(2) Where the Agency cannot comply with paragraph (1) because it has insufficient information available to it to enable it to calculate the official controls charge for any accounting period in respect of any such premises as are specified in that paragraph, it shall notify the operator of those premises of an interim charge, being such amount as the Agency estimates (having regard to the information it has) the official controls charge to be.

(3) Where the Agency has notified an operator of an interim charge in accordance with paragraph (2), and sufficient information becomes available to the Agency to calculate the official controls charge, it shall calculate that charge and —

- (a) where it exceeds the interim charge, notify the operator of the final charge, being the amount by which the official controls charge exceeds the interim charge; or

CALCULATION OF THE OFFICIAL CONTROLS CHARGE

The official controls charge

1. Subject to paragraph 2, the official controls charge payable by the operator of any premises for any accounting period shall be the lower of —

- (a) the sum of —
 - (i) the standard charge incurred in relation to those premises for that period, and
 - (ii) any additional charge incurred in relation to those premises for that period by virtue of paragraph 6; and
- (b) the time costs generated by those premises for that period.

2.—(1) This paragraph applies where the official controls charge calculated under paragraph 1 for any accounting period (amount A), when added to the official controls charge payable in respect of all earlier accounting periods falling within the same financial period (amount B), produces a total (amount C) which is greater than the amount of the official controls charge which would be payable under paragraph 1 if those accounting periods were one accounting period (amount D).

(2) Where this paragraph applies, the official controls charge payable by an operator for an accounting period shall be the amount by which amount D exceeds amount B.

(3) In this paragraph “financial period” means—

- (a) the period commencing on 31st March 2008 and ending on 29th March 2009; and
- (b) thereafter, the period commencing on 30th March 2009 and ending on 31st December 2009.

The standard charge

3. The standard charge for any accounting period payable by the operator of a slaughterhouse shall be calculated—

- (a) until the end of 2008, by multiplying the rate specified in the following Table applicable to a given type of animal by the number of animals of that type slaughtered and/or dressed there in the period; and
- (b) during 2009—
 - (i) in the same manner, or
 - (ii) by multiplying the rate in Euros specified in Chapter I of Section B of Annex IV to Regulation 882/2004 applicable to a given type of animal specified in the following Table by the number of animals of that type slaughtered and/or dressed there in the period and converting the resulting sum into Sterling by multiplying it by the Euro/Sterling conversion rate published in the C series of the Official Journal of the European Union on 1st September 2008 or, if no rate is published in that document on that date, the first rate published in it thereafter,

whichever results in the higher charge.

4. The standard charge for any accounting period payable by the operator of a game-handling establishment in respect of wild game dressed there during that period shall be calculated—

- (a) until the end of 2008, by multiplying the rate specified in the following Table applicable to a given type of animal that is categorised as wild game by the number of animals of that type dressed there in the period; and

(b) during 2009—

(i) in the same manner, or

(ii) by multiplying the rate in Euros specified in Chapter III of Section B of Annex IV to Regulation 882/2004 applicable to a given type of animal that is categorised as wild game and is specified in the following Table by the number of animals of that type dressed there in the period and converting the resulting sum into Sterling by multiplying it by the Euro/Sterling conversion rate published in the C Series of the Official Journal of the European Union on 1st September 2008 or, if no rate is published in that document on that date, the first rate published in it thereafter,

whichever results in the higher charge.

The additional charge

6.—(1) Where in respect of an accounting period the Agency incurs increased costs because of inefficiency in the operation of premises, it may, in accordance with this paragraph, add an additional charge to the standard charge incurred in relation to the premises for that period.

(2) The additional charge shall be a sum equal to the time costs generated by the inefficiency for the accounting period concerned.

(3) The Agency may not make an additional charge in accordance with this paragraph unless it has notified the operator of its intention to do so.

- (a) the Agency shall nominate a person to determine the question from the list established under sub-paragraph (4);
- (b) the person so nominated shall give the operator and the Agency an opportunity to make representations on the question to be determined; and
- (c) the person so nominated shall, within 1 month of being nominated, decide whether an additional charge is payable and shall notify the operator and the Agency of his decision.

(4) The Agency shall establish and maintain a list of people who may be nominated for the purposes of this paragraph and shall consult those organisations appearing to represent operators before including any person on the list.

Time costs

8. The time costs generated by any premises in any accounting period shall (subject to paragraphs 9 and 10) be calculated by —

- (a) multiplying the time (expressed in hours and fractions of an hour) spent by each inspector exercising official controls at those premises in the period by the hourly rate applicable to that inspector determined or varied in accordance with paragraphs 11 to 13;
- (b) adding the results together; and
- (c) adding any agreed slaughterhouse staff costs for the period.

9. The time costs in respect of any official controls shall include any overtime payments or other similar allowances made to the inspector concerned under his contract of employment or contract for services for exercising those official controls.

10. In determining the total time spent in exercising official controls, any time spent by an inspector—

- (a) in travelling to or from premises at which he exercises official controls and for which he is paid under a contract of employment or contract for services;
- (b) at any premises to which he has gone for the purpose of exercising official controls and for which he is paid under a contract of employment or contract for services (regardless of whether or not he is able to exercise official controls there); and

(c) at any other place—

- (i) when he is available for exercising official controls but is not in fact exercising any such controls, and
- (ii) for which he is paid under his contract of employment or contract for services,

shall be counted as if it were time when the inspector was exercising official controls.

11. The Agency shall determine the hourly rate applicable to inspectors, and may determine different rates for different inspectors or different classes of inspector, having regard to the level of qualifications and experience of different inspectors or classes of inspector and to the cost of exercising official controls by different inspectors or classes of inspector.

12. The hourly rate for any inspector or class of inspector shall be calculated so as to reflect such proportion of the costs of the items listed in Annex VI to Regulation 882/2004 incurred by that inspector or class of inspector in exercising official controls (excluding any additional costs taken into account pursuant to paragraph 9) as the Agency considers it proper to apportion to that hourly rate.

13. The Agency may vary any rate determined pursuant to paragraph 11 where, having regard to variations in the costs referred to in paragraph 12, it appears to it to be necessary to do so.

14. Prior to determining or varying hourly rates in accordance with paragraphs 11 to 13, the Agency shall consult such operators as are likely to be affected by those rates.

- (b) provide that any official controls charge so notified is payable by the operator to the Agency on demand (*regulation 3*);
- (c) allow the Agency to refuse to exercise any further official controls at given premises where, despite a Court order requiring the operator of the premises to pay the official controls charge for which he is liable, he fails to comply with the order (*regulation 4*);
- (d) require persons to supply the Agency on demand —
 - (i) with such information as it may reasonably require for the purpose of calculating the official controls charge or notifying the operator of it, and
 - (ii) with such evidence as it may reasonably require to enable it to verify that information (*regulation 5*); and
- (e) provide that persons to whom such a demand has been made commit an offence if —
 - (i) without reasonable excuse, they fail to comply within a reasonable time with the demand, or
 - (ii) in purported compliance with the demand, they knowingly or recklessly furnish information or evidence that is false or misleading in a material particular (*regulation 5*).

5. Schedule 2 to these Regulations sets out how the official controls charge is to be calculated.
