(2) For subsection (2), substitute—

“(2) “Contaminated land” is any land which appears to the local authority in whose area it is situated to be in such a condition, by reason of substances in, on or under the land, that—

- (a) harm is being caused; or
- (b) there is a significant possibility of harm being caused;

and in determining whether any land appears to be such land, a local authority shall, subject to subsection (5) below, act in accordance with guidance issued by the Secretary of State in accordance with section 78YA below with respect to the manner in which that determination is to be made.

(2A) “Land contaminated by a nuclear occurrence” means land which is contaminated land by reason of the presence in, on or under that land of any substances, in so far as by reason of that presence damage to that land has occurred, being—

- (a) damage caused in breach of any duty imposed by section 7, <sup>F3</sup>7B,] 8, 9 or 10 of the 1965 Act, or deemed to be so caused by section 12(2) of that Act;
- (b) damage which would have been so caused or would have been deemed by section 12(2) of the 1965 Act to have been so caused if, in section <sup>F4</sup>7(1A)(b) or (1C)(b)] of that Act, the words “other than the licensee” or, in section <sup>F5</sup>10(1)(b)] of that Act, the words “other than that operator” had not been enacted;
- <sup>F6</sup>(ba) damage caused by preventive measures taken after a breach of a duty imposed by section 7, 7B, 8, 9 or 10 of the 1965 Act in respect of which a claim for compensation may be made under section 11H(2) of the 1965 Act or could have been made if section 11H(4) of the 1965 Act had not been enacted;] or
- (c) damage in respect of which any relevant foreign operator or other person is liable under any relevant foreign law, or for which he would be so liable—
  - (i) but for any exclusion or limitation of liability applying by virtue of any provision of that law made for purposes corresponding to those of section 13(3) or (4)(a), 15, <sup>F7</sup>16(1), (1ZA), (1ZB), (2), (3B) or (3C)] or 18 of the 1965 Act; or

    - (ii) of restoring the land to its former state; or
  - (c) the making of subsequent inspections from time to time for the purpose of keeping under review the condition of the land;
- and cognate expressions shall be construed accordingly.
- (7A) For the purpose of paragraph (b) of subsection (7) above, “the doing of any works, the carrying out of any operations or the taking of any steps in relation to any such land” shall include ensuring that—

6.—(1) Section 78B (identification of contaminated land) has effect with the following modifications.

(2) For subsection (1), substitute—

“(1) Where a local authority considers that there are reasonable grounds for believing that any land may be contaminated, it shall cause the land to be inspected for the purpose of—

- (a) identifying whether it is contaminated land; and
- (b) enabling the authority to decide whether the land is land which is required to be designated as a special site.

- (a) the cost which is likely to be involved; and
- (b) the seriousness of the harm in question.

(4A) Where remediation includes an intervention, that part of the remediation which consists of an intervention may only be considered reasonable—

- (a) where the reduction in detriment due to radiation is sufficient to justify any adverse effects and costs, including social costs, of the intervention; and
- (b) where the form, scale and duration of the intervention is optimised.

(4B) For the purpose of subsection (4A), the form, scale and duration of the intervention shall be taken to be optimised if the benefit of the reduction in health detriment less the detriment associated with the intervention is maximised.”.

**EXPLANATORY NOTE**

*(This note is not part of the Regulations)*

Part 2A of the Environmental Protection Act 1990 (c. 43) (“Part 2A” of “the 1990 Act”) sets out a regime for the identification and remediation of contaminated land. The Radioactive Contaminated Land (Enabling Powers) (England) Regulations 2005 (S.I.2005/3467) (“the Powers Regulations”) applied the powers under the 1990 Act to make regulations and guidance in relation to radioactive substances. These Regulations, which apply to England only, are made pursuant to the powers under Part 2A of the 1990 Act as modified by the Powers Regulations and make provision for Part 2A to have effect with modifications for the purpose of the identification and remediation of radioactive contaminated land other than in circumstances where the operator of a nuclear installation is liable under the Nuclear Installations Act 1965 (c. 57), or in related circumstances (see regulation 17).

These Regulations also transpose Articles 48 and 53 of Council Directive 1996/29/Euratom laying down basic safety standards for the protection of the health of workers and the general public against the dangers arising from ionizing radiation (OJNo. L 159, 29.06.1996, p.1).

Regulation 5 modifies, various definitions in section 78A of the 1990 Act.

Regulation 6 provides for section 78B of the 1990 Act to have effect with a modification to ensure that the local authority’s duty of inspection only applies in relation to land that it has reasonable grounds for believing may be contaminated.

Regulation 8 restricts the discretion of an enforcing authority to determine what is reasonable by way of remediation for the purposes of section 78E(4) of the 1990 Act. The effect is to require the enforcing authority to weigh up the benefit of any intervention against the health detriment and costs arising from such intervention and maximise the benefit from such intervention.

Regulation 14 modifies section 78N of the 1990 Act so as to require the enforcing authority to carry out remediation itself in certain circumstances.

Regulation 17 provides that Part 2A does not apply where land is contaminated land by reason of substances being in on or under the land, in so far as by reason of that presence damage to any property occurs in breach of certain duties under the Nuclear Installations Act 1965, or in related circumstances.

Regulation 18 ensures that the powers of the Environment Agency or local authority under section 108 of the Environment Act 1995 (c. 25) extend to their functions under Part 2A as it applies to harm attributable to radioactivity.

A Regulatory Impact Assessment and a Transposition Note in relation to these Regulations have been prepared and placed in the library of each House of Parliament. Copies of each of these documents
