(2) Where a ship becomes a ship to which this regulation applies on transfer from the flag of another Contracting Government, a Certifying Authority must issue a Sewage Certificate in respect of that ship where—

- (a) a Sewage Certificate has been issued in respect of the ship and was still valid immediately before the date of the transfer,
- (b) the Certifying Authority has caused a survey to be carried out in respect of the ship, and
- (c) the Certifying Authority is satisfied that—
 - (i) the condition of the ship and its equipment is maintained to conform with the provisions of Annex IV, so as to ensure that the ship is fit to proceed to sea without presenting an unreasonable threat of harm to the marine environment, and
 - (ii) no change, other than a change referred to in paragraph (3), has been made to the structure, equipment, systems, fittings, arrangements or materials of the ship covered by the last survey carried out under Regulation 4.1 of Annex IV without the approval of the Contracting Government in question.

(3) The changes referred to in paragraph (2)(c)(ii) are the direct replacement of equipment and fittings.

(4) A Sewage Certificate issued under this regulation must be in English and in the form set out in the Appendix to Annex IV.

Issue of Sewage Certificates by another Government in respect of United Kingdom ships

12.—(1) The Secretary of State may request a Contracting Government—

- (b) to issue, or authorise the issue of, a Sewage Certificate in respect of that ship, if the Contracting Government is satisfied that the ship complies with the requirements of Annex IV.

(2) Where a Sewage Certificate is issued pursuant to paragraph (1)—

- (a) the Secretary of State is to be treated as the Certifying Authority in relation to it, and
- (b) any reference in these Regulations to the Certifying Authority who issued the Certificate is to be treated as a reference to the Secretary of State.

Issue of Sewage Certificates in respect of ships which are not United Kingdom ships

13.—(1) When requested to do so by a Contracting Government, the Secretary of State—

(a) S.I. 2006/2055, to which there are amendments not relevant to these Regulations.

- (a) may cause a survey to be carried out in respect of a ship to which this regulation applies, and

- (a) the Sewage Certificate issued pursuant to that paragraph, and
 - (b) the survey report.
- (4) The Secretary of State must not issue a Sewage Certificate in respect of a ship which is—

Duration and validity of Sewage Certificates

14.—(1) Subject to the following paragraphs and to regulations 16(3) and 18(1), a Sewage Certificate which is issued in respect of a ship to which this regulation applies is valid for such period as is specified in the certificate, not exceeding five years, beginning with the date of the completion of the relevant initial or renewal survey.

(2) Subject to paragraph (3) and regulation 15(9), where a renewal survey is completed—

- (a) within the final three month period, or
- (b) after the date of expiry of the latest Sewage Certificate,

the new Sewage Certificate is valid for such period as is specified in the Certificate, beginning with the date of the completion of the renewal survey and ending with a date not exceeding five years from the date of expiry of the latest Sewage Certificate.

(3) A Sewage Certificate issued in respect of a ship ceases to be valid upon whichever is the earliest of the following—

- (a) upon the ship being transferred to the flag of another State,
- (b) upon a ship proceeding to sea where—
 - (i) a repair or renewal referred to in regulation 10(1) has been made, and

- (a) the Sewage Certificate issued in respect of the ship, and
- (b) if available, the survey report.

(5) In this regulation, the “final three month period” means the period of three months ending on the date of expiry of the Sewage Certificate in question.

Extension of periods of validity of Sewage Certificates

15.—(1) Where the period of the validity of a Sewage Certificate in respect of a ship to which this regulation applies is less than five years, the Certifying Authority who issued the Sewage Certificate may extend its period of validity to a maximum period of five years.

(2) Where—

- (a) a renewal survey has been completed by a surveyor; but
- (b) the new Sewage Certificate cannot be issued or placed on board the ship before the date of expiry of the latest Sewage Certificate,

the surveyor may endorse the latest Sewage Certificate.

(3) Where a Sewage Certificate has been endorsed under paragraph (2), that Certificate is valid for such further period as is specified in the Certificate, not exceeding five months beginning with the original date of expiry of the Certificate.

(4) Where—

- (a) a renewal survey has not been completed before the date of expiry of the latest Sewage Certificate in question; and
- (b) at that date of expiry the ship is not in the port in which the survey is to be carried out,

the Certifying Authority who issued the latest Sewage Certificate may extend the period of validity of that Sewage Certificate for a period not exceeding three months, if it appears to the Certifying Authority that it is proper and reasonable to do so solely for the purpose of allowing the ship to complete its voyage to its port of survey.

(5) Where the period of validity of a Sewage Certificate has been extended pursuant to paragraph (4), the ship in question must not leave its port of survey until a new Sewage Certificate has been issued in respect of that ship.

(6) Subject to paragraph (7), the Certifying Authority who issued the latest Sewage Certificate in respect of a ship engaged solely on short international voyages may extend the period of validity of that Sewage Certificate for a period not exceeding one month.

(7) A Certifying Authority must not extend the period of validity of a Sewage Certificate under paragraph (6) if the period of validity of that Sewage Certificate has already been extended under paragraph (1), (3) or (4).

(9) In the special circumstances set out in Merchant Shipping Notice MSN No. 1807, the period of validity of a new Sewage Certificate which is—

- (a) issued in respect of a ship referred to in paragraph (5) or (6), or
- (b) referred to in regulation 14(2) and issued where the renewal survey is completed after the date of expiry of the latest Sewage Certificate,

is such period as is specified in the new Certificate, not exceeding five years beginning with the date of the completion of the renewal survey in question.

(10) Where the period of validity of a Sewage Certificate is extended under paragraph (1), (4) or (6), the Certifying Authority in question must endorse the Sewage Certificate in accordance with the relevant form set out in the Appendix to Annex IV.

(11) An endorsement issued pursuant to paragraph (2) must be in the relevant form set out in the Appendix to Annex IV.

(12) In this regulation, “the original date of expiry” means the date on which a Sewage Certificate would have expired but for any extension of its period of validity.

Procedure to be adopted when a ship is deficient

16.—(1) This regulation applies where a surveyor determines that—

- (a) the condition of a ship to which paragraphs (1) to (5) of this regulation apply, or its equipment, does not correspond substantially with the particulars of the Sewage Certificate (if any) issued in respect of the ship, or
- (b) a ship, to which paragraphs (1) to (5) of this regulation apply, is not fit to proceed to sea without presenting an unreasonable threat of harm to the marine environment.

(2) The surveyor must—

- (a) advise the owner or master of the corrective action which in the opinion of the surveyor is required, and
- (b) where a Sewage Certificate has been issued in respect of the ship and is still valid, notify the Certifying Authority who issued the Certificate—
 - (i) that the surveyor has so advised the owner or master, and
 - (ii) if that corrective action is not taken.

(3) Where a Sewage Certificate has been issued in respect of the ship and is still valid, the Certifying Authority may suspend the validity of that Certificate until the corrective action has been taken.

(4) Where the Certifying Authority suspends the validity of a Sewage Certificate issued in respect of a ship, it must immediately give notice of such suspension—

- (a) to the owner of the ship, and
- (b) where the ship is in a port outside the United Kingdom, to the appropriate maritime authorities of the country in which the port is situated.

(5) Where the owner of a ship is given notice of suspension, that owner must notify the master of the ship in question of the suspension.

(6) Paragraphs (1) and (2) have effect in relation to a ship to which this paragraph applies as they have effect in relation to a ship to which those paragraphs apply, and as if—

- (a) the reference to “the Certifying Authority” were to the Government of the State where the ship is registered (or if the ship is not registered, the Government of the flag State), and
- (b) the reference to a “surveyor” included a reference to a person authorised by that Government to survey the ship.

Arbitration

17.—(1) If an applicant is dissatisfied for any reason with the outcome of a survey carried out in respect of a ship to which this regulation applies, the applicant may serve a written notice on the responsible person within 21 days of receiving notification of that outcome—

- (a) any reference to an arbitrator is to be construed as a reference to an arbiter; and
- (b) the reference in paragraph (2) to a single arbitrator appointed by agreement between the applicant and the responsible person is to be construed as a reference to a single arbiter so appointed or, in default of agreement, appointed by a sheriff.

(6) The rules for arbitration set out in Merchant Shipping Notice No. M.1613 apply unless alternative procedures are agreed between the applicant and the responsible person before the commencement of arbitration proceedings.

(7) In this regulation—
