EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations transpose parts of Directive [2008/101/EC](#) of the European Parliament and of the Council amending Directive [2003/87/EC](#) so as to include aviation activities in the scheme for greenhouse gas emission allowance trading within the Community (OJ No L 8, 13.1.2009, p. 3). The Regulations apply in the United Kingdom. First, they establish a procedure to allow UK operators to apply for a free allocation of allowances for their participation in the emissions trading scheme. Secondly, they impose obligations on an aircraft operator to apply for an emissions plan; monitor emissions in each year from 2010; and to verify and report those emissions by 31st March in the following year.

Regulations 3 to 7 define aircraft operator, regulator and authority under these Regulations. Regulations 8 to 13 apply where a UK operator wishes to apply for a free allocation of allowances. Under these Regulations provision is made for the regulator to issue a plan to a UK operator and the UK operator must monitor its tonne-kilometre data in accordance with that plan in 2010 and submit a verified report of that data to the regulator.

Regulations 14 to 17 require aircraft operators to submit an application to the regulator for an emissions plan; to monitor emissions in accordance with a plan approved by the regulator in each calendar year from 1st January 2010; and to submit a verified report to the regulator of the monitored emissions by 31st March in the following year.

Regulation 18 makes provision for requiring aircraft operators to retain information and address non-conformities and misstatements identified by an independent verifier.

Regulation 19 gives the regulator the power to determine the emissions of an aircraft operator where the aircraft operator has failed to comply with its obligations to submit a report containing its verified emissions to the regulator.

Regulation 20 makes provision for the regulator to serve notices on aircraft operators requiring information to enable the regulator to discharge its functions under the Regulations.

Regulations 21 to 29 provide that where an aircraft operator or UK operator do not comply with their obligations they will be liable to a civil penalty.
