EXPLANATORY NOTE

(This note is not part of the Regulations)

Section 52(1) of the Environmental Protection Act 1990 requires waste disposal authorities to pay waste collection authorities amounts representing their net savings on the disposal of waste retained by collection authorities for recycling.

Section 52(3) of that Act confers a power on waste disposal authorities to pay persons other than waste collection authorities equivalent amounts for waste collected by them for recycling.

The Environmental Protection (Waste Recycling Payments) Regulations 1992 make provision for the determination of a waste disposal authority's net saving of expenditure for the purposes of section 52(1) or (3) of that Act in relation to such waste. The Schedule to those Regulations provides figures for determining a waste disposal authority's net saving of expenditure where this could not otherwise be determined because sufficient accurate information was not available, or could only be obtained at disproportionate cost. These Regulations (regulation 2) substitute increased figures in relation to England to take account of increases in landfill tax and rises in the Retail Price Index.
