- (a) the name and address of the person on whom the notice is served;
- (b) the location and extent of the contaminated land to which the notice relates (in this regulation referred to as the “contaminated land in question”), in sufficient detail to enable it to be identified whether by reference to a plan or otherwise;
- (c) the date of any notice which was given under section 78B(3) to the person on whom the remediation notice is served identifying the contaminated land in question as contaminated land;
- (d) whether the enforcing authority considers the person on whom the notice is served is an appropriate person by reason of—
  - (i) having caused or knowingly permitted the substances, or any of the substances, by reason of which the contaminated land in question is contaminated land, to be in, on or under that land; or
  - (ii) being the owner or occupier of the contaminated land in question;
- (e) particulars of the significant harm, harm or pollution of controlled waters by reason of which the contaminated land in question is contaminated land;

- (h) where two or more persons are appropriate persons in relation to the contaminated land in question—
  - (i) that this is the case;
  - (ii) the name and address of each such person; and
  - (iii) the thing by way of remediation for which each such person bears responsibility;
- (i) where two or more persons would, apart from section 78F(6), be appropriate persons in relation to any particular thing which is to be done by way of remediation, the enforcing authority's reasons for its determination as to whether any, and if so which, of them is to be treated as not being an appropriate person in relation to that thing, showing how any guidance issued by the Secretary of State under section 78F(6) has been applied;

- (j) where the remediation notice is required by section 78E(3) to state the proportion of the cost of a thing to be done by way of remediation which each of the appropriate persons in relation to that thing is liable to bear, the enforcing authority's reasons for the proportion which it has determined, showing how any guidance issued by the Secretary of State under section 78F(7) has been applied;
  - (k) where known to the enforcing authority, the name and address of—
    - (i) the owner of the contaminated land in question; and
    - (ii) any person who appears to the enforcing authority to be in occupation of the whole or any part of the contaminated land in question;
  - (l) where known to the enforcing authority, the name and address of any person whose consent is required under section 78G(2) before any thing required by the remediation notice may be done;
  - (m) where the notice is to be served in reliance on section 78H(4), that it appears to the enforcing authority that the contaminated land in question is in such a condition, by reason of substances in, on or under the land, that there is imminent danger of serious harm or serious pollution of controlled waters being caused;
  - (n) that a person on whom a remediation notice is served may be guilty of an offence for failure, without reasonable excuse, to comply with any of the requirements of the notice;

  - (b) how, within what period and on what grounds an appeal may be made; and
  - (c) that a notice is suspended, where an appeal is duly made, until the final determination or abandonment of the appeal.

### **Service of copies of remediation notices**

5.—(1) Subject to paragraph (2), the enforcing authority must, at the same time as it serves a remediation notice, send a copy of it to each of the following persons, not being a person on whom the notice is to be served—

- (a) any person who was required to be consulted under section 78G(3) before service of the notice;
- (b) any person who was required to be consulted under section 78H(1) before service of the notice;

- (d) where the Environment Agency is the enforcing authority, the local authority in whose area the contaminated land in question is situated.

(2) Where it appears to the enforcing authority that the contaminated land in question is in such a condition by reason of substances in, on or under it that there is imminent danger of serious harm or serious pollution of controlled waters being caused, the enforcing authority must send any copies of the notice pursuant to paragraph (1) as soon as practicable after service of the notice.

  - (c) the manner in which the amount of such compensation is determined;
- and makes further provision relating to such compensation.

### **Grounds of appeal against a remediation notice**

7.—(1) The grounds of appeal against a remediation notice under section 78L(1) are any of the following—

- (a) that, in determining whether any land to which the notice relates appears to be contaminated land, the local authority—
  - (i) failed to act in accordance with guidance issued by the Secretary of State under section 78A(2), (5) or (6); or
  - (ii) whether by reason of such a failure or otherwise, unreasonably identified all or any of the land to which the notice relates as contaminated land;
- (b) that, in determining a requirement of the notice, the enforcing authority—
  - (i) failed to have regard to guidance issued by the Secretary of State under section 78E(5); or
  - (ii) whether by reason of such a failure or otherwise, unreasonably required the appellant to do any thing by way of remediation;
- (c) that the enforcing authority unreasonably determined the appellant to be the appropriate person who is to bear responsibility for any thing required by the notice to be done by way of remediation;
- (d) subject to paragraph (2), that the enforcing authority unreasonably failed to determine that some person in addition to the appellant is an appropriate person in relation to any thing required by the notice to be done by way of remediation;
- (e) that, in respect of any thing required by the notice to be done by way of remediation, the enforcing authority failed to act in accordance with guidance issued by the Secretary of State under section 78F(6);
- (f) that, where two or more persons are appropriate persons in relation to any thing required by the notice to be done by way of remediation, the enforcing authority—
  - (i) failed to determine the proportion of the cost stated in the notice to be the liability of the appellant in accordance with guidance issued by the Secretary of State under section 78F(7); or
  - (ii) whether, by reason of such a failure or otherwise, unreasonably determined the proportion of the cost that the appellant is to bear;
- (g) that service of the notice contravened a provision of subsection (1) or (3) of section 78H (restrictions and prohibitions on serving remediation notices) other than in circumstances where section 78H(4) applies;
- (h) that, where the notice was served in reliance on section 78H(4) in circumstances where section 78H(1) or (3) has not been complied with, the enforcing authority could not reasonably have taken the view that the contaminated land in question was in such a condition by reason of substances in, on or under the land, that there was imminent danger of serious harm or serious pollution of controlled waters being caused;

- (i) that the enforcing authority has unreasonably failed to be satisfied, in accordance with section 78H(5)(b), that appropriate things are being, or will be, done by way of remediation without service of a notice;
  - (j) that any thing required by the notice to be done by way of remediation was required in contravention of a provision of section 78J (restrictions on liability relating to the pollution of controlled waters);
  - (k) that any thing required by the notice to be done by way of remediation was required in contravention of a provision of section 78K (liability in respect of contaminating substances which escape to other land);
  - (l) that the enforcing authority itself has power, in a case falling within section 78N(3)(b), to do what is appropriate by way of remediation;
  - (m) that the enforcing authority itself has power, in a case falling within section 78N(3)(e), to do what is appropriate by way of remediation;
  - (n) that the enforcing authority, in considering for the purposes of section 78N(3)(e) whether it would seek to recover all or a portion of the cost incurred by it in doing some particular thing by way of remediation—
    - (i) failed to have regard to any hardship which the recovery may cause to the person from whom the cost is recoverable or to any guidance issued by the Secretary of State for the purposes of section 78P(2); or
    - (ii) whether by reason of such a failure or otherwise, unreasonably determined that it would decide to seek to recover all of the cost;
  - (o) that, in determining a requirement of the notice, the enforcing authority failed to have regard to guidance issued by the Environment Agency under section 78V(1);
  - (p) that a period specified in the notice within which the appellant is required to do anything is not reasonably sufficient for the purpose;
  - (q) that the notice provides for a person acting in a relevant capacity to be personally liable to bear the whole or part of the cost of doing any thing by way of remediation, contrary to the provisions of section 78X(3)(a);
  - (r) that service of the notice contravened a provision of section 78YB<sup>M10</sup> (which makes provision regarding the interaction of Part 2A of the 1990 Act with other enactments), and—
    - (i) in a case where subsection (1) of that section is relied on, that it ought to have appeared to the enforcing authority that the powers of the Environment Agency under section 27<sup>M11</sup> might be exercised;
    - (ii) in a case where subsection (3) of section 78YB is relied on, that it ought to have appeared to the enforcing authority that the powers of a waste regulation authority or waste collection authority under section 59<sup>M12</sup> might be exercised; or
  - (s) that there has been some informality, defect or error in, or in connection with, the notice, in respect of which there is no right of appeal under the grounds set out in sub-paragraphs (a) to (r).
- (2) A person may only appeal on the ground specified in paragraph (1)(d) in a case where—
- (a) the enforcing authority has determined that he is an appropriate person by virtue of subsection (2) of section 78F and he claims to have found some other person who is an appropriate person by virtue of that subsection;
  - (b) the notice is served on him as the owner or occupier for the time being of the contaminated land in question and he claims to have found some other person who is an appropriate person by virtue of that subsection; or

- (c) the notice is served on him as the owner or occupier for the time being of the contaminated land in question, and he claims that some other person is also an owner or occupier for the time being of the whole or part of that land.

(3) If and in so far as an appeal against a remediation notice is based on the ground of some informality, defect or error in, or in connection with, the notice, the Secretary of State must dismiss the appeal if he is satisfied that the informality, defect or error was not a material one.
