

## SCHEDULES

### SCHEDULE 8

#### PROVISIONS FOR THE PROTECTION OF THE ENVIRONMENT AGENCY

7.—(1) The undertaker shall take all such measures as may be reasonably practicable to prevent any interruption of the free passage of fish in any fishery during the construction of any specified work.

(2) If by reason of—

- (i) the construction of any specified work, or
- (ii) the failure of any such work,

damage to the fishery is caused, or the Environment Agency has reason to expect that such damage may be caused, the Environment Agency may serve notice on the undertaker requiring it to take such steps as may be reasonably practicable to make good the damage, or, as the case may be, to protect the fishery against such damage.

(3) If, within such time as may be reasonably practicable for that purpose after the receipt of written notice from the Environment Agency of any damage or expected damage to the fishery, the undertaker fails to take such steps as are described in sub-paragraph (2), the Environment Agency may take those steps and may recover from the undertaker the expense reasonably incurred by it in doing so.

(4) In any case where immediate action by the Environment Agency is reasonably required in order to secure that the risk of damage to the fishery is avoided or reduced, the Environment Agency may take such steps as are reasonable for the purpose, and may recover from the undertaker the reasonable cost of so doing provided that a notice specifying those steps is served on the undertaker as soon as is reasonably practicable after the Environment Agency has taken, or commenced to take, the steps specified in the notice.
