

## SCHEDULE 6

Measures when low pathogenic avian influenza is confirmed

### PART 2

Criteria to be considered by a veterinary inspector before permitting movements from premises where low pathogenic avian influenza has been confirmed

**18.** The following are the criteria to be considered by a veterinary inspector before permitting movements from premises where low pathogenic avian influenza has been confirmed—

- (a) the species of birds on the premises;
- (b) the number of premises he knows to contain poultry or other captive birds in the area around the premises;
- (c) the location of slaughterhouses, hatcheries and egg packing centres to which poultry and eggs could be moved;
- (d) biosecurity measures already in place or which could be applied at the premises, during movement and during slaughter;
- (e) possible routes on which things could be moved;
- (f) any evidence of disease spread;
- (g) any risk to human health;
- (h) any treatment procedures which could be applied to any thing to be moved.

**Changes to legislation:**

There are currently no known outstanding effects for the The Avian Influenza and Influenza of Avian Origin in Mammals (England) (No.2) Order 2006, PART 2.
