

SCHEDULE 4

Holdings Situated Partly Outside England

Apportionment of individual reference quantity of milk

7. Where a holding in respect of which a claim has been made is situated partly outside England, the individual reference quantity of milk which is treated as available to a claimant in relation to the claimant's land in England is calculated as follows—

$$IRQ = (TIRQ \times X) \div Y$$

where—

“X” is the claimed forage area in hectares of that part of the holding situated in England;

“Y” is the total claimed forage area in hectares of that holding;

“TIRQ” is the total individual reference quantity of milk available to the claimant in respect of that holding; and

“IRQ” is the individual reference quantity of milk which is treated as available in respect of that part of the holding situated in England.
