PROSPECTIVE

SCHEDULE 2

Regulation 5

TSE monitoring

CONTENTS

PART 1

Monitoring for TSE

1. Notifications for the purposes of monitoring under Article 6 of the Community TSE Regulation
2. Consignment and slaughter of an over-age bovine animal
3. Brain stem sampling of bovine animals
4. Slaughter of bovine animals over 30 months of age
5. Retention of products and disposal
6. Compensation

PART 2

Contents of an RMOP

7. Animal identification and separation
 8. Brain stem sampling
 9. Correlation of sample to carcase and all other parts of the body
 10. Retention of carcasses
 11. Retention of parts of the body
 12. Disposal before receipt of the result
 13. Other measures following sampling
 14. Removal of vertebral column
- Signature
Explanatory Note

PART 1

Monitoring for TSE

Notifications for the purposes of monitoring under Article 6 of the Community TSE Regulation

1.—(1) For the purposes of monitoring under Article 6 of the Community TSE Regulation, a person who has in his possession or under his charge the body of a bovine animal that must be tested in accordance with point 3(1) of Part I of Chapter A of Annex III to that Regulation, or the body of any goat aged 18 months or over at death, must—

Status: This version of this schedule contains provisions that are prospective.

Changes to legislation: There are outstanding changes not yet made by the legislation.gov.uk editorial team to The Transmissible Spongiform Encephalopathies Regulations 2006. Any changes that have already been made by the team appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

- (a) within 24 hours from the time when the animal dies or was killed or the body comes into his possession or charge notify the Secretary of State; and
 - (b) detain it until it has been collected by or on behalf of the Secretary of State,
- and failure to do so is an offence.
- (2) This paragraph does not apply in relation to goats slaughtered for human consumption or killed in accordance with Schedule 4.

Commencement Information

I1 Sch. 2 para. 1 in force at 1.3.2006, see [reg. 1](#)

Consignment and slaughter of an over-age bovine animal

2. If a bovine animal was born or reared in the United Kingdom before 1st August 1996, it is an offence—
- (a) to consign it to a slaughterhouse for human consumption (whether the animal is alive or dead); or
 - (b) to slaughter it for human consumption in a slaughterhouse.

Commencement Information

I2 Sch. 2 para. 2 in force at 1.3.2006, see [reg. 1](#)

Brain stem sampling of bovine animals

- 3.—(1) The occupier of a slaughterhouse in which a bovine animal specified in point 2(1) or 2(2) of Part I of Chapter A of Annex III to the Community TSE Regulation is slaughtered must—
- (a) take a sample of brain stem in accordance with point 1 of Chapter C of Annex X to the Community TSE Regulation; and
 - (b) arrange for it to be delivered to an approved testing laboratory,
- and failure to do so is an offence.
- (2) The Secretary of State shall, by means of a notice, notify the occupier of a slaughterhouse if an animal comes into the categories specified in point 2(1) of Part I of Chapter A to Annex III to the Community TSE Regulation (except in the case of a dead animal consigned to a slaughterhouse with a written declaration from a veterinary surgeon that it falls into one of those categories).
- (3) In accordance with point 5 of Part I of Chapter A of Annex III to the Community TSE Regulation, the Secretary of State may serve a notice on the occupier of a slaughterhouse requiring him to sample and send for testing in accordance with sub-paragraph (1) any bovine animal slaughtered there.
- (4) The Secretary of State shall approve laboratories to test samples taken under this paragraph if she is satisfied that the laboratory—
- (a) will carry out the testing in accordance with Chapter C of Annex X to the Community TSE Regulation;
 - (b) has adequate quality control procedures; and
 - (c) has adequate procedures to ensure the correct identification of the samples and notification of the test results to the consigning slaughterhouse.

Status: This version of this schedule contains provisions that are prospective.

Changes to legislation: There are outstanding changes not yet made by the legislation.gov.uk editorial team to The Transmissible Spongiform Encephalopathies Regulations 2006. Any changes that have already been made by the team appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

(5) In this paragraph “approved testing laboratory” means a laboratory approved under this paragraph or a laboratory in another part of the United Kingdom approved by the competent authority to carry out the test.

Commencement Information

I3 Sch. 2 para. 3 in force at 1.3.2006, see [reg. 1](#)

Slaughter of bovine animals over 30 months of age

4.—(1) It is an offence for the occupier to use a slaughterhouse to slaughter for human consumption a bovine animal aged over 30 months unless the Secretary of State has approved the Required Method of Operation (“RMOP”) for that slaughterhouse and that occupier.

(2) The RMOP must, as a minimum—

- (a) describe the procedures that will be followed to comply with Part I of this Schedule; and
- (b) describe all the systems and procedures specified in Part II of the Schedule.

(3) The Secretary of State shall approve the RMOP if she is satisfied that all the requirements of the Community TSE Regulation and these Regulations will be complied with, and the occupier must demonstrate this by means of an assessment of two days duration in which animals are slaughtered (using bovine animals under 30 months old unless the slaughterhouse is operating for the purposes of Commission Regulation ([EC](#)) No 716/96(1)).

(4) If a bovine animal aged over 30 months is slaughtered for human consumption other than in accordance with the RMOP, the occupier of the slaughterhouse is guilty of an offence.

Commencement Information

I4 Sch. 2 para. 4 in force at 1.3.2006, see [reg. 1](#)

Retention of products and disposal

5.—(1) In relation to any sampled bovine animal, the occupier of a slaughterhouse, hide market or tannery must, for the purposes of point 6(3) of Part I of Chapter A of Annex III to the Community TSE Regulation and pending receipt of the test result, either—

- (a) retain all carcasses and all parts of the body (including the blood and the hide) that will have to be disposed of in the event of a positive result; or
- (b) dispose of them in accordance with sub-paragraph (2).

(2) For the purposes of points 6(4) and 6(5) of that Part, if a positive result is received for a sampled animal, he must immediately dispose of—

- (a) the carcase and all parts of the body of that animal (including the blood and the hide); and
- (b) unless a derogation has been granted under point 6(6) of that Part, the carcase and all parts of the body (including the blood and the hide) of the animal immediately preceding that animal on the slaughter line and the two animals immediately following it,

in accordance with point 6(4) of that Part.

(1) OJ No L99, 20.4.96, p. 14.

Status: This version of this schedule contains provisions that are prospective.

Changes to legislation: There are outstanding changes not yet made by the legislation.gov.uk editorial team to The Transmissible Spongiform Encephalopathies Regulations 2006. Any changes that have already been made by the team appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

(3) If no sample has been sent to an approved testing laboratory for testing in accordance with paragraph 3 of this Schedule, or if a no-test result is received, in respect of an animal required to be tested under this Schedule, the occupier must immediately dispose of—

- (a) the carcase and all parts of the body (including the blood and the hide) of that animal; and
- (b) unless a derogation has been granted under point 6(6) of Part I of Chapter A of Annex III to the Community TSE Regulation, the carcase and all parts of the body (including the blood but not the hide) of the animal immediately preceding that animal on the slaughter line and the two animals immediately following it,

in accordance with point 6(4) of that Part; and for the purposes of this paragraph “no-test result” means a sample that an approved testing laboratory has certified cannot be tested for any reason.

(4) The Secretary of State may grant in writing a derogation under point 6(6) of Part I of Chapter A of Annex III to the Community TSE Regulation if she is satisfied that there is a system in place that prevents contamination between carcasses.

(5) In relation to any sampled sheep or goat, the occupier of a slaughterhouse, hide market or tannery must—

- (a) for the purposes of point 7(3) of Part II of Chapter A of Annex III to the Community TSE Regulation, retain the carcase and all parts of the body (including the blood and the hide) pending receipt of the test result; and
- (b) in the event of a positive result, immediately dispose of the carcase and all parts of the body (including the blood and the hide) in accordance with point 7(4) of that Part.

(6) In this paragraph the powers of an inspector may also be exercised by a person appointed as such in relation to a hide market or tannery by the Meat and Livestock Commission.

(7) Any person who fails to comply with sub-paragraphs (1) to (3) or (5) is guilty of an offence.

Commencement Information

I5 Sch. 2 para. 5 in force at 1.3.2006, see [reg. 1](#)

Compensation

6.—(1) If an animal slaughtered for human consumption tests positive, the Secretary of State shall pay compensation for the carcase and all parts of the body (including the blood and the hide) of—

- (a) that animal; and
- (b) if they are destroyed because of that positive result, the animal immediately preceding it on the slaughter line and the two animals immediately following it.

(2) In the case of an animal for which a no-test result (as described in paragraph 5(3)) is received the Secretary of State shall inform the owner in writing whether she intends to pay compensation for—

- (a) the carcase and all parts of the body (including the blood and the hide) of that animal; and
- (b) if they are destroyed because of that no-test result, the carcase and all parts of the body (including the blood but not the hide) of the animal immediately preceding it on the slaughter line and the two animals immediately following it,

giving the reasons, and the appeals procedure in regulation 14 applies.

(3) The compensation is the market value, established either by agreement or under the procedure in regulation 15, with the fee for nominating the valuer and the valuer’s fee paid by the occupier.

Status: This version of this schedule contains provisions that are prospective.

Changes to legislation: There are outstanding changes not yet made by the legislation.gov.uk editorial team to The Transmissible Spongiform Encephalopathies Regulations 2006. Any changes that have already been made by the team appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

(4) Compensation is not payable in any other case.

Commencement Information

I6 Sch. 2 para. 6 in force at 1.3.2006, see [reg. 1](#)

PART 2

Contents of an RMOP

Animal identification and separation

- 7.—(1) The RMOP must describe the system that—
- (a) enables bovine animals born or reared in the United Kingdom before 1st August 1996 to be identified and ensures that they are not slaughtered for human consumption;
 - (b) enables bovine animals over 30 months of age but born on or after 1st August 1996 to be identified and ensures that they are sampled in accordance with this Schedule; and
 - (c) enables bovine animals specified in point 2(1) of Part I of Chapter A of Annex III to the Community TSE Regulation to be identified and ensures that they are sampled in accordance with this Schedule.
- (2) It must also describe the system that ensures that animals over 30 months of age are—
- (a) batched together before slaughter separately from those aged 30 months or under; and
 - (b) slaughtered in batches separately from those aged 30 months or under.

Commencement Information

I7 Sch. 2 para. 7 in force at 1.3.2006, see [reg. 1](#)

Brain stem sampling

- 8.—(1) The RMOP must show that there are —
- (a) sufficient staff trained and competent in the taking, labelling, packaging and despatch of brain stem samples;
 - (b) hygienic facilities for sampling; and
 - (c) sampling procedures that do not jeopardise the hygienic production of meat intended for human consumption.
- (2) It must describe how health and safety guidelines designed to minimise the risk of exposure of staff to BSE during brain stem sampling and packaging will be complied with.

Commencement Information

I8 Sch. 2 para. 8 in force at 1.3.2006, see [reg. 1](#)

Status: This version of this schedule contains provisions that are prospective.

Changes to legislation: There are outstanding changes not yet made by the legislation.gov.uk editorial team to The Transmissible Spongiform Encephalopathies Regulations 2006. Any changes that have already been made by the team appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Correlation of sample to carcase and all other parts of the body

9. The RMOP must describe the system linking the brain stem sample of each bovine animal over 30 months of age to the carcase of that animal and all parts of the body of that animal (including the blood and the hide).

Commencement Information

I9 Sch. 2 para. 9 in force at 1.3.2006, see [reg. 1](#)

Retention of carcasses

10.—(1) The RMOP must describe the system that ensures that all carcasses retained in accordance with paragraph 5(1) of this Schedule are retained in slaughter order either in a sealed or locked chiller or on a sealed or locked rail in an unsealed chiller pending the receipt of the test result.

(2) It must describe how the occupier will ensure that there is suitable and sufficient chiller space for retaining carcasses for the purposes of this Schedule.

Commencement Information

I10 Sch. 2 para. 10 in force at 1.3.2006, see [reg. 1](#)

Retention of parts of the body

11. The RMOP must describe the system that ensures that all parts of the body (including the blood and the hide) are retained in accordance with paragraph 5(1) of this Schedule.

Commencement Information

I11 Sch. 2 para. 11 in force at 1.3.2006, see [reg. 1](#)

Disposal before receipt of the result

12. The RMOP must describe the disposal route for all carcasses and all parts of the body (including the blood and the hide) retained pending receipt of a test result but disposed of before the test result is received.

Commencement Information

I12 Sch. 2 para. 12 in force at 1.3.2006, see [reg. 1](#)

Other measures following sampling

13. The RMOP must describe the systems in place that ensure that—

- (a) brain stem samples are packaged in accordance with packaging instructions P650 of the European Agreement Concerning the International Carriage of Dangerous Goods by Road (version applicable as from 1st January 2005)(2);
- (b) test results are received, either by fax or by other electronic means; and

Status: This version of this schedule contains provisions that are prospective.

Changes to legislation: There are outstanding changes not yet made by the legislation.gov.uk editorial team to The Transmissible Spongiform Encephalopathies Regulations 2006. Any changes that have already been made by the team appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- (c) following a positive or a no-test result (as described in paragraph 5(3)), everything required to be disposed of in accordance with point 6(4) or 6(5) of Part I of Chapter A of Annex III to the Community TSE Regulation or under this Schedule is identified and disposed of accordingly.

Commencement Information

I13 Sch. 2 para. 13 in force at 1.3.2006, see [reg. 1](#)

Removal of vertebral column

14. The RMOP must describe the system that ensures that, in the case of a bovine animal for which a negative test result has been received—

- (a) those parts of the vertebral column that are specified risk material are not removed in the slaughterhouse; and
- (b) the meat containing that specified risk material is consigned to a cutting plant authorised under paragraph 11 of Schedule 6 to remove it.

Commencement Information

I14 Sch. 2 para. 14 in force at 1.3.2006, see [reg. 1](#)
