may be) shall inspect the crop in accordance with the relevant provisions of paragraph 9 of Schedule 3 to determine—
- (a) whether the crop meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of the category of seed intended to be harvested, and
 - (b) unless requested not to do so by the applicant, whether it meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of any other category of seed to which paragraph (17) applies.
- (9) Subject to paragraph (13), where in the case of an application made to the Secretary of State under paragraph (1) or an application made under paragraph (3) that is being considered by her under paragraph (5) or has been made to her under paragraph (6), the inspected crop is found to satisfy the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of—
- (a) the category of seed intended to be harvested, and
 - (b) where applicable, any other category of seed to which paragraph (17) applies,
- the Secretary of State shall issue a field inspection report (which she shall retain as a lodged report unless instructed not to do so by the applicant) stating (by reference to the relevant category or categories) that the crop has been found to meet those conditions and shall send the report, or (in a case where the original report is to be retained as a lodged report by the Secretary of State) a copy of the report, to the applicant.
- (10) Where in the case of an application made to a licensed crop inspector under paragraph (3) the inspected crop is found to satisfy the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of CS seed, the licensed crop inspector shall issue a field inspection report to the applicant stating that the crop has been found to meet those conditions.
- (11) Subject to paragraph (13), where in the case of an application made to the Secretary of State under paragraph (1) or an application made under paragraph (3) that is being considered by her under paragraph (5) or has been made to her under paragraph (6), the inspected crop is found not to satisfy the conditions laid down in Schedule 3 or Part I of Schedule 4 for the production of the category of seed intended to be harvested, the Secretary of State shall issue a field inspection report (which she shall retain as a lodged report unless instructed not to do so by the applicant)—
- (a) stating that the crop has been found not to meet those conditions, and

Status: Point in time view as at 31/01/2003.

Changes to legislation: There are currently no known outstanding effects for the The Beet Seed (England) Regulations 2002 (revoked), PART II. (See end of Document for details)

- (b) in a case where the crop has been inspected to determine whether it meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of any other category of seed to which paragraph (17) applies, stating the conditions (by reference to the relevant category or categories), if any, met by the crop,

and shall send the report, or (in a case where the original report is to be retained as a lodged report by the Secretary of State) a copy of the report, to the applicant.

(12) Where in the case of an application made to a licensed crop inspector under paragraph (3) the inspected crop is found not to satisfy the conditions laid down in Schedule 3 or Part I of Schedule 4 for the production of CS seed, the licensed crop inspector shall issue a field inspection report to the applicant stating that the crop has been found not to meet those conditions.

(13) Where—

- (a) an application has been made to the Secretary of State under paragraph (1), or an application has been made under paragraph (3) that is being considered by her under paragraph (5) or has been made to her under paragraph (6), in respect of a crop produced from seed which was taken from a seed lot for which a control plot has been sown, and
- (b) the results of the examination of the control plot show that the plants produced in the plot do not meet the conditions laid down in Schedule 3 or Part I or III of Schedule 4 for the production of the category of seed intended to be harvested,

the Secretary of State may take account of the results of that examination when carrying out an inspection of the crop to which the paragraph (1) or (3) application relates and in determining whether she should issue a field inspection report under paragraph (9) or (11).

(14) Where paragraph (15) applies, the Secretary of State may carry out her own examination of—

- (i) a crop to which an application made under paragraph (3) relates;
- (ii) any other crops that are being produced from seed that has been taken from the same seed lot and in respect of which an application has been made under paragraph (3); or
- (iii) both the crops referred to in paragraphs (i) and (ii).

(15) This paragraph applies where—

- (a) an application has been made to a licensed crop inspector under paragraph (3) in respect of seed that is subject to official post-control;
- (b) the plants produced in the control plot being used for the purpose of the official post control have been examined by or on behalf of the Secretary of State, the Scottish Ministers, the National Assembly for Wales or the Department of Agriculture and Rural Development; and
- (c) it has been determined by or on behalf of the Secretary of State, the Scottish Ministers, the National Assembly for Wales or the Department of Agriculture and Rural Development, having regard to the conditions laid down in paragraphs 2 and 3 of Schedule 3, and paragraph 1 of Schedule 4, that the plants produced in the control plot are not satisfactory plants from which to harvest CS seed.

(16) Where the Secretary of State has carried out an examination of the crop referred to in paragraph (14)(i) or the crops referred to in paragraph (14)(ii), or has carried out an examination of both the crop referred to in paragraph (14)(i) and the crops referred to in paragraph (14)(ii), she shall inform the applicant whether she is satisfied that the seed used to produce the crop to which his application relates was satisfactory seed to be used for the production of CS seed, and, if the Secretary of State is satisfied that this is the case, the seed used to produce the crop, and seed from the same seed lot, shall be treated as being seed that has been subject to satisfactory official post control for the production of CS seed.

- (17) This paragraph applies to the following categories of seed—
- (a) in the case of an application made under paragraph (1) relating to a crop that has been produced from breeder’s seed or officially certified pre-basic seed and from which it is intended to harvest pre-basic seed, to the category of basic seed, and
 - (b) in the case of an application made under paragraph (1) relating to a crop produced from breeder’s seed or officially certified pre-basic seed and from which it is intended to harvest basic seed other than a component of a hybrid, to the category of pre-basic seed.

(18) In this regulation “seed that is subject to official post control” means seed from a seed lot for which a control plot has been sown by or on behalf of the Secretary of State, the Scottish Ministers, the National Assembly for Wales or the Department of Agriculture and Rural Development to produce plants which are to be, or have been, examined by or on behalf of the Secretary of State, the Scottish Ministers, the National Assembly for Wales or the Department of Agriculture and Rural Development, as the case may be, to determine whether, having regard to the conditions laid down in—

- (a) paragraphs 2, 3 and 10 of Schedule 3, and
- (b) paragraphs 1 and 12 of Schedule 4,

the plants produced in the plot indicate that the corresponding plants in the field are satisfactory plants from which to harvest CS seed.

Lodging of field inspection reports and similar documents

8.—(1) Subject to paragraphs (2) and (3), an application to lodge a copy of a document to which paragraph (2) applies may be made to the Secretary of State by a registered person.

- (2) This paragraph applies—
- (a) in relation to a crop produced in England, to a field inspection report issued under regulation 7(9), (10), (11) or (12);
 - (b) in relation to a crop produced in the United Kingdom elsewhere than in England, to a report relating to the crop equivalent to that specified in sub-paragraph (a) issued—
 - (i) by or on behalf of the Scottish Ministers, the National Assembly for Wales or the Department of Agriculture and Rural Development, or
 - (ii) by a licensed crop inspector;
 - (c) in relation to a crop produced in another member State, to an Annex IV(C) document relating to the crop issued by or on behalf of the competent seed certification authority in the member State; and
 - (d) in relation to a crop produced in an equivalent third country, to a Part II.A(3) official certificate relating to the crop issued by the approved seed certification authority in that country.
- (3) An application made under this regulation—
- (a) shall be made in such form and manner as the Secretary of State may require;
 - (b) shall be made within such time as the Secretary of State may require but, unless otherwise permitted by the Secretary of State, shall be made not later than the time when any seed test report relating to the seed harvested from the crop is lodged with the Secretary of State under regulation 11;
 - (c) shall, subject to paragraph (4), be accompanied—
 - (i) in relation to a crop produced in England, by a copy of the document referred to in paragraph (2)(a);

Status: Point in time view as at 31/01/2003.

Changes to legislation: There are currently no known outstanding effects for the The Beet Seed (England) Regulations 2002 (revoked), PART II. (See end of Document for details)

- (ii) in relation to a crop produced in the United Kingdom elsewhere than in England, by a copy of the document referred to in paragraph (2)(b) except that this need not be provided in a case where confirmation that the crop meets the conditions for the production of the appropriate category of seed has already been provided to the Secretary of State by or on behalf of the Scottish Ministers, the National Assembly for Wales or the Department of Agriculture and Rural Development (as the case may be);
- (iii) in relation to a crop produced in another member State, by a copy of the document referred to in paragraph (2)(c);
- (iv) in relation to a crop produced in an equivalent third country, by a copy of the document referred to in paragraph (2)(d); and
- (v) by such other information and documents as the Secretary of State may require.

(4) The Secretary of State may permit, subject to any conditions that she may impose, an application made under this regulation relating to a crop for which the applicant previously made an application under regulation 7(3) to be accompanied by the following document instead of the field inspection report issued under regulation 7(10) or (12), namely a document relating to the crop (whether relating to that crop alone or relating to other crops in respect of which an application has been made by the applicant under regulation 7(3))—

- (a) that states, by reference to the relevant category, the conditions met by that crop;
- (b) that identifies the licensed crop inspector or inspectors who inspected the crop;
- (c) that states that during a period of three years from the date of issue of the field inspection report, the original report will be produced to the Secretary of State on demand and that a copy of the report will be made available to her on request during that period; and
- (d) that contains such other information as the Secretary of State may require.

(5) Where a document of the type specified in paragraph (4) accompanies an application made under this regulation instead of a field inspection report, the applicant shall produce the field inspection report referred to in paragraph (3) to the Secretary of State on demand during the period of three years from the date of the issue of the field inspection report and shall make a copy of the report available to her on request during that period.

Re-grading of crops

9.—(1) An application to re-grade—

- (a) a crop for the production of seed of the category specified in entry 1 or 2 in column 1 of the following table as a crop for the production of seed of the category specified in the corresponding entry in column 2 of the table (“the new category”), or
- (b) a crop for the production of seed of the category specified in entry 3 in column 1 of the following table as a crop for the production of seed of either of the categories specified in the corresponding entry in column 2 of the table (“the new category”),

may be made to the Secretary of State by a registered person—

<i>Column (1)</i>	<i>Column (2)</i>
1. Pre-basic seed	Basic seed
2. Basic seed	Pre-basic seed
3. CS seed	Pre-basic seed
	Basic seed

(2) An application made under this regulation shall be made in such form and manner and at such time as the Secretary of State shall require and shall be accompanied by—

- (a) a copy of the field inspection report previously issued in respect of the crop unless this has previously been lodged with her, and
- (b) such other information as the Secretary of State may require for the purpose of determining the application.

(3) Where an application under this regulation has been made in respect of a crop that has not been harvested the Secretary of State shall carry out a field inspection of the crop to determine whether it meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of the new category of seed if—

- (a) the previous field inspection report issued in respect of the crop was not issued by her, and
- (b) the condition and stage of development of the crop permit an adequate examination.

(4) If the Secretary of State—

- (a) has carried out a field inspection of the crop (whether in connection with the original application for a field inspection of the crop or in accordance with paragraph (3));
- (b) is satisfied that the crop has been produced by or under the responsibility of the breeder according to accepted practices for the maintenance of the variety; and
- (c) is satisfied that the crop meets or (if the crop has already been harvested) would have met the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of the new category of seed;

she shall notify the applicant that the crop has been found to meet or (if the crop has already been harvested) it has been found that it would have met the conditions referred to in paragraph (c) and that his application to re-grade the crop has been successful.

(5) If the Secretary of State is satisfied that the conditions specified in paragraph (4) have not been met she shall notify the applicant that his application to re-grade the crop has been unsuccessful.

Seed testing

10.—(1) Subject to paragraphs (2), (3) and (4), an application may be made to a licensed seed testing station by a registered person for the testing of an official sample of a qualifying seed lot of—

- (a) seed as pre-basic seed (“a regulation 10(1)(a) seed lot”);
- (b) seed as basic seed (“a regulation 10(1)(b) seed lot”); or
- (c) seed as CS seed (“a regulation 10(1)(c) seed lot”).

(2) An application made under this regulation shall not be made in respect of seed of a variety that is not listed, or seed of a component of a hybrid variety that is not listed, unless—

- (a) an application for listing of the variety, or hybrid variety, has been made which has not been withdrawn or finally determined, or
- (b) a marketing extension is in force in respect of the variety or hybrid variety.

(3) An application made under this regulation may be considered by the Secretary of State instead of a licensed seed testing station.

(4) If permitted by the Secretary of State, an application made under this regulation may be made to her instead of a licensed seed testing station.

(5) An application made under this regulation—

- (a) shall be made in such form and manner and at such time as the Secretary of State may require, and

Status: Point in time view as at 31/01/2003.

Changes to legislation: There are currently no known outstanding effects for the The Beet Seed (England) Regulations 2002 (revoked), PART II. (See end of Document for details)

(b) shall be accompanied by an official sample of the seed to be tested and such other information, material, seeds, records, illustrations and other documents as the Secretary of State may require.

(6) Following the receipt of an application made under this regulation the licensed seed testing station (or the Secretary of State in a case where paragraph (3) or (4) applies) shall, subject to paragraph (7), test seed taken from the official sample provided under paragraph (5)(b) to determine whether it meets the conditions laid down in Part II of Schedule 4—

- (a) for the category of seed for which the application is being made, and
- (b) unless requested not to do so by the applicant, for any other category of seed to which paragraph (14) applies.

(7) Where a seed test report has previously been issued by a licensed seed testing station (or the Secretary of State in a case where paragraph (3) or (4) applies) in accordance with paragraph (8)(a), (9), (10), (11) or (12) in respect of a seed lot, the licensed seed testing station (or the Secretary of State in a case where paragraph (3) or (4) applies) may decide not to test any further official sample of that seed lot for the purposes of paragraph (6) if the information contained in the previously issued report contains sufficient information to enable it (or her) to determine that the official sample would meet the conditions laid down in Part II of Schedule 4 —

- (a) for the appropriate category of seed, and
- (b) where applicable, for any other category of seed to which paragraph (14) applies.

(8) Subject to paragraph (13), where—

- (a) the official sample is found to satisfy the conditions laid down in Part II of Schedule 4 for—
 - (i) the appropriate category of seed, and
 - (ii) where applicable, for any other category of seed to which paragraph (14) applies, or
- (b) the provisions of paragraph (7) apply,

the licensed seed testing station (or the Secretary of State where paragraph (3) or (4) applies) shall issue a seed test report to the applicant stating (by reference to the relevant category or categories of seed) that the seed lot has been found to meet those conditions.

(9) Subject to paragraph (13), where it has been determined, by way of a Schedule 4 germination test, that the official sample taken from a regulation 10(1)(a) or (b) seed lot will not meet the applicable germination condition but the sample is found to satisfy all the other conditions laid down in Part II of Schedule 4 for the appropriate category of seed, the licensed seed testing station (or the Secretary of State where paragraph (3) or (4) applies), shall issue a seed test report to the applicant containing a statement to that effect.

(10) Where (otherwise than in connection with a retest of the seed) the results of a Schedule 4 germination test of an official sample of a seed lot referred to in paragraph (1) are awaited, and, except for the result of that test, the official sample has otherwise been found to meet all the other conditions laid down in Part II of Schedule 4—

- (a) for the appropriate category of seed, and
- (b) where applicable, for any other category of seed to which paragraph (14) applies,

the licensed seed testing station (or the Secretary of State in a case where paragraph (3) or (4) applies), shall, subject to paragraph (13), issue an interim seed test report to the applicant stating that the results of the Schedule 4 germination test for the official sample are awaited but that it has otherwise been found to meet all the other conditions laid down in Part II of Schedule 4 for the appropriate category of seed, and, where applicable, for any relevant category of seed to which paragraph (14) applies.

(11) Where, following the issue of an interim seed test report under paragraph (10), the tested seed is found to meet the applicable germination condition, the licensed seed testing station (or the Secretary of State in a case where paragraph (3) or (4) applies), shall, subject to paragraph (13), issue

a seed test report to the applicant stating that the official sample has been found to meet the conditions laid down in Part II of Schedule 4 for the appropriate category of seed, and, where applicable, for any other category of seed to which paragraph (14) applies.

(12) Subject to paragraphs (9) and (10), where an official sample of a seed lot referred to in paragraph (1) is found not to satisfy the conditions laid down in Part II of Schedule 4 for the appropriate category of seed, the licensed seed testing station (or the Secretary of State in a case where paragraph (3) or (4) applies) shall issue and send to the applicant a seed test report—

- (a) stating that the official sample has been found not to meet those conditions, and
- (b) subject to paragraph (13), in a case where the seed has been tested to determine whether it meets the conditions laid down in Part II of Schedule 4 for any other category of seed to which paragraph (14) applies, stating (by reference to the relevant category) whether the seed has been found to meet the conditions for any such category.

(13) If it appears to the Secretary of State that an official sample of the seed lot taken for the purpose of a test in order to ascertain whether it met the appropriate conditions laid down in Part II of Schedule 4 was not taken in accordance with the requirements of regulation 20 the Secretary of State may—

- (a) in a case where paragraph (3) or (4) applies, refuse to issue a seed test report in accordance with paragraph (8), (9), (10), (11) or (12)(b), and, in such a case, shall notify the applicant of her decision and the reason for it, or
- (b) in a case where paragraph (3) or (4) does not apply, direct the licensed seed testing station to refuse to issue a seed test report in accordance with those paragraphs and the licensed seed testing station shall comply with that direction and shall notify the applicant of the reason for its refusal to issue the report.

(14) This paragraph applies to the following categories of seed—

- (a) in the case of an application made under this regulation relating to a regulation 10(1)(a) seed lot, to the category of basic seed, and
- (b) in the case of an application made under this regulation relating to a regulation 10(1)(b) seed lot, other than a component of a hybrid variety, to the category of pre-basic seed.

(15) In this regulation “qualifying seed lot” means a seed lot—

- (a) containing seed harvested from a crop produced in England for which a field inspection report has been issued in accordance with—
 - (i) regulation 7(9);
 - (ii) regulation 7(10); or
 - (iii) regulation 7(11) in a case where the crop has been found to meet the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of any category of seed referred to in regulation 7(11)(b);
- (b) containing seed harvested from a crop produced in the United Kingdom elsewhere than in England—
 - (i) in respect of which the Secretary of State has received confirmation of crop approval by or on behalf of the Scottish Ministers, the National Assembly for Wales or the Department of Agriculture and Rural Development (as the case may be) that the crop meets conditions equivalent to those laid down in Schedule 3 and Part I of Schedule 4, or
 - (ii) for which a copy of the field inspection report relating to the crop has been lodged with the Secretary of State in accordance with regulation 8; or
- (c) imported into the United Kingdom as—

Status: Point in time view as at 31/01/2003.

Changes to legislation: There are currently no known outstanding effects for the The Beet Seed (England) Regulations 2002 (revoked), PART II. (See end of Document for details)

- (i) not finally certified pre-basic, basic or CS seed harvested in another member State and for which the Annex IV(C) document relating to the crop from which the seed in the seed lot was harvested has been lodged with the Secretary of State in accordance with regulation 8, or
- (ii) not finally certified CS seed harvested in an equivalent third country and for which the Part II.A(3) official certificate relating to the crop from which the seed in the seed lot was harvested has been lodged with the Secretary of State in accordance with regulation 8.

Lodging of seed test reports

11.—(1) A registered person to whom a final seed test report has been sent shall lodge the report with the Secretary of State —

- (a) except in relation to seed to which sub-paragraph (b) applies, within one month of the report being issued; and
- (b) in a case where the seed to which the final seed test report relates -
 - (i) is of a variety that is not listed, or
 - (ii) is a component of a hybrid variety that is not listed,
 within one month of the date on which the variety or hybrid variety (as the case may be) is listed.

(2) An application to lodge a final seed test report—

- (a) shall be made in such form and manner as the Secretary of State may require, and
- (b) shall be accompanied by the final seed test report and such other information and documents as the Secretary of State may require.

(3) Subject to paragraph (4), the Secretary of State shall acknowledge receipt of each final seed test report lodged with her.

(4) Subject to paragraph (5), unless specifically requested to do so by the applicant, the Secretary of State shall not individually acknowledge the receipt of each final seed test report lodged with her by the applicant but shall periodically provide the applicant with a list of those seed lots for which the applicant has lodged a final seed test report with her.

(5) Where the Secretary of State has previously provided the applicant with a seed test report list, the list periodically provided to the applicant under paragraph (4) shall list only those seed lots for which the applicant has lodged a final seed test report with her during the period since she last provided the applicant with a seed test report list.

(6) In this regulation “final seed test report” means a seed test report issued in accordance with regulation 10(8), (9), (11) or (12).

Re-grading of seed

12.—(1) An application to re-grade—

- (a) seed of the type specified in entry 1, 2, 3 or 4 in column 1 of the table in Schedule 5 as seed of the type specified in the corresponding entry in column 2 of the table (“the new category”), or
- (b) seed of the type specified in entry 5 in column 1 of the table in Schedule 5 as seed of either of the types specified in the corresponding entry in column 2 of the table (“the new category”),

may be made to the Secretary of State by a registered person.

(2) An application made under this regulation shall be made in such form and manner and at such time as the Secretary of State shall require and, if required by the Secretary of State, shall be accompanied by—

- (a) an official sample of the seed to which the application relates;
- (b) an application made under regulation 10 for the testing of an official sample of the seed lot; and
- (c) such other information and other documents as the Secretary of State may require for the purpose of determining the application.

(3) The Secretary of State may test, or arrange for a licensed seed testing station to test, seed from an official sample of a seed lot in respect of which an application has been made under this regulation to determine whether it meets the conditions laid down in Part II of Schedule 4 for the new category of seed.

(4) Where—
