

SCHEDULE 1

Articles 2, 24

GOODS SUBJECT TO STRICTER EXPORT AND TRADE CONTROLS

Note: In this Schedule, defined terms are printed in quotation marks.

Definitions

In this Schedule:

“cluster munitions” means conventional munitions designed to disperse or release “explosive submunitions”;

“explosive bomblets” means conventional munitions, weighing less than 20 kilograms each, which are not self propelled and which, in order to perform their task, are specially designed to be dispersed or released by a dispenser affixed to an aircraft, and are designed to function by detonating an explosive charge prior to, on or after impact;

“explosive submunitions” means conventional munitions, weighing less than 20 kilograms each, which in order to perform their task are dispersed or released by another conventional munition and are designed to function by detonating an explosive charge prior to, on or after impact;

“ordinary handcuffs” means handcuffs which have an overall dimension including chain, measured from the outer edge of one cuff to the outer edge of the other cuff, between 150 and 240mm when locked and have not been modified to cause physical pain or suffering;

“production” has the same meaning as in Schedule 2;

“a self-deactivating feature” is one which automatically renders a munition inoperable by means of the irreversible exhaustion of a component (eg, a battery) that is essential to the operation of the munition;

“a self-destruction mechanism” is an incorporated, automatically-functioning mechanism which is in addition to the primary initiating mechanism of a munition and which secures the destruction of the munition into which it is incorporated.
