2007 No. 3468

The Air Navigation (Overseas Territories) Order 2007

PART II

AIRWORTHINESS AND EQUIPMENT OF AIRCRAFT

Certificate of airworthiness to be in force

7.—(1) An aircraft shall not fly unless there is in force in respect thereof a certificate of airworthiness duly issued or rendered valid under the law of the country in which the aircraft is registered or the State of the operator, and any conditions subject to which the certificate was issued or rendered valid are complied with.

(2) The prohibition contained in paragraph (1) does not apply to flights made wholly within the Territory, of—

- (a) a glider, if it is not being used for the commercial air transport of passengers or aerial work other than aerial work which consists of the giving of instruction in flying or the conducting of flying tests in a glider owned or operated by a flying club of which the person giving the instruction or conducting the test and the person receiving the instruction or undergoing the test are both members;
- (b) a balloon flying on a private flight;
- (c) a kite;
- (d) an aircraft flying in accordance with a permit to fly issued by the Governor under article 9.

(3) In the case of an aircraft registered in the Territory the certificate of airworthiness referred to in paragraph (1) is a certificate issued under article 8.
