The Control of Salmonella in Poultry Order 2007

PART 2

Poultry hatcheries

Records in a hatchery incubating *Gallus gallus*

5. If a hatchery incubates eggs of the species *Gallus gallus* and has a capacity of 1000 eggs or more, when eggs or chicks are moved on to or off the hatchery the occupier must record—

- (a) the date of the movement;
- (b) the number of eggs or chicks moved;
- (c) whether the movement is on to or off the hatchery;
- (d) if the movement is off the holding, the holding of destination; and
- (e) in the case of eggs brought on to the hatchery for incubation, the holding of origin.
