2005 No. 281

The Electromagnetic Compatibility Regulations 2005

PART II

APPLICATION

Apparatus covered by other Directives

Electrical Energy Meters

27.—(1) These Regulations do not apply to electrical energy meters as regards the immunity thereof.

(2) In this regulation, “electrical energy meter” means any new directly connected induction meter, with single or multiple tariffs, designed to measure active energy single-phase or polyphase current at 53 Hz frequency mentioned or referred to in Article 2 of Council Directive [76/891/EEC](#) on the approximation of the laws of the member States relating to electrical energy meters **(1)**.
