- (b) where applicable, any other category of seed to which paragraph (17) applies,

the Secretary of State shall issue a field inspection report (which she shall retain as a lodged report unless instructed not to do so by the applicant) stating (by reference to the relevant category or categories) that the crop has been found to meet those conditions and shall send the report, or (in a case where the original report is to be retained as a lodged report by the Secretary of State) a copy of the report, to the applicant.

(10) Where in the case of an application made to a licensed crop inspector under paragraph (3) the inspected crop is found to satisfy the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production—

the licensed crop inspector shall issue a field inspection report to the applicant stating (by reference to the relevant category or categories of seed) that the crop has been found to meet those conditions.

(11) Subject to paragraph (13), where in the case of an application made to the Secretary of State under paragraph (1) or an application made under paragraph (3) that is being considered by her under paragraph (5) or has been made to her under paragraph (6), the inspected crop is found not to satisfy the conditions laid down in Schedule 3 or Part I of Schedule 4 for the production of the category of seed intended to be harvested, the Secretary of State shall issue a field inspection report (which she shall retain as a lodged report unless instructed not to do so by the applicant)—

- (a) stating that the crop has been found not to meet those conditions, and
- (b) in a case where the crop has been inspected to determine whether it meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of any other category of seed to which paragraph (17) applies, stating the conditions (by reference to the relevant category or categories of seed), if any, met by the crop, and shall send the report, or (in a case where the original report is to be retained as a lodged report by the Secretary of State) a copy of the report, to the applicant.

(12) Where in the case of an application made to a licensed crop inspector under paragraph (3) the inspected crop is found not to satisfy the conditions laid down in Schedule 3 or Part I of Schedule 4 for the production of the category of seed intended to be harvested, the licensed crop inspector shall issue a field inspection report to the applicant—

- (a) stating that the crop has been found not to meet those conditions, and
- (b) in a case where the crop has been inspected to determine whether it meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of any other category of seed to which paragraph (17) applies, stating the conditions (by reference to the relevant category or categories of seed), if any, met by the crop.

(13) Where—

- (a) an application has been made to the Secretary of State under paragraph (1), or an application has been made under paragraph (3) that is being considered by her under

paragraph (5) or has been made to her under paragraph (6), in respect of a crop produced from seed which was taken from a seed lot for which a control plot has been sown, and

- (b) the results of the examination of the control plot show that the plants produced in the plot do not meet the conditions laid down in Schedule 3 or Part I, III or IV of Schedule 4 for the production of the category of seed intended to be harvested,

the Secretary of State may take account of the results of that examination when carrying out an inspection of the crop to which the application relates and in determining whether she should issue a field inspection report under paragraph (9) or (11).

(14) Where paragraph (15) applies, the Secretary of State may carry out her own examination of—

- (i) a crop to which an application made under paragraph (3) relates;

that the plants produced in the control plot are not satisfactory plants from which to produce seed of the category to which the application relates.

(16) Where the Secretary of State has carried out an examination of the crop referred to in paragraph (14)(i) or the crops referred to in paragraph (14)(ii), or has carried out an examination of both the crop referred to in paragraph (14)(i) and the crops referred to in paragraph (14)(ii), she shall inform the applicant whether she is satisfied that the seed used to produce the crop to which his application relates was satisfactory seed to be used for the production of the category of seed to which his application relates, and, if the Secretary of State is satisfied that this is the case, the seed used to produce the crop, and seed from the same seed lot, shall be treated as being seed that has been subject to official post-control for the production of that category of seed.

(17) This paragraph applies to the following categories of seed—

- (a) in the case of an application made under paragraph (1) relating to a regulation 8(1)(a) crop that has been produced from breeder's seed, to the category of basic seed;

 - (ii) the condition and stage of development of the crop permit an adequate examination; and
- (b) the Secretary of State may, in the case of an application to re-grade a crop as a crop to produce CS, C1, C2 or C3 seed, carry out a field inspection of the crop to determine whether it meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of the new category of seed if the condition and stage of development of the crop permit an adequate examination.

(4) If the Secretary of State—

- (a) in the case of an application to re-grade a crop as a crop to produce pre-basic or basic seed—
 - (i) has carried out a field inspection of the crop (whether in connection with the original application for a field inspection of the crop or in accordance with paragraph (3));

- (c) in the case of an application to re-grade a crop as a crop to produce C2 seed—
- (i) is satisfied that the crop has been produced directly from UK, EC, third country or overseas tested officially certified basic or C1 seed of a listed variety, or, with the breeder's written authority, from UK, EC or overseas tested officially certified pre-basic seed of a listed variety; and

- (i) is satisfied that the crop has been produced directly from UK, EC, third country or overseas tested officially certified basic or C1 seed of a listed variety, UK, EC or overseas tested officially certified C2 seed of a listed variety, or, with the breeder's written authority, from UK, EC or overseas tested officially certified pre-basic seed of a listed variety; and
 - (ii) is satisfied that the crop meets or (if the crop has already been harvested) would have met the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of C3 seed,

she shall notify the applicant that the crop has been found to meet or (if the crop has already been harvested) it has been found that it would have met the conditions referred to in subparagraph (a)(iii), (b)(ii), (c)(ii) or (d)(ii), as the case may be, and that his application to re-grade the crop has been successful.

(5) If the Secretary of State is satisfied that the conditions specified in paragraph (4) for the relevant category of seed have not been met she shall notify the applicant that his application to re-grade the crop has been unsuccessful.

- (a) for the appropriate category of seed, and
 - (b) where applicable, for any other category of seed to which paragraph (14) applies.
- (8) Subject to paragraph (13), where—

 - (i) the appropriate category of seed, and
 - (ii) where applicable, for any other category of seed to which paragraph (14) applies, or
 - (b) the provisions of paragraph (7) apply,

(9) Subject to paragraph (13), where it has been determined, by way of a Schedule 4 germination test, that the official sample taken from a regulation 11(1)(a) or (b) seed lot will not meet the applicable germination condition but the sample is found to satisfy all the other conditions laid down in Part II of Schedule 4 for the appropriate category of seed, the licensed seed testing station (or the Secretary of State where paragraph (3) or (4) applies), shall issue a seed test report to the applicant containing a statement to that effect.

(10) Where (otherwise than in connection with a retest of the seed) the results of a Schedule 4 germination test of an official sample of a seed lot referred to in paragraph (1) are awaited, and, except for the result of that test, the official sample has otherwise been found to meet the other conditions laid down in Part II of Schedule 4—

(a) for the appropriate category of seed, and

(b) where applicable, for any other category of seed to which paragraph (14) applies,

the licensed seed testing station (or the Secretary of State in a case where paragraph (3) or (4) applies), shall, subject to paragraph (13), issue an interim seed test report to the applicant stating that the results of the Schedule 4 germination test for the official sample are awaited but that it has otherwise been found to meet the other conditions laid down in Part II of Schedule 4 for the appropriate category of seed, and, where applicable, for any other category of seed to which paragraph (14) applies.

(11) Where, following the issue of an interim seed test report under paragraph (10), the tested seed is found to meet the applicable germination condition for the appropriate category of seed, the licensed seed testing station (or the Secretary of State in a case where paragraph (3) or (4) applies), shall, subject to paragraph (13), issue a seed test report to the applicant stating that the official sample has been found to meet the conditions laid down in Part II of Schedule 4 for the appropriate category of seed, and, where applicable, for any other category of seed to which paragraph (14) applies.

(a) stating that the official sample has been found not to meet those conditions, and

(b) subject to paragraph (13), in a case where the seed has been tested to determine whether it meets the conditions laid down in Part II of Schedule 4 for any category of seed to which paragraph (14) applies, stating (by reference to the relevant category) whether the seed has been found to meet the conditions for any such category.

(13) If it appears to the Secretary of State that an official sample of the seed lot taken for the purpose of a test in order to ascertain whether it met the appropriate conditions laid down in Part II of Schedule 4 was not taken in accordance with the requirements of regulation 23 the Secretary of State may—

(a) in a case where paragraph (3) or (4) applies, refuse to issue a seed test report in accordance with paragraph (8), (9), (10), (11) or (12)(b), and, in such a case, shall notify the applicant of her decision and the reason for it, or

(b) in a case where paragraph (3) or (4) does not apply, direct the licensed seed testing station to refuse to issue a seed test report in accordance with those paragraphs and the licensed seed testing station shall comply with that direction and shall notify the applicant of the reason for its refusal to issue the report.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations apply in England and come into force on 31st January 2003. They revoke and replace, with modifications, the Oil and Fibre Plant Seeds Regulation 1993 (S.I.1993/2007) insofar as they apply to England. They also revoke the Oil and Fibre Plant Seeds (Amendment) Regulations 1994 (S.I. 1994/1423), the Oil and Fibre Plant Seeds (Amendment) Regulations 1996 (S.I. 1996/1451) and the Oil and Fibre Plant Seeds (Amendment) Regulations 1999 (S.I. 1999/1862) insofar as they apply to England and the Oil and Fibre Plant Seeds (Amendment) (England) Regulations 2000 (S.I. 2000/1789), all of which amended the 1993 Regulations.

The 1993 Regulations implemented the provisions of Council Directive 69/208/EEC on the marketing of seed of oil and fibre plants (O.J. No. L169, 10.7.69, p. 3, OJ/SE 1969 (11), p. 315). That Directive, as amended, was replaced by Council Directive 2002/57/EC on the marketing of seed of oil and fibre plants (O.J. No. L193, 20.7.2002, p. 74). These Regulations implement the provisions of that Directive.

Status: Point in time view as at 31/01/2003.

Changes to legislation: There are currently no known outstanding effects for the The Oil and Fibre Plant Seed (England) Regulations 2002 (revoked). (See end of Document for details)

The Regulations apply to the certification and marketing of seed of oil and fibre plants of the species specified in Schedule 2 to these Regulations (regulation 5). They do not apply to seed harvested on or before 31st December 2002 until 1st July 2003 (regulation 33).

The Regulations include provisions that lay down the procedures relating to the certification of seed of oil and fibre plants in England (Part II), including provisions relating to the entry of seed lots (regulation 6), the entry of crops (regulation 7), the field inspection of crops (regulation 8), the lodging of field inspection reports and similar documents (regulation 9), the re-grading of crops (regulation 10), seed testing (regulation 11), the lodging of seed test reports (regulation 12), the re-grading of seed (regulation 13) and the withdrawal of official certification (regulation 14).

The Regulations include provisions that prohibit the marketing of seed of oil and fibre plants in England except for seed that falls into one of the categories listed in Schedule 6 (regulation 15). These categories are defined in Schedule 1. The prohibition does not apply in the case of seed of a category that is not listed in Schedule 6 where an authorisation has been granted for scientific purposes or selection work (regulation 18) or for the purpose of tests and trials (regulation 19) or is authorised by a general licence made under regulation 20.

The Regulations lay down requirements relating to the sampling (regulation 23) and packaging (regulation 24) of seed and the sealing (regulation 25) and labelling of packages (regulation 26) of seed.

The Regulations enable the Secretary of State to make arrangements for any person to act under her responsibility in carrying out official measures (regulation 28) and include provisions relating to the charging of fees (regulation 29).

The contravention of these Regulations is a criminal offence (section 16(7) of the Plant Varieties and Seeds Act 1964).

Regulatory Impact Assessment and a Transposition Note have been prepared for these Regulations. A copy of each of these documents has been placed in the library of each House of Parliament. Copies can be obtained from the Plant Variety Rights Office and Seeds Division of the Department for Environment, Food and Rural Affairs, White House Lane, Huntingdon Road, Cambridge CB3 0LF.
