Current assets

23. Subject to paragraph 24, the amount to be included in respect of any current asset must be its purchase price or production cost.

24.—(1) If the net realisable value of any current asset is lower than its purchase price or production cost, the amount to be included in respect of that asset must be the net realisable value.

(2) Where the reasons for which any provision for diminution in value was made in accordance with sub-paragraph (1) have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

Miscellaneous and supplementary provisions

Excess of money owed over value received as an asset item

25.—(1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.

(2) Where any such amount is so treated—

- (a) it must be written off by reasonable amounts each year and must be completely written off before repayment of the debt, and
- (b) if the current amount is not shown as a separate item in the company's balance sheet, it must be disclosed in a note to the accounts.

Assets included at a fixed amount

26.—(1) Subject to sub-paragraph (2), assets which fall to be included—

- (a) amongst the fixed assets of a company under the item “tangible assets”, or
- (b) amongst the current assets of a company under the item “raw materials and consumables”,

may be included at a fixed quantity and value.

(2) Sub-paragraph (1) applies to assets of a kind which are constantly being replaced where—

- (a) their overall value is not material to assessing the company's state of affairs, and
- (b) their quantity, value and composition are not subject to material variation.

Determination of purchase price or production cost

27.—(1) The purchase price of an asset is to be determined by adding to the actual price paid any expenses incidental to its acquisition [^{F63}and then subtracting any incidental reductions in the cost of acquisition].

(2) The production cost of an asset is to be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the production of that asset.

(3) In addition, there may be included in the production cost of an asset—

- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the production of that asset, but only to the extent that they relate to the period of production, and
- (b) interest on capital borrowed to finance the production of that asset, to the extent that it accrues in respect of the period of production,

provided, however, in a case within paragraph (b), that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.

- (4) In the case of current assets distribution costs may not be included in production costs.

28.—(1) The purchase price or production cost of—

- (a) any assets which fall to be included under any item shown in a company's balance sheet under the general item “stocks”, and
- (b) any assets which are fungible assets (including investments),

may be determined by the application of any of the methods mentioned in sub-paragraph (2) in relation to any such assets of the same class, provided that the method chosen is one which appears to the directors to be appropriate in the circumstances of the company.

(2) Those methods are—

- (a) the method known as “first in, first out” (FIFO),
- (b) the method known as “last in, first out” (LIFO),
- (c) a weighted average price, and
- (d) any other method [^{F64}reflecting generally accepted best practice].

(3) Where in the case of any company—

- (a) the purchase price or production cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph, and
- (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph,

the amount of that difference must be disclosed in a note to the accounts.

(4) Subject to sub-paragraph (5), for the purposes of sub-paragraph (3)(b), the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

(5) The relevant alternative amount may be determined by reference to the most recent actual purchase price or production cost before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

(2) Those rules, with the omission of paragraphs 16, 22 and 26 to 29, are referred to below in this Part of this Schedule as the depreciation rules; and references below in this Schedule to the historical cost accounting rules do not include the depreciation rules as they apply by virtue of paragraph 33.

31. Subject to paragraphs 33 to 35, the amounts to be included in respect of assets of any description mentioned in paragraph 32 may be determined on any basis so mentioned.

Application of the depreciation rules

33.—(1) Where the value of any asset of a company is determined on any basis mentioned in paragraph 32, that value must be, or (as the case may require) be the starting point for determining, the amount to be included in respect of that asset in the company's accounts, instead of its purchase price or production cost or any value previously so determined for that asset. The depreciation rules apply accordingly in relation to any such asset with the substitution for any reference to its purchase price or production cost of a reference to the value most recently determined for that asset on any basis mentioned in paragraph 32.

(2) The amount of any provision for depreciation required in the case of any fixed asset by paragraphs 18 to 20 as they apply by virtue of sub-paragraph (1) is referred to below in this paragraph as the adjusted amount, and the amount of any provision which would be required by any of those paragraphs in the case of that asset according to the historical cost accounting rules is referred to as the historical cost amount.

Status: Point in time view as at 01/04/2019.

Changes to legislation: There are currently no known outstanding effects for the The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. (See end of Document for details)

- (a) included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question, or
- (b) taken into account in stating any item so shown which is required by note (14) of the notes on the profit and loss account formats set out in Part 1 of this Schedule to be stated after taking into account any necessary provision for depreciation or diminution in value of assets included under it,

may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

Additional information to be provided in case of departure from historical cost accounting rules

34.—(1) This paragraph applies where the amounts to be included in respect of assets covered by any items shown in a company's accounts have been determined on any basis mentioned in paragraph 32.

(2) The items affected and the basis of valuation adopted in determining the amounts of the assets in question in the case of each such item must be disclosed in [^{F67}the note on accounting policies (see paragraph 44 of this Schedule)].

[^{F68}(3) In the case of each balance sheet item affected, the comparable amounts determined according to the historical cost accounting rules must be shown in a note to the accounts.]

(4) In sub-paragraph (3), references in relation to any item to the comparable amounts determined as there mentioned are references to—

- (a) the aggregate amount which would be required to be shown in respect of that item if the amounts to be included in respect of all the assets covered by that item were determined according to the historical cost accounting rules, and
- (b) the aggregate amount of the cumulative provisions for depreciation or diminution in value which would be permitted or required in determining those amounts according to those rules.

(2) The amount of the revaluation reserve must be shown in the company's balance sheet under a separate sub-heading in the position given for the item "revaluation reserve" [^{F69}under "Capital and reserves"] in format 1 or 2 of the balance sheet formats set out in Part 1 of this Schedule^{F70}

29.—(1) Assets included in assets items 9 (intangible fixed assets) and 10 (tangible fixed assets) in the balance sheet format must be valued as fixed assets.

(2) Other assets falling to be included in the balance sheet must be valued as fixed assets where they are intended for use on a continuing basis in the company's activities.

Financial fixed assets

30.—(1) Debt securities, including fixed-income securities, held as financial fixed assets must be included in the balance sheet at an amount equal to their maturity value plus any premium, or less any discount, on their purchase, subject to the following provisions of this paragraph.

(2) The amount included in the balance sheet with respect to such securities purchased at a premium must be reduced each financial year on a systematic basis so as to write the premium off over the period to the maturity date of the security and the amounts so written off must be charged to the profit and loss account for the relevant financial years.

32.—(1) If the net realisable value of any asset referred to in paragraph 31 is lower than its cost, the amount to be included in respect of that asset is the net realisable value.

(2) Where the reasons for which any provision for diminution in value was made in accordance with sub-paragraph (1) have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

33.—(1) Subject to paragraph 32, the amount to be included in the balance sheet in respect of transferable securities not held as financial fixed assets may be the higher of their cost or their market value at the balance sheet date.

(2) The difference between the cost of any securities included in the balance sheet at a valuation under sub-paragraph (1) and their market value must be shown (in aggregate) in the notes to the accounts.

Miscellaneous and supplementary provisions

Excess of money owed over value received as an asset item

34.—(1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.

(2) Where any such amount is so treated—

- (a) it must be written off by reasonable amounts each year and must be completely written off before repayment of the debt, and
- (b) if the current amount is not shown as a separate item in the company's balance sheet, it must be disclosed in a note to the accounts.

Determination of cost

35.—(1) The cost of an asset that has been acquired by the company is to be determined by adding to the actual price paid any expenses incidental to its acquisition [^{F94}and then subtracting any incidental reductions in the cost of acquisition].

(2) The cost of an asset constructed by the company is to be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the construction of that asset.

(3) In addition, there may be included in the cost of an asset constructed by the company—

- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the construction of that asset, but only to the extent that they relate to the period of construction, and
- (b) interest on capital borrowed to finance the construction of that asset, to the extent that it accrues in respect of the period of construction,

provided, however, in a case within paragraph (b), that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.

36.—(1) The cost of any assets which are fungible assets (including investments), may be determined by the application of any of the methods mentioned in sub-paragraph (2) in relation to any such assets of the same class, provided that the method chosen is one which appears to the directors to be appropriate in the circumstances of the company.

(2) Those methods are—

- (a) the method known as “first in, first out” (FIFO),
- (b) the method known as “last in, first out” (LIFO),
- (c) a weighted average price, and
- (d) any other method [^{F95} reflecting generally accepted best practice].

(3) Where in the case of any company—

- (a) the cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph, and
- (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph,

the amount of that difference must be disclosed in a note to the accounts.

(4) Subject to sub-paragraph (5), for the purposes of sub-paragraph (3)(b), the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

(5) The relevant alternative amount may be determined by reference to the most recent actual purchase price before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

- (b) any such record cannot be obtained without unreasonable expense or delay.

(2) In such a case, its cost is to be taken, for the purposes of paragraphs 23 to 33, to be the value ascribed to it in the earliest available record of its value made on or after its acquisition by the company.

SECTION C

ALTERNATIVE ACCOUNTING RULES

Preliminary

38.—(1) The rules set out in Section B are referred to below in this Schedule as the historical cost accounting rules.

(2) Paragraphs 23 to 26 and 30 to 34 are referred to below in this Section as the depreciation rules; and references below in this Schedule to the historical cost accounting rules do not include the depreciation rules as they apply by virtue of paragraph 41.

39. Subject to paragraphs 41 to 43, the amounts to be included in respect of assets of any description mentioned in paragraph 40 may be determined on any basis so mentioned.

Alternative accounting rules

40.—(1) Intangible fixed assets, other than goodwill, may be included at their current cost.

(2) Tangible fixed assets may be included at a market value determined as at the date of their last valuation or at their current cost.

(3) Investments of any description falling to be included under assets items 7 (participating interests) or 8 (shares in group undertakings) of the balance sheet format and any other securities held as financial fixed assets may be included either—

- (a) at a market value determined as at the date of their last valuation, or
- (b) at a value determined on any basis which appears to the directors to be appropriate in the circumstances of the company.

Textual Amendments
F96 Sch. 2 para. 40(4) omitted (with effect in accordance with reg. 2(2)-(5) of the amending S.I.) by virtue of [The Companies, Partnerships and Groups \(Accounts and Reports\) Regulations 2015 \(S.I. 2015/980\)](#), regs. 2(1), **32(4)(a)** (with reg. 3)

Application of the depreciation rules

41.—(1) Where the value of any asset of a company is determined in accordance with paragraph 40, that value must be, or (as the case may require) be the starting point for determining, the amount to be included in respect of that asset in the company's accounts, instead of its cost or any value previously so determined for that asset. The depreciation rules apply accordingly in relation to any such asset with the substitution for any reference to its cost of a reference to the value most recently determined for that asset in accordance with paragraph 40.

(2) The amount of any provision for depreciation required in the case of any fixed asset by paragraphs 24 to 26 as they apply by virtue of sub-paragraph (1) is referred to below in this paragraph as the adjusted amount, and the amount of any provision which would be required by any of those paragraphs in the case of that asset according to the historical cost accounting rules is referred to as the historical cost amount.

(3) Where sub-paragraph (1) applies in the case of any fixed asset the amount of any provision for depreciation in respect of that asset included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

Additional information to be provided in case of departure from historical cost accounting rules

42.—(1) This paragraph applies where the amounts to be included in respect of assets covered by any items shown in a company's accounts have been determined in accordance with paragraph 40.

(2) The items affected and the basis of valuation adopted in determining the amounts of the assets in question in the case of each such item must be disclosed in [^{F97}the note on accounting policies (see paragraph 53 of this Schedule)].

[^{F98}(3) In the case of each balance sheet item affected, the comparable amounts determined according to the historical cost accounting rules must be shown in a note to the accounts.]

(4) In sub-paragraph (3), references in relation to any item to the comparable amounts determined as there mentioned are references to—

- (a) the aggregate amount which would be required to be shown in respect of that item if the amounts to be included in respect of all the assets covered by that item were determined according to the historical cost accounting rules, and
- (b) the aggregate amount of the cumulative provisions for depreciation or diminution in value which would be permitted or required in determining those amounts according to those rules.

43.—(1) With respect to any determination of the value of an asset of a company in accordance with paragraph 40, the amount of any profit or loss arising from that determination (after allowing, where appropriate, for any provisions for depreciation or diminution in value made otherwise than by reference to the value so determined and any adjustments of any such provisions made in the light of that determination) must be credited or (as the case may be) debited to a separate reserve (“the revaluation reserve”).

(2) The amount of the revaluation reserve must be shown in the company's balance sheet under liabilities item 11 in the balance sheet format, ^{F99}....

The revaluation reserve must be reduced to the extent that the amounts transferred to it are no longer necessary for the purposes of the valuation method used.

In respect of long-term business, this item is to comprise investments made pursuant to long-term policies under which the benefits payable to the policyholder are wholly or partly to be determined by reference to the value of, or the income from, property of any description (whether or not specified in the contract) or by reference to fluctuations in, or in an index of, the value of property of any description (whether or not so specified).

This item is also to comprise investments which are held on behalf of the members of a tontine and are intended for distribution among them.

(12) *Reinsurance amounts*

(Assets item Da: liabilities items C.1.(b), 2.(b), 3.(b), 4.(b) and 6.(b) and D.(b).)

(25) Other technical provisions

(Liabilities item C.6.)

Other investment income, expenses and charges must either be disclosed in the non-technical account or attributed between the appropriate technical and non-technical accounts. Where the company makes such an attribution it must disclose the basis for it in the notes to the accounts.

(9) Unrealised gains and losses on investments

(Long-term business technical account: items II.3 and 10.

Non-technical account: items III.3a and 5a.)

In the case of investments attributed to the long-term fund, the difference between the valuation of the investments and their purchase price or, if they have previously been valued, their valuation as at the last balance sheet date, may be disclosed (in whole or in part) in item II.3 or II.10 (as the case may be) of the long-term business technical account, and in the case of investments shown as assets under assets item D (assets held to cover linked liabilities) must be so disclosed.

In the case of other investments, the difference between the valuation of the investments and their purchase price or, if they have previously been valued, their valuation as at the last balance sheet date, may be disclosed (in whole or in part) in item III.3a or III.5a (as the case may require) of the non-technical account.

(10) Allocated investment return

(General business technical account: item I.2.

Long-term business technical account: item II.2.

Where part of the investment return disclosed in the long-term business technical account is transferred to the non-technical account, the transfer to the non-technical account shall be deducted from item II.12 and added to item III.4.

Valuation

21.—(1) The amounts to be included in respect of assets of any description mentioned in paragraph 22 (valuation of assets: general) must be determined either—

- (a) in accordance with that paragraph and paragraph 24 (but subject to paragraphs 27 to 29), or
- (b) so far as applicable to an asset of that description, in accordance with Section C (valuation at fair value).

(2) The amounts to be included in respect of assets of any description mentioned in paragraph 24 (alternative valuation of fixed-income securities) may be determined—

- (a) in accordance with that paragraph (but subject to paragraphs 27 to 29), or
- (b) so far as applicable to an asset of that description, in accordance with Section C.

(3) The amounts to be included in respect of assets which—

- (a) are not assets of a description mentioned in paragraph 22 or 23, but

Status: Point in time view as at 01/04/2019.

Changes to legislation: There are currently no known outstanding effects for the The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. (See end of Document for details)

(b) are assets of a description to which Section C is applicable, may be determined in accordance with that Section.

(4) Subject to sub-paragraphs (1) to (3), the amounts to be included in respect of all items shown in a company's accounts are determined in accordance with Section C.

SECTION B

CURRENT VALUE ACCOUNTING RULES

Valuation of assets: general

22.—(1) Subject to paragraph 24, investments falling to be included under assets item C (investments) must be included at their current value calculated in accordance with paragraphs 25 and 26.

(2) Investments falling to be included under assets item D (assets held to cover linked liabilities) must be shown at their current value calculated in accordance with paragraphs 25 and 26.

23.—(1) Intangible assets other than goodwill may be shown at their current cost.

(2) Assets falling to be included under assets items F.I (tangible assets) and F.IV (own shares) in the balance sheet format may be shown at their current value calculated in accordance with paragraphs 25 and 26 or at their current cost.

(3) Assets falling to be included under assets item F.II (stocks) may be shown at current cost.

Alternative valuation of fixed-income securities

24.—(1) This paragraph applies to debt securities and other fixed-income securities shown as assets under assets items C.II (investments in group undertakings and participating interests) and C.III (other financial investments).

(2) Securities to which this paragraph applies may either be valued in accordance with paragraph 22 or their amortised value may be shown in the balance sheet, in which case the provisions of this paragraph apply.

(3) Subject to sub-paragraph (4), where the purchase price of securities to which this paragraph applies exceeds the amount repayable at maturity, the amount of the difference—

(a) must be charged to the profit and loss account, and

(b) must be shown separately in the balance sheet or in the notes to the accounts.

(4) The amount of the difference referred to in sub-paragraph (3) may be written off in instalments so that it is completely written off when the securities are repaid, in which case there must be shown separately in the balance sheet or in the notes to the accounts the difference between the purchase price (less the aggregate amount written off) and the amount repayable at maturity.

(5) Where the purchase price of securities to which this paragraph applies is less than the amount repayable at maturity, the amount of the difference must be released to income in instalments over the period remaining until repayment, in which case there must be shown separately in the balance sheet or in the notes to the accounts the difference between the purchase price (plus the aggregate amount released to income) and the amount repayable at maturity.

(6) Both the purchase price and the current value of securities valued in accordance with this paragraph must be disclosed in the notes to the accounts.

(7) Where securities to which this paragraph applies which are not valued in accordance with paragraph 22 are sold before maturity, and the proceeds are used to purchase other securities to

which this paragraph applies, the difference between the proceeds of sale and their book value may be spread uniformly over the period remaining until the maturity of the original investment.

Meaning of “current value”

25.—(1) Subject to sub-paragraph (5), in the case of investments other than land and buildings, current value means market value determined in accordance with this paragraph.

(2) In the case of listed investments, market value means the value on the balance sheet date or, when the balance sheet date is not a stock exchange trading day, on the last stock exchange trading day before that date.

(3) Where a market exists for unlisted investments, market value means the average price at which such investments were traded on the balance sheet date or, when the balance sheet date is not a trading day, on the last trading day before that date.

(4) Where, on the date on which the accounts are drawn up, listed or unlisted investments have been sold or are to be sold within the short term, the market value must be reduced by the actual or estimated realisation costs.

(5) Except where the equity method of accounting is applied, all investments other than those referred to in sub-paragraphs (2) and (3) must be valued on a basis which has prudent regard to the likely realisable value.

26.—(1) In the case of land and buildings, current value means the market value on the date of valuation, where relevant reduced as provided in sub-paragraphs (4) and (5).

(2) Market value means the price at which land and buildings could be sold under private contract between a willing seller and an arm's length buyer on the date of valuation, it being assumed that the property is publicly exposed to the market, that market conditions permit orderly disposal and that a normal period, having regard to the nature of the property, is available for the negotiation of the sale.

(3) The market value must be determined through the separate valuation of each land and buildings item, carried out at least every five years in accordance with generally recognised methods of valuation.

(4) Where the value of any land and buildings item has diminished since the preceding valuation under sub-paragraph (3), an appropriate value adjustment must be made.

(5) The lower value arrived at under sub-paragraph (4) must not be increased in subsequent balance sheets unless such increase results from a new determination of market value arrived at in accordance with sub-paragraphs (2) and (3).

(6) Where, on the date on which the accounts are drawn up, land and buildings have been sold or are to be sold within the short term, the value arrived at in accordance with sub-paragraphs (2) and (4) must be reduced by the actual or estimated realisation costs.

(7) Where it is impossible to determine the market value of a land and buildings item, the value arrived at on the basis of the principle of purchase price or production cost is deemed to be its current value.

Application of the depreciation rules

27.—(1) Where—

- (a) the value of any asset of a company is determined in accordance with paragraph 22 or 23, and
- (b) in the case of a determination under paragraph 22, the asset falls to be included under assets item C.I,

Status: Point in time view as at 01/04/2019.

Changes to legislation: There are currently no known outstanding effects for the The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. (See end of Document for details)

that value must be, or (as the case may require) must be the starting point for determining, the amount to be included in respect of that asset in the company's accounts, instead of its cost or any value previously so determined for that asset. Paragraphs 36 to 41 and 43 apply accordingly in relation to any such asset with the substitution for any reference to its cost of a reference to the value most recently determined for that asset in accordance with paragraph 22 or 23 (as the case may be).

(2) The amount of any provision for depreciation required in the case of any asset by paragraph 37 or 38 as it applies by virtue of sub-paragraph (1) is referred to below in this paragraph as the adjusted amount, and the amount of any provision which would be required by that paragraph in the case of that asset according to the historical cost accounting rules is referred to as the historical cost amount.

(3) Where sub-paragraph (1) applies in the case of any asset the amount of any provision for depreciation in respect of that asset included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

Additional information to be provided

28.—(1) This paragraph applies where the amounts to be included in respect of assets covered by any items shown in a company's accounts have been determined in accordance with paragraph 22 or 23.

(2) The items affected and the basis of valuation adopted in determining the amounts of the assets in question in the case of each such item must be disclosed in a note to the accounts.

(3) The purchase price of investments valued in accordance with paragraph 22 must be disclosed in the notes to the accounts.

(4) In the case of each balance sheet item valued in accordance with paragraph 23 either—

- (a) the comparable amounts determined according to the historical cost accounting rules (without any provision for depreciation or diminution in value), or
- (b) the differences between those amounts and the corresponding amounts actually shown in the balance sheet in respect of that item,

must be shown separately in the balance sheet or in a note to the accounts.

(5) In sub-paragraph (4), references in relation to any item to the comparable amounts determined as there mentioned are references to—

- (a) the aggregate amount which would be required to be shown in respect of that item if the amounts to be included in respect of all the assets covered by that item were determined according to the historical cost accounting rules, and
- (b) the aggregate amount of the cumulative provisions for depreciation or diminution in value which would be permitted or required in determining those amounts according to those rules.

Revaluation reserve

29.—(1) Subject to sub-paragraph (7), with respect to any determination of the value of an asset of a company in accordance with paragraph 22 or 23, the amount of any profit or loss arising from that determination (after allowing, where appropriate, for any provisions for depreciation or diminution in value made otherwise than by reference to the value so determined and any adjustments of any such provisions made in the light of that determination) must be credited or (as the case may be) debited to a separate reserve (“the revaluation reserve”).

(2) The amount of the revaluation reserve must be shown in the company's balance sheet under liabilities item A.III, but need not be shown under the name “revaluation reserve”.

Status: Point in time view as at 01/04/2019.

Changes to legislation: There are currently no known outstanding effects for the The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. (See end of Document for details)

- (3) An amount may be transferred—
 - (a) from the revaluation reserve—
 - (i) to the profit and loss account, if the amount was previously charged to that account or represents realised profit, or
 - (ii) on capitalisation,
 - (b) to or from the revaluation reserve in respect of the taxation relating to any profit or loss credited or debited to the reserve.

The revaluation reserve must be reduced to the extent that the amounts transferred to it are no longer necessary for the purposes of the valuation method used.

(4) In sub-paragraph (3)(a)(ii) “capitalisation”, in relation to an amount standing to the credit of the revaluation reserve, means applying it in wholly or partly paying up unissued shares in the company to be allotted to members of the company as fully or partly paid shares.

(5) The revaluation reserve must not be reduced except as mentioned in this paragraph.

(6) The treatment for taxation purposes of amounts credited or debited to the revaluation reserve must be disclosed in a note to the accounts.

(7) This paragraph does not apply to the difference between the valuation of investments and their purchase price or previous valuation shown in the long-term business technical account or the non-technical account in accordance with note (9) on the profit and loss account format.

SECTION C

Inclusion of financial instruments at fair value

30.—(1) Subject to sub-paragraphs (2) to (5), financial instruments (including derivatives) may be included at fair value.

(3) Except where they fall within paragraph (4), or fall to be included under assets item D (assets held to cover linked liabilities), sub-paragraph (1) does not apply to—

- (a) financial instruments (other than derivatives) held to maturity,
- (b) loans and receivables originated by the company and not held for trading purposes,
- (c) interests in subsidiary undertakings, associated undertakings and joint ventures,
- (d) equity instruments issued by the company,
- (e) contracts for contingent consideration in a business combination, or

[^{F116}(4) Financial instruments which under international accounting standards may be included in accounts at fair value, may be so included, provided that the disclosures required by such accounting standards are made.]

(5) If the fair value of a financial instrument cannot be determined reliably in accordance with paragraph 31, sub-paragraph (1) does not apply to that financial instrument.

Status: Point in time view as at 01/04/2019.

Changes to legislation: There are currently no known outstanding effects for the The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. (See end of Document for details)

Determination of fair value

31.—(1) The fair value of a financial instrument is its value determined in accordance with this paragraph.

(2) If a reliable market can readily be identified for the financial instrument, its fair value is determined by reference to its market value.

(3) If a reliable market cannot readily be identified for the financial instrument but can be identified for its components or for a similar instrument, its fair value is determined by reference to the market value of its components or of the similar instrument.

(4) If neither sub-paragraph (2) nor (3) applies, the fair value of the financial instrument is a value resulting from generally accepted valuation models and techniques.

(5) Any valuation models and techniques used for the purposes of sub-paragraph (4) must ensure a reasonable approximation of the market value.

Hedged items

32. A company may include any assets and liabilities, or identified portions of such assets or liabilities, that qualify as hedged items under a fair value hedge accounting system at the amount required under that system.

Other assets that may be included at fair value

[^{F117}33.—(1) This paragraph applies to—

- (a) investment property, and
- (b) living animals and plants.

(2) Such investment property and living animals and plants may be included at fair value provided that, as the case may be, all such investment property or living animals and plants are so included where their fair value can be reliably determined.

(2) Notwithstanding paragraph 18 in this Part of this Schedule, and subject to sub-paragraphs (3) and (4), a change in the value of the financial instrument or of the investment property or living animal or plant must be included in the profit and loss account.

(3) Where—

- (a) the financial instrument accounted for is a hedging instrument under a hedge accounting system that allows some or all of the change in value not to be shown in the profit and loss account, or
- (b) the change in value relates to an exchange difference arising on a monetary item that forms part of a company's net investment in a foreign entity,

the amount of the change in value must be credited to or (as the case may be) debited from a separate reserve (“the fair value reserve”).

(4) Where the instrument accounted for—

- (a) is an available for sale financial asset, and
- (b) is not a derivative,

the change in value may be credited to or (as the case may be) debited from the fair value reserve.

The fair value reserve

35.—(1) The fair value reserve must be adjusted to the extent that the amounts shown in it are no longer necessary for the purposes of paragraph 34(3) or (4).

(2) The treatment for taxation purposes of amounts credited or debited to the fair value reserve must be disclosed in a note to the accounts.

SECTION D

(2) Subject to any provision for depreciation or diminution in value made in accordance with paragraph 37 or 38, the amount to be included in respect of any asset in the balance sheet format is its cost.

37. In the case of any asset included under assets item B (intangible assets), C.I (land and buildings), F.I (tangible assets) or F.II (stocks) which has a limited useful economic life, the amount of—

- (a) its cost, or
- (b) where it is estimated that any such asset will have a residual value at the end of the period of its useful economic life, its cost less that estimated residual value,

must be reduced by provisions for depreciation calculated to write off that amount systematically over the period of the asset's useful economic life.

Status: Point in time view as at 01/04/2019.

Changes to legislation: There are currently no known outstanding effects for the The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. (See end of Document for details)

38.—(1) This paragraph applies to any asset included under assets item B (intangible assets), C (investments), F.I (tangible assets) or F.IV (own shares).

(2) Where an asset to which this paragraph applies has diminished in value, provisions for diminution in value may be made in respect of it and the amount to be included in respect of it may be reduced accordingly.

(3) Provisions for diminution in value must be made in respect of any asset to which this paragraph applies if the reduction in its value is expected to be permanent (whether its useful economic life is limited or not), and the amount to be included in respect of it must be reduced accordingly.

(4) Any provisions made under sub-paragraph (2) or (3) which are not shown in the profit and loss account must be disclosed (either separately or in aggregate) in a note to the accounts.

Excess of money owed over value received as an asset item

43.—(1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.

(2) Where any such amount is so treated—

- (a) it must be written off by reasonable amounts each year and must be completely written off before repayment of the debt, and
- (b) if the current amount is not shown as a separate item in the company's balance sheet, it must be disclosed in a note to the accounts.

Assets included at a fixed amount

44.—(1) Subject to sub-paragraph (2), assets which fall to be included under assets item F.I (tangible assets) in the balance sheet format may be included at a fixed quantity and value.

(2) The cost of an asset constructed by the company is to be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the construction of that asset.

(3) In addition, there may be included in the cost of an asset constructed by the company—

- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the construction of that asset, but only to the extent that they relate to the period of construction, and
- (b) interest on capital borrowed to finance the construction of that asset, to the extent that it accrues in respect of the period of construction,

provided, however, in a case within paragraph (b), that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.

46.—(1) The cost of any assets which are fungible assets may be determined by the application of any of the methods mentioned in sub-paragraph (2) in relation to any such assets of the same class, provided that the method chosen is one which appears to the directors to be appropriate in the circumstances of the company.

(2) Those methods are—

- (a) the method known as “first in, first out” (FIFO),
- (b) the method known as “last in, first out” (LIFO),

the amount of that difference must be disclosed in a note to the accounts.

(4) Subject to sub-paragraph (5), for the purposes of sub-paragraph (3)(b), the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

(5) The relevant alternative amount may be determined by reference to the most recent actual purchase price before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

SECTION E

RULES FOR DETERMINING PROVISIONS

Preliminary

48. Provisions which are to be shown in a company's accounts are to be determined in accordance with this Section.

Technical provisions

49. The amount of technical provisions must at all times be sufficient to cover any liabilities arising out of insurance contracts as far as can reasonably be foreseen.

Provision for unearned premiums

50.—(1) The provision for unearned premiums must in principle be computed separately for each insurance contract, save that statistical methods (and in particular proportional and flat rate methods) may be used where they may be expected to give approximately the same results as individual calculations.

(2) Where the pattern of risk varies over the life of a contract, this must be taken into account in the calculation methods.

Provision for unexpired risks

51. The provision for unexpired risks (as defined in paragraph 91) must be computed on the basis of claims and administrative expenses likely to arise after the end of the financial year from contracts concluded before that date, in so far as their estimated value exceeds the provision for unearned premiums and any premiums receivable under those contracts.

Status: Point in time view as at 01/04/2019.

Changes to legislation: There are currently no known outstanding effects for the The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. (See end of Document for details)

Long-term business provision

52.—(1) The long-term business provision must in principle be computed separately for each long-term contract, save that statistical or mathematical methods may be used where they may be expected to give approximately the same results as individual calculations.

(2) A summary of the principal assumptions in making the provision under sub-paragraph (1) must be given in the notes to the accounts.

(3) The computation must be made annually by a Fellow of the Institute or Faculty of Actuaries on the basis of recognised actuarial methods, with due regard to the actuarial principles laid down in ^{F122}Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the taking-up and pursuit of the business of Insurance and Reinsurance (Solvency II)].

Provisions for claims outstanding

General business

53.—(1) A provision must in principle be computed separately for each claim on the basis of the costs still expected to arise, save that statistical methods may be used if they result in an adequate provision having regard to the nature of the risks.

(2) This provision must also allow for claims incurred but not reported by the balance sheet date, the amount of the allowance being determined having regard to past experience as to the number and magnitude of claims reported after previous balance sheet dates.

(3) All claims settlement costs (whether direct or indirect) must be included in the calculation of the provision.

(4) Recoverable amounts arising out of subrogation or salvage must be estimated on a prudent basis and either deducted from the provision for claims outstanding (in which case if the amounts are material they must be shown in the notes to the accounts) or shown as assets.

(5) In sub-paragraph (4), “subrogation” means the acquisition of the rights of policy holders with respect to third parties, and “salvage” means the acquisition of the legal ownership of insured property.

(6) Where benefits resulting from a claim must be paid in the form of annuity, the amounts to be set aside for that purpose must be calculated by recognised actuarial methods, and paragraph 54 does not apply to such calculations.

(7) Implicit discounting or deductions, whether resulting from the placing of a current value on a provision for an outstanding claim which is expected to be settled later at a higher figure or otherwise effected, is prohibited.

54.—(1) Explicit discounting or deductions to take account of investment income is permitted, subject to the following conditions—

- (a) the expected average interval between the date for the settlement of claims being discounted and the accounting date must be at least four years;
- (b) the discounting or deductions must be effected on a recognised prudential basis;
- (c) when calculating the total cost of settling claims, the company must take account of all factors that could cause increases in that cost;

Status: Point in time view as at 01/04/2019.

Changes to legislation: There are currently no known outstanding effects for the The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. (See end of Document for details)

- (d) the company must have adequate data at its disposal to construct a reliable model of the rate of claims settlements;
 - (e) the rate of interest used for the calculation of present values must not exceed a rate prudently estimated to be earned by assets of the company which are appropriate in magnitude and nature to cover the provisions for claims being discounted during the period necessary for the payment of such claims, and must not exceed either—
 - (i) a rate justified by the performance of such assets over the preceding five years, or
 - (ii) a rate justified by the performance of such assets during the year preceding the balance sheet date.
- (2) When discounting or effecting deductions, the company must, in the notes to the accounts, disclose—
- (a) the total amount of provisions before discounting or deductions,
 - (b) the categories of claims which are discounted or from which deductions have been made,
 - (c) for each category of claims, the methods used, in particular the rates used for the estimates referred to in sub-paragraph (1)(d) and (e), and the criteria adopted for estimating the period that will elapse before the claims are settled.

Long-term business

55. The amount of the provision for claims must be equal to the sums due to beneficiaries, plus the costs of settling claims.

Equalisation reserves

56. The amount of any equalisation reserve maintained in respect of general business by the company, in accordance with the rules [^{F123}made by the Financial Conduct Authority or the Prudential Regulation Authority] under Part 10 of the Financial Services and Markets Act 2000 ^{M13}, must be determined in accordance with such rules.

Accounting on a non-annual basis

57.—(1) Either of the methods described in paragraphs 58 and 59 may be applied where, because of the nature of the class or type of insurance in question, information about premiums receivable or claims payable (or both) for the underwriting years is insufficient when the accounts are drawn up for reliable estimates to be made.

(2) The use of either of the methods referred to in sub-paragraph (1) must be disclosed in the notes to the accounts together with the reasons for adopting it.

(3) Where one of the methods referred to in sub-paragraph (1) is adopted, it must be applied systematically in successive years unless circumstances justify a change.

(2) The provision may also be computed on the basis of a given percentage of the premiums written where such a method is appropriate for the type of risk insured.

(3) If necessary, the amount of this technical provision must be increased to make it sufficient to meet present and future obligations.

(4) The technical provision constituted under this paragraph must be replaced by a provision for claims outstanding estimated in accordance with paragraph 53 as soon as sufficient information has been gathered and not later than the end of the third year following the underwriting year.

(5) The length of time that elapses before a provision for claims outstanding is constituted in accordance with sub-paragraph (4) must be disclosed in the notes to the accounts.

59.—(1) The figures shown in the technical account or in certain items within it must relate to a year which wholly or partly precedes the financial year (but by no more than 12 months).

(2) The amounts of the technical provisions shown in the accounts must if necessary be increased to make them sufficient to meet present and future obligations.

(3) The length of time by which the earlier year to which the figures relate precedes the financial year and the magnitude of the transactions concerned must be disclosed in the notes to the accounts.

(2) Nothing in this Schedule prevents the directors setting out in the report any such additional information as they think fit, and any item required to be shown in the report may be shown in greater detail than required by the provisions of this Schedule.

(3) Where the requirements of this Schedule make reference to a "director" those requirements may be complied with in such manner as to distinguish between directors who perform executive functions and those who do not.

(4) Any requirement of this Schedule to provide information in respect of a director may, in respect of those directors who do not perform executive functions, be omitted or otherwise modified where that requirement is not applicable to such a director and in such a case, particulars of, and the reasons for, the omission or modification must be given in the report.

(5) Any requirement of this Schedule to provide information in respect of performance measures or targets does not require the disclosure of information which, in the opinion of the directors, is commercially sensitive in respect of the company.

(6) Where information that would otherwise be required to be in the report is not included in reliance on sub-paragraph (5), particulars of, and the reasons for, the omission must be given in the report and an indication given of when (if at all) the information is to be reported to the members of the company.

PART 3

ANNUAL REPORT ON REMUNERATION

Single total figure of remuneration for each director

4.—(1) The directors’ remuneration report must, for the relevant financial year, for each person who has served as a director of the company at any time during that year, set out in a table in the form set out in paragraph 5 (“the single total figure table”) the information prescribed by paragraphs 6 and 7 below.

(2) The report may set out in separate tables the information to be supplied in respect of directors who perform executive functions and those who do not.

(3) Unless otherwise indicated the sums set out in the table are those in respect of the relevant financial year and relate to the director’s performance of, or agreement to perform, qualifying services.

5.—(1) The form of the table required by paragraph 4 is—

Single Total Figure Table						
	a	b	c	d	e	Total
Director 1	xxx	xxx	xxx	xxx	xxx	xxx
Director 2	xxx	xxx	xxx	xxx	xxx	xxx

(2) The directors may choose to display the table using an alternative orientation, in which case references in this Schedule to columns are to be read as references to rows.

6.—(1) In addition to the columns described in paragraph 7, columns—

(a) must be included to set out any other items in the nature of remuneration (other than items required to be disclosed under paragraph 15) which are not set out in the columns headed “(a)” to “(e)”; and

(b) may be included if there are any sub-totals or other items which the directors consider necessary in order to assist the understanding of the table.

(2) Any additional columns must be inserted before the column marked “Total”.

(a) in the column headed “a”, the total amount of salary and fees;

(b) in the column headed “b”, all taxable benefits;

(c) in the column headed “c”, money or other assets received or receivable for the relevant financial year as a result of the achievement of performance measures and targets relating to a period ending in that financial year other than—

(i) those which result from awards made in a previous financial year and where final vesting is determined as a result of the achievement of performance measures or targets relating to a period ending in the relevant financial year; or

(ii) those receivable subject to the achievement of performance measures or targets in a future financial year;

(d) in the column headed “d”, money or other assets received or receivable for periods of more than one financial year where final vesting—

(i) is determined as a result of the achievement of performance measures or targets relating to a period ending in the relevant financial year; and

(ii) is not subject to the achievement of performance measures or targets in a future financial year;

(e) in the column headed “e”, all pension related benefits including—

(i) payments (whether in cash or otherwise) in lieu of retirement benefits;

(ii) all benefits in year from participating in pension schemes;

(f) in the column headed “Total”, the total amount of the sums set out in the previous columns.

(2) Where it is necessary to assist the understanding of the table by the creation of sub-totals the columns headed “a” to “e” may be set out in an order other than the one set out in paragraph 5.

8.—(1) In respect of any items in paragraph 7(1)(c) or (d) where the performance measures or targets are substantially (but not fully) completed by the end of the relevant financial year—

(a) the sum given in the table may include sums which relate to the following financial year; but

(b) where such sums are included, those sums must not be included in the corresponding column of the single total figure table prepared for that following financial year; and

(c) a note to the table must explain the basis of the calculation.

(2) Where any money or other assets reported in the single total figure table in the directors’ remuneration report prepared in respect of any previous financial year are the subject of a recovery of sums paid or the withholding of any sum for any reason in the relevant financial year—

 - (b) an explanation for the recovery or withholding and the basis of the calculation must be given in a note to the table.
- (3) Where the calculations in accordance with paragraph 10 (other than in respect of a recovery or withholding) result in a negative value, the result must be expressed as zero in the relevant column in the table.

9.—(1) Each column in the single total figure table must contain, in such manner as to permit comparison, two sums as follows—

- (a) the sum set out in the corresponding column in the report prepared in respect of the financial year preceding the relevant financial year; and
- (b) the sum for the relevant financial year.

(2) When, in the single total figure table, a sum is given in the column which relates to the preceding financial year and that sum, when set out in the report for that preceding year was given as an estimated sum, then in the relevant financial year—

- (a) it must be given as an actual sum;
- (b) the amount representing the difference between the estimate and the actual must not be included in the column relating to the relevant financial year; and
- (c) details of the calculation of the revised sum must be given in a note to the table.

10.—(1) The methods to be used to calculate the sums required to be set out in the single total figure table are—

- (a) for the column headed “a”, cash paid to or receivable by the person in respect of the relevant financial year;
- (b) for the column headed “b”, the gross value before payment of tax;
- (c) for column “c”, the total cash equivalent including any amount deferred, other than where the deferral is subject to the achievement of further performance measures or targets in a future financial year;
- (d) for column “d”—
 - (i) the cash value of any monetary award;
 - (ii) the value of any shares or share options awarded, calculated by—
 - (aa) multiplying the original number of shares granted by the proportion that vest (or an estimate);
 - (bb) multiplying the total arrived at in (aa) by the market price of shares at the date on which the shares vest; and
 - (iii) the value of any additional cash or shares receivable in respect of dividends accrued (actually or notionally);
- (e) for the column headed “e”,—
 - (i) for the item in paragraph 7(1)(e)(i), the cash value;
 - (ii) for the item in paragraph 7(1)(e)(ii), what the aggregate pension input amount would be across all the pension schemes of the company or group in which the director accrues benefits, calculated using the method set out in section 229 of the Finance Act 2004 where—
 - (aa) references to “pension input period” are to be read as references to the company’s financial year, or where a person becomes a director during the

 - (cc) all pension contributions paid by the director during the pension input period are deducted from the pension input amount;
 - (dd) in the application of section 234 of that Act, the figure 20 is substituted for the figure 16 each time it appears;
 - (ee) subsections 229(3) and (4) do not apply; and
 - (ff) section 277 of that Act is read as follows—

“Valuation assumptions

For the purposes of this Part the valuation assumptions in relation to a person, benefits and a date are—

- (a) if the person has not left the employment to which the arrangement relates on or before the date, that the person left that employment on the date with a prospective right to benefits under the arrangement,
- (b) if the person has not reached such age (if any) as must have been reached to avoid any reduction in the benefits on account of age, that on the date the person is entitled to receive the benefits without any reduction on account of age, and
- (c) that the person’s right to receive the benefits had not been occasioned by physical or mental impairment.”.

(2) For the item in paragraph 7(1)(e)(ii) where there has not been a company contribution to the pension scheme in respect of the director, but if such a contribution had been made it would have been measured for pension input purposes under section 233(1)(b) of the Finance Act 2004, when calculating the pension input amount for the purposes of sub-paragraph (1)(e)(ii) it should be calculated as if the cash value of any contribution notionally allocated to the scheme in respect of the person by or on behalf of the company including any adjustment made for any notional investment return achieved during the relevant financial year were a contribution paid by the employer in respect of the individual for the purposes of section 233(1)(b) of the Finance Act 2004.

- (3) For the purposes of the calculation in sub-paragraph (1)(d)(ii)—
- (a) where the market price of shares at the date on which the shares vest is not ascertainable by the date on which the remuneration report is approved by the directors, an estimate of the market price of the shares shall be calculated on the basis of an average market value over the last quarter of the relevant financial year; and
 - (b) where the award was an award of shares or share options, the cash amount the individual was or will be required to pay to acquire the share must be deducted from the total.

- (d) where any discretion has been exercised in respect of the award, particulars must be given of how the discretion was exercised [^{F188}, how the resulting level of award was determined and whether the discretion has been exercised as a result of share price appreciation or depreciation.]

(4) For each component the value of which is included in the sum set out in the column headed “c” of the table, the report must state if any amount was deferred, the percentage deferred, whether it was deferred in cash or shares, if relevant, and whether the deferral was subject to any conditions other than performance measures.

(5) Where additional columns are included in accordance with paragraph 6(1)(a), there must be set out in a note to the table the basis on which the sums in the column were calculated, and other such details as are necessary for an understanding of the sums set out in the column, including any performance measures relating to that component of remuneration or if there are none, an explanation of why not.

 - (ii) a hypothetical holding of shares made up of shares of the same kinds and number as those by reference to which a broad equity market index is calculated,a line drawn by joining up points plotted to represent, for each of the financial years in the relevant period, the total shareholder return on that holding; and
- (b) state the name of the index selected for the purposes of the graph and set out the reasons for selecting that index.

(2) The report must also set out in tabular form the following information for each of the financial years in the relevant period in respect of the director undertaking the role of chief executive officer—

 - (b) where no such report has been compiled, a suitable corresponding sum.
- (6) For the purposes of sub-paragraph (1), the "total shareholder return" for a relevant period on a holding of shares must be calculated using a fair method that—

 - (ii) the assumption specified in sub-paragraph (9) as to the funding of liabilities; and

 - (b) that any benefit in cash, and an amount equal to the value of any benefit not in cash and not falling within paragraph (a), is applied at the time the benefit becomes receivable in the purchase at their market price of shares of the same kind as those in the holding and that the shares purchased are added to the holding at that time.
- (8) In sub-paragraph (7) "benefit" means any benefit (including, in particular, any dividend) receivable in respect of any shares in the holding by the holder from the company of whose share capital the shares form part.
- (9) The assumption as to the funding of liabilities is that, where the holder has a liability to the company of whose capital the shares in the holding form part, shares are sold from the holding—
- (a) immediately before the time by which the liability is due to be satisfied, and
 - (b) in such numbers that, at the time of the sale, the market price of the shares sold equals the amount of the liability in respect of the shares in the holding that are not being sold.
- (10) In sub-paragraph (9) "liability" means a liability arising in respect of any shares in the holding or from the exercise of a right attached to any of those shares.

(b) the average percentage change from the financial year preceding the relevant financial year in respect of the employees of the company taken as a whole.

(2) Where for the purposes of sub-paragraph (1)(b), a comparator group comprising the employees taken as a whole is considered by the company as an inappropriate comparator group of employees, the company may use such other comparator group of employees as the company identifies, provided the report contains a statement setting out why that group was chosen.

(3) Where the company is a parent company, the statement must relate to the group and not the company, and the director reported on is the director undertaking the role of chief executive officer of the parent company, and the employees are the employees of the group.

[^{F189} Pay ratio information in relation to the total remuneration of the director undertaking the role of chief executive officer

(4) Under Option B the company must determine Y25, Y50 and Y75 as follows—

- (a) as a starting point, use the most recent hourly rate gender pay gap information for all UK employees of the company to identify three UK employees as the best equivalents of P25, P50 and P75,

- (6) When using any of the options, the company may—

 - (b) omit any component other than salary from pay and benefits to determine Y25, Y50 and Y75, provided the company includes in its report a statement required by paragraph 19E(f);
 - (c) calculate any component of pay and benefits, other than salary, using a different methodology than that set out in paragraph 10 to determine Y25, Y50 and Y75, provided the company includes in its report a statement required by paragraph 19E(g).
- (7) When using Option B or C, if the company does not have the data available for any component of pay and benefits corresponding to paragraph 7(1)(b) to (e), the company may use a reasonable estimate of that component to determine Y25, Y50 and Y75.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations specify the form and content of the accounts and reports of companies under Part 15 of the Companies Act 2006 (c.46) (“the 2006 Act”), other than those subject to the small companies regime. They are dealt with separately in the Small Companies and Groups (Accounts and Directors' Report) Regulations 2008. The Regulations replace provisions previously contained in the Schedules to Part 7 of the Companies Act 1985 (c.6) (“the 1985 Act”) and in the Schedules to Part 8 of the Companies (Northern Ireland) Order 1986 (S.I. 1986/1032 (N.I. 6)) (“the 1986 Order”). They extend to the whole of the United Kingdom, reflecting the extent of the 2006 Act. The Regulations come into force on 6th April 2008 and, with one exception, apply to financial years beginning on or after that date (regulation 2). The corresponding provisions of the 1985 Act or the 1986 Order continue to apply to accounts and reports for financial years beginning before that date. The new disclosure required by paragraph 4 of Schedule 8 to the Regulations applies in relation to financial years beginning on or after 6th April 2009 (regulation 2(3)).

The Regulations continue the implementation of the following Directives—

Council Directive [78/660/EEC](#) on the annual accounts of certain types of companies (“the Fourth Directive”) (O.J. L222 of 14.8.1978, page 1),

Council Directive [83/349/EEC](#) on consolidated accounts (“the Seventh Directive”) (O.J.L193 of 18.7.1983, page 1),

Council Directive [86/635/EEC](#) on the annual accounts and consolidated accounts of banks and other financial institutions (“the Bank Accounts Directive”) (O.J. L372 of 31.12.1986, page 1), and

Council Directive [91/674/EEC](#) on the annual accounts and consolidated accounts of insurance undertakings (“the Insurance Accounts Directive”) (O.J. L374 of 31.12.91, page 7).

Regulation 3(1) of, and Schedule 1 to, the Regulations specify the form and content of the individual accounts of a company which is not a banking or insurance company, and the directors of which are preparing Companies Act individual accounts. The Schedule re-enacts Schedule 4 to the 1985 Act and Schedule 4 to the 1986 Order, with two substantive modifications. Paragraph 36(4) of Schedule 1 implements article 1.5 of Directive 2006/46 of the European Parliament and the Council of 14th June 2006 amending the Fourth, Seventh, Bank Accounts and Insurance Accounts Directives (OJ L 224 of 16th August 2006, pages 1 to 7). Paragraph 72 of Schedule 1 implements article 1.6(7b) of Directive 2006/46. The Directive is also to be implemented by the Small Companies and Groups (Accounts and Directors' Report) Regulations 2008, the Companies Act 2006 (Amendment) (Accounts and Reports) Regulations 2008, and by the Financial Services Authority using powers under the Financial Services and Markets Act 2000 (c.8).

Paragraph 36(4) of Schedule 1 gives companies the option of including financial instruments in the accounts at a fair value provided that they may be so included under international accounting standards adopted under the IAS Regulation (as defined in section 474(1) of the 2006 Act) on or before 5th September 2006, and provided that the disclosures required by such standards are made. Paragraph 72 requires companies to make certain disclosures about transactions with related parties.

Regulation 4 specifies certain exemptions for medium-sized companies the directors of which are preparing Companies Act accounts. It re-enacts the exemptions in section 246A of the 1985 Act and in Article 254A of the 1986 Order, save that medium-sized companies are required by regulation 4(3) to disclose their turnover in the accounts delivered to the registrar of companies. Regulation 4(2)(b) implements the member State option in article 1.6 of Directive 2006/46

exempting medium-sized companies from making the disclosures about related party transactions required by paragraph 72 of Schedule 1 to the Regulations.

Regulation 5 of, and Schedule 2 to, the Regulations specify the form and content of the individual accounts of a banking company the directors of which are preparing Companies Act accounts. The Schedule re-enacts Schedule 9 to the 1985 Act and Schedule 9 to the 1986 Order. Paragraph 44(4) of Schedule 2 contains the equivalent provision to paragraph 36(4) of Schedule 1 and paragraph 92 the equivalent provision to paragraph 72 of Schedule 1 (see above) in implementation of article 3 of Directive 2006/46.

Regulation 6 of, and Schedule 3 to, the Regulations specify the form and content of the individual accounts of an insurance company the directors of which are preparing Companies Act accounts. The Schedule re-enacts Schedule 9A to the 1985 Act and Schedule 9A to the 1986 Order. Paragraph 30(4) of Schedule 3 contains the equivalent provision to paragraph 36(4) of Schedule 1 and paragraph 90 the equivalent provision to paragraph 72 of Schedule 1 (see above) in implementation of article 4 of Directive 2006/46.

Regulations 7 and 8 of, and Schedules 4 and 5 to, the Regulations specify information about related undertakings and directors' remuneration which a company must include in the notes to the individual accounts which it prepares, whether they are Companies Act individual accounts or IAS individual accounts. The Schedules re-enact Schedules 5 and 6 to the 1985 Act and Schedules 5 and 6 to the 1986 Order.

Regulation 9 of, and Schedule 6 to, the Regulations specify the form and content of group accounts. The Schedule re-enacts Schedule 4A to the 1985 Act and Schedule 4A to the 1986 Order, save that paragraphs 9, 13 and 17 have been simplified to facilitate convergence with international accounting standards.

Regulation 10 of, and Schedule 7 to, the Regulations specify information to be included in the directors' report which the directors of a company are required to prepare under section 415 of the 2006 Act. The Schedule re-enacts the provisions in Schedule 7 to the 1985 Act and Schedule 7 to the 1986 Order, save that the thresholds for disclosure of political donations and expenditure and charitable donations have been raised from £200 to £2000 (paragraphs 3 and 5), and that provision is now made for disclosure of donations to independent election candidates (paragraph 3). Paragraphs 13 and 14 of Schedule 7 continue the implementation of Directive [2004/25/EEC](#) of the European Parliament and the Council of 21st April 2005 on takeover bids (O.J. L142 of 30th April 2004, pages 12 to 23).

Regulation 11 of, and Schedule 8 to, the Regulations specify information to be included in the directors' remuneration report which the directors of a quoted company are required to prepare under section 420 of the 2006 Act. The Schedule re-enacts the provisions in Schedule 7A to the 1985 Act and Schedule 7A to the 1986 Order, with the addition of a new requirement in paragraph 4 that the directors' remuneration report contain a statement of how pay and employment conditions elsewhere in the company and group have been taken into account in determining directors' remuneration for the financial year in question.

Regulation 12 of, and Schedule 9 to, the Regulations define the term "provisions" for the purposes of the Regulations and for the purposes of sections 677(3)(a) (Companies Act accounts: relevant provisions for purposes of financial assistance), 712(2)(b)(i) (Companies Act accounts: relevant provisions to determine available profits for redemption or purchase out of capital), 831(3)(a) (Companies Act accounts: net asset restriction on public company distributions), 832(4)(a) (Companies Act accounts: investment companies distributions) and 836(1)(b)(i) (Companies Act accounts: relevant provisions for distribution purposes) of the 2006 Act.

Regulation 13 of, and Schedule 10 to, the Regulations contain general interpretation provisions. A transposition note has been prepared which sets out how Directive 2006/46 is to be transposed into UK law. An Impact Assessment of the effect that the implementation of Directive 2006/46 will have on the costs of business, charities or voluntary bodies has also been prepared, as has an Impact Assessment of the new requirement in paragraph 4 of Schedule 8 to the Regulations for disclosure in the directors' remuneration report.
