Title, application and commencement

1. These Regulations may be cited as the Production of Bovine Collagen Intended for Human Consumption in the United Kingdom (England) Regulations 2005, apply in relation to England and come into force on 26th March 2005.

Interpretation

2. In regulations 6 to 9 and the Schedule —

“the Act” means the Food Safety Act 1990;

“bovine animal” includes buffalo of the species *Bubalus bubalis* and *Bison bison*;

“collagen” means a protein-based product derived from the hide or skin of a bovine animal;

“collagen intended for human consumption” means collagen intended for consumption either as food or incorporated into or wrapped around any food or product to be consumed by humans;

the expressions “collection centre” and “establishment” have the same meaning as in Section B of Chapter 4 of Annex II to Directive 92/118/EEC laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A(I) to Directive 89/662/EEC and, as regards pathogens, to Directive 90/425/EEC (as that Directive is amended as at the date these Regulations are made) (a);

“hides and skins” means cutaneous and sub-cutaneous tissues;

“slaughterhouse” has the same meaning as in Section A of Chapter 4 of Annex II to Directive 92/118/EEC (as that Directive is amended as at the date these Regulations are made); and

“tanning” means the hardening of hides using vegetable tanning agents, chromium salts or other substances such as aluminium salts, ferric salts, silicic salts, aldehydes and quinones, or other synthetic hardening agents.

Amendment of the Bovines and Bovine Products (Trade) Regulations 1999

3. The Bovines and Bovine Products (Trade) Regulations 1999(b) are amended in accordance with regulations 4 and 5.

4. For paragraph (1) of regulation 6 (production of bovine by-products and consignment and placing on the market of bovine meat, products and certain by-products), substitute the following paragraph —

- (a) produce any gelatin derived from a bovine animal slaughtered in the United Kingdom, being gelatin which is liable to enter the human food or animal feed chain or is destined for use in cosmetics or in medical or pharmaceutical products; or
- (b) produce any collagen, derived from a bovine animal slaughtered in the United Kingdom, being collagen which is liable to enter the human food or animal feed chain or is destined for use in cosmetics or in medical or pharmaceutical products, unless it is collagen intended for human consumption in the United Kingdom.”.

5. In paragraph (3) of regulation 9 (use of controlled bovine by-products and other products) —

- (a) delete the words “gelatin or collagen produced” where they first appear;

(a) OJ No. L62, 15.3.93, p.49. Chapter 4, Section B of Annex II to that Directive was first inserted by Commission Decision 2003/42/EC (OJ No. L13, 18.1.2003, p.24) and was replaced by Commission Decision 2003/721/EC (OJ No. L260, 11.10.2003, p.21). EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations, which apply in relation to England only, amend the Bovines and Bovine Products (Trade) Regulations 1999 (S.I. 1999/1103, as amended by S.I. 1999/1554, S.I. 2000/656, S.I.2000/1667 and S.I. 2002/2357 – “the BBPTR”) in so far as they apply to England. The BBPTR give effect to Commission Decisions 98/692/EC (OJ No. L238, 4.12.98, p.28) and 98/564/EC (OJ No. L273, 9.10.98, p.37) which amended Council Decision 98/256/EC (OJ No. L113, 15.4.98, p.32). The Regulations amend the BBPTR to —

lift the prohibition on the production of collagen derived from bovine animals slaughtered in the United Kingdom and intended for human consumption in the United Kingdom (regulations 3 and 4). The prohibition on export of such collagen from Great Britain remains in force (*regulation 4 of the BBPTR*); and

make consequential amendments to regulation 9 of the BBPTR to enable use of such collagen in products for human consumption in the United Kingdom (*regulation 5*).

The Regulations also impose requirements on the production of collagen derived from a bovine animal slaughtered in the United Kingdom and intended for human consumption in the United Kingdom until the end of 2005 (regulation 6) (“domestic production”). The Regulations apply to domestic production requirements that reflect those which, under Council Directive 92/118/EEC(a), apply to production of collagen for human consumption for intra-Community trade. The Regulations—

apply requirements relating to raw materials and establishments supplying them, transport and storage of raw materials, establishments producing collagen, manufacture of collagen, finished products, and wrapping, packaging, storage and transport of collagen intended for human consumption in the United Kingdom (*Schedule Part 1*);

require establishments producing collagen, and collection centres and tanneries supplying the raw materials for such production, to be authorised in accordance with regulations 7 and 6 respectively of the Collagen and Gelatine (Intra-Community Trade) (England) (No 2) Regulations 2003 (SI 2003/3003) which implement the requirements of Commission Decision 2003/721/EC amending Council Directive 92/118/EEC (*Schedule, Part 1*); and

provide that contravention of the requirements of regulation 6 is an offence, specify penalties for that offence, apply certain provisions of the Food Safety Act 1990 (1990 c. 16, as amended by S.I. 2004/2990) for the purposes of regulation 6 and 7, and provide for the enforcement of regulation 6 by the relevant food authority (*regulations 7, 8 and 9*).

A full regulatory impact assessment has not been produced for this instrument as it has no impact on the costs of business.
