- (2) In these Regulations “public building” means a building consisting of or containing—
 - (a) a theatre, public library, hall or other place of public resort;

- (b) a school or other educational establishment not exempted from the operation of building regulations by virtue of section 4(1)(a) of the Act^{M7}; or
- (c) a place of public worship;

but a building is not to be treated as a place of public resort because it is, or it contains, a shop, storehouse or warehouse, or is a dwelling to which members of the public are occasionally admitted.

(3) In these Regulations “thermal element” means a wall, floor or roof (but does not include windows, doors, roof windows or roof-lights) which separates a thermally conditioned part of the building (“the conditioned space”) from—

- (a) the external environment (including the ground); or
- (b) in the case of floors and walls, another part of the building which is—
 - (i) unconditioned;
 - (ii) an extension falling within class 7 of Schedule 2; or
 - (iii) where this paragraph applies, conditioned to a different temperature,

and includes all parts of the element between the surface bounding the conditioned space and the external environment or other part of the building as the case may be.

(4) Paragraph (3)(b)(iii) only applies to a building which is not a dwelling, where the other part of the building is used for a purpose which is not similar or identical to the purpose for which the conditioned space is used.

(5) Section 67 of the Water Industry Act 1991 and such regulations as have been made under that section apply for the purposes of Part G of Schedule 1 as they apply for the purposes of Chapter 3 of Part 3 of that Act.

^{F27} ^{F28} (6) In these Regulations—

- (a) any reference to an “external wall” of a building includes a reference to—
 - (i) anything located within any space forming part of the wall;
 - (ii) any decoration or other finish applied to any external (but not internal) surface forming part of the wall;
 - (iii) any windows and doors in the wall; and
 - (iv) any part of a roof pitched at an angle of more than 70 degrees to the horizontal if that part of the roof adjoins a space within the building to which persons have access, but not access only for the purpose of carrying out repairs or maintenance; ^{F29} and]

^{F30} [“reaction to fire classification” means BS EN 13501-1:2018 entitled “Fire classification of construction products and building elements. Classification using data from reaction to fire tests.” published by the British Standards Institution in 2019;

- (c) “relevant metal composite material” means any panel or sheet, having a thickness of no more than 10mm, which is comprised of a number of layers—
 - (i) two or more of which are made of metal, alloy or metal compound; and
 - (ii) one or more of which is substantial and is made of a material having a gross calorific value of more than 35 MJ/kg when tested in accordance with BS EN ISO 1716:2018 entitled “Reaction to fire tests for products – Determination of the gross heat of combustion (calorific value)” published by the British Standards Institution in 2018;and for these purposes a substantial layer is one which is at least 1mm thick or has a mass per unit area of at least 1kg per m²;

- (d) “specified attachment” means—
 - (i) a balcony attached to an external wall;

PART 2

Control of Building Work

Meaning of building work

3.—(1) In these Regulations “building work” means—

- (a) the erection or extension of a building;
- (b) the provision or extension of a controlled service or fitting in or in connection with a building;
- (c) the material alteration of a building, or a controlled service or fitting, as mentioned in paragraph (2);
- (d) work required by regulation 6 (requirements relating to material change of use);
- (e) the insertion of insulating material into the cavity wall of a building;
- (f) work involving the underpinning of a building;
- (g) work required by regulation 22 (requirements relating to a change of energy status);
- (h) work required by regulation 23 (requirements relating to thermal elements);
- (i) work required by regulation 28 (consequential improvements to energy performance).

(2) An alteration is material for the purposes of these Regulations if the work, or any part of it, would at any stage result—

- (a) in a building or controlled service or fitting not complying with a relevant requirement where previously it did; or
- (b) in a building or controlled service or fitting which before the work commenced did not comply with a relevant requirement, being more unsatisfactory in relation to such a requirement.

(3) In paragraph (2) “relevant requirement” means any of the following applicable requirements of Schedule 1, namely—

- Part A (structure)
- paragraph B1 (means of warning and escape)
- paragraph B3 (internal fire spread—structure)
- paragraph B4 (external fire spread)
- paragraph B5 (access and facilities for the fire service)
- Part M (access to and use of buildings).

Requirements relating to building work

4.—(1) Subject to paragraph (2) building work shall be carried out so that—

- (a) it complies with the applicable requirements contained in Schedule 1; and
- (b) in complying with any such requirement there is no failure to comply with any other such requirement ^{F32}[^{F33}, except as may be provided for in paragraphs (1C) and (1D)].

^{F34}[^{F35}(1A) The applicable requirements contained in Schedule 1 are—

- (a) the applicable requirements contained in Schedule 1 that apply in all cases, subject to paragraph (1C); and

- (b) any applicable requirement contained in Schedule 1, and described in the first column of that Schedule as an optional requirement, that applies in relation to the building work in question by virtue of paragraphs (1B), (1C) and (1D).

(1B) An optional requirement as described in paragraph (1A)(b) shall apply to building work in any case where the planning permission under which the building work is carried out—

- (a) specifies that optional requirement by reference to these Regulations; and
(b) makes it a condition that the requirement must be complied with.

(1C) An optional requirement shall apply in substitution for a requirement of Schedule 1 to the extent that the terms of the optional requirement in the second column of Schedule 1 so provide.

(1D) An optional requirement shall apply, and another optional requirement shall not apply, to the extent that the terms of the first-mentioned optional requirement in the second column of Schedule 1 so provide.]

(2) Where—

- (a) building work is of a kind described in regulation 3(1)(g), (h) or (i); and
(b) the carrying out of that work does not constitute a material alteration,

that work need only comply with the applicable requirements of Part L of Schedule 1 ^{F36}[^{F37}(in addition to the requirements of regulation 7)].

(3) Building work shall be carried out so that, after it has been completed—

- (a) any building which is extended or to which a material alteration is made; or
(b) any building in, or in connection with, which a controlled service or fitting is provided, extended or materially altered; or
(c) any controlled service or fitting,

complies with the applicable requirements of Schedule 1 or, where it did not comply with any such requirement, is no more unsatisfactory in relation to that requirement than before the work was carried out.

^{F38}[^{F39}(4) This paragraph applies in relation to a building where—

- (a) building work is undertaken in respect of that building (“relevant work”); and
(b) Part L of Schedule 1 imposes a requirement in respect of the relevant work.

(5) Notwithstanding paragraph (3), upon completion of the relevant work, any building to which paragraph (4) applies must—

- (a) comply with Part F of Schedule 1; or
(b) where the building did not comply with Part F of Schedule 1 before the relevant work was begun, be no more unsatisfactory in relation to it than before the work was begun.]

Meaning of material change of use

5. For ^{F40}the purposes of paragraph 8(1)(e) of Schedule 1 to the Act and for] the purposes of these Regulations, there is a material change of use where there is a change in the purposes for which or the circumstances in which a building is used, so that after that change—

- (a) the building is used as a dwelling, where previously it was not;
- (b) the building contains a flat, where previously it did not;
- (c) the building is used as an hotel or a boarding house, where previously it was not;
- (d) the building is used as an institution, where previously it was not;
- (e) the building is used as a public building, where previously it was not;
- (f) the building is not a building described in classes 1 to 6 in Schedule 2, where previously it was;
- (g) the building, which contains at least one dwelling, contains a greater or lesser number of dwellings than it did previously;
- (h) the building contains a room for residential purposes, where previously it did not;
- (i) the building, which contains at least one room for residential purposes, contains a greater or lesser number of such rooms than it did previously; ^{F41F42} ...

7.—^[F371](1) Building work shall be carried out—

- (a) with adequate and proper materials which—
- (i) are appropriate for the circumstances in which they are used,
 - (ii) are adequately mixed or prepared, and
 - (iii) are applied, used or fixed so as adequately to perform the functions for which they are designed; and
- (b) in a workmanlike manner.

^[F372](2) Subject to paragraph (3), building work must be carried out so that materials which become part of an external wall, or specified attachment, of a relevant building are of a minimum European Classification A2-s1, d0 or A1, classified in accordance with BS EN 13501-1:2018 entitled “Fire classification of construction products and building elements. Classification using test data from reaction to fire tests” (ISBN 978 0 580 95726 0) published by the British Standards Institution on 14th January 2019.

(3) Paragraph (2) does not apply to—

- (a) cavity trays when used between two leaves of masonry;
- (b) any part of a roof (other than any part of a roof which falls within paragraph (iv) of regulation 2(6)) if that part is connected to an external wall;
- (c) door frames and doors;
- (d) electrical installations;
- (e) insulation and water proofing materials used below ground level;

- (f) intumescent and fire stopping materials where the inclusion of the materials is necessary to meet the requirements of Part B of Schedule 1;
 - (g) membranes;
 - (h) seals, gaskets, fixings, sealants and backer rods;
 - (i) thermal break materials where the inclusion of the materials is necessary to meet the thermal bridging requirements of Part L of Schedule 1; or
 - (j) window frames and glass.
- (4) In this regulation—
- (a) a “relevant building” means a building with a storey (not including roof-top plant areas or any storey consisting exclusively of plant rooms) at least 18 metres above ground level and which—
 - (i) contains one or more dwellings;
 - (ii) contains an institution; or
 - (iii) contains a room for residential purposes (excluding any room in a hostel, hotel or boarding house);
 - (b) “above ground level” in relation to a storey means above ground level when measured from the lowest ground level adjoining the outside of a building to the top of the floor surface of the storey.]

Exempt buildings and work

9.—(1) Subject to paragraphs (2) ^{F67}[^{F68}, (3) and (4)] and regulation 21(1), these Regulations do not apply to—

- (a) the erection of any building or extension of a kind described in Schedule 2; or
- (b) the carrying out of any work to or in connection with such a building or extension, if after the carrying out of that work it is still a building or extension of a kind described in that Schedule.

(2) The requirements of paragraphs G1 and G3(2) and (3) of Schedule 1 apply—

- (a) to any greenhouse which receives a cold or hot water supply from a source shared with or located inside a dwelling; and
- (b) to—
 - (i) any small detached building falling within class 6 in Schedule 2; and
 - (ii) any extension of a building falling within class 7 in Schedule 2,

which in either case receives a cold or hot water supply from a source shared with or located inside any building other than a building or extension of a kind described in Schedule 2.

(3) The requirements of Part P of Schedule 1 apply to—

- (a) any greenhouse ^{F69}[^{F70}used for domestic purposes];
- (b) any small detached building falling within class 6 in Schedule 2; and
- (c) any extension of a building falling within class 7 in Schedule 2,

which in any case receives its electricity from a source shared with or located inside a dwelling.

CHAPTER 1

Client

Suitable arrangements to ensure compliance with requirements etc

11A.—(1) A client must make suitable arrangements for planning, managing and monitoring a project (including allocation of sufficient time and other resources) so as to ensure compliance with all relevant requirements.

(2) Arrangements under paragraph (1) are suitable if—

- (a) they ensure that the design work is carried out so that the building work to which the design relates, if built, would be in compliance with all relevant requirements;
- (b) they ensure the building work is carried out in accordance with all relevant requirements;
- (c) they enable the designers and contractors to cooperate with each other to ensure compliance with all relevant requirements; and
- (d) they provide for periodic review of the building work (and the design work) included or to be included in the project so as to identify whether it is higher-risk building work.

(3) A client must ensure that the arrangements under paragraph (1) are maintained and reviewed throughout the project.

(4) A client must provide building information as soon as is practicable to every designer and contractor on the project.

(5) A client must cooperate with any other person working on or in relation to a project to the extent necessary to enable any person with a duty or function under these Regulations to fulfil that duty or function.

Changes to legislation: *The Building Regulations 2010 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes*

- (6) Where there is more than one client in relation to a project—
- (a) the clients may agree in writing which of them is to be treated for the purposes of these Regulations as the client;
 - (b) except for the duties specified in sub-paragraph (c), only the person who agreed to be treated as the client under sub-paragraph (a) is subject to the duties owed by a client under these Regulations;
 - (c) the duties in the following provisions are owed by all clients—
 - (i) paragraph (4) to the extent that those duties relate to information in the possession of the client or which is reasonably obtainable by or on behalf of the client;
 - (ii) paragraph (5); and
 - (iii) regulation 11B (arrangements as to information: higher-risk building work).

Arrangements as to information: higher-risk building work

11B.—(1) A client must make suitable arrangements to ensure information is provided to the designers and contractors working on a project which includes any higher-risk building work to make them aware that the project includes higher-risk building work and the nature of the higher-risk building work.

(2) Paragraph (1) includes a duty to periodically review the building work (and the design work) included or to be included in the project so as to identify whether it is higher-risk building work and to ensure information is provided under paragraph (1) where the work becomes higher-risk building work.

Domestic clients

11C.—(1) Where the client is a domestic client the duties in regulations 11A(1) to (3) and 11E(2) to (5) must be carried out by—

- (a) where there is only one contractor for a project, the contractor;
- (b) where there is more than one contractor for a project—
 - (i) the principal contractor; or
 - (ii) the principal designer where the client and the principal designer agree in writing the principal designer is to fulfil those duties.

(2) If a domestic client fails to make the appointments required by regulation 11D (principal designer and principal contractor)—

- (a) the designer in control of the design phase of the project is the principal designer;
- (b) the contractor in control of the construction phase of the project is the principal contractor.

(3) Regulation 11D(5) does not apply to a domestic client.

CHAPTER 2

Appointment of principal designer and principal contractor etc

Principal designer and principal contractor

11D.—(1) Where there is more than one contractor, or it is reasonably foreseeable that more than one contractor will be working on a project, the client must appoint in writing—

- (a) a designer with control over the design work as the principal designer for the purposes of these Regulations, and

- (b) a contractor with control over the building work as the principal contractor for the purposes of these Regulations.
- (2) A client is treated as complying with the requirement in paragraph (1) if, instead of appointing a person for the purposes of these Regulations, they certify, in writing, that the person who is the CDM principal designer, or, as the case may be, the CDM principal contractor, is treated as appointed as the principal designer or, as the case may be, the principal contractor, for the purposes of these Regulations.
- (3) The appointments under this regulation must be made—
 - (a) in relation to a project which includes higher-risk building work for which an application for building control approval must be submitted to the regulator, before that application is submitted;
 - (b) in relation to any other project, before the construction phase begins.
- (4) Where the appointment of a principal designer or the principal contractor ends before the end of the project, as soon as reasonably practicable the client must appoint a new principal designer or new principal contractor, as the case may be, under this regulation.
- (5) Where the client fails to appoint a principal designer (or a replacement principal designer) or, as the case may be, a principal contractor (or a replacement principal contractor), the client must fulfil the duties of the principal designer or the principal contractor, as the case may be, under these Regulations until they appoint another person to that role.
- (6) Where there is only one contractor working on a project that contractor is to be treated as appointed as the principal contractor and must fulfil the duties of the principal contractor set out in these Regulations.
- (7) Where paragraph (6) applies and—
 - (a) there is only one designer, or it is reasonably foreseeable that there will be only one designer working on a project, that designer must fulfil the duties of the principal designer set out in these Regulations; or
 - (b) there is more than one designer or it is reasonably foreseeable that there will be more than one designer working on a project at any time—
 - (i) the designers must agree in writing which designer is to fulfil the duties of the principal designer set out in these Regulations (“the lead designer”);
 - (ii) the lead designer must give a copy of the agreement to the client.
- (8) In relation to higher-risk building work, on appointing a principal designer, for each appointment the client must keep a record, in writing, of the steps it took under paragraph (2) to (4) of regulation 11E (considerations before a person carries out work).
- (9) In relation to higher-risk building work, on appointing a principal contractor, for each appointment the client must keep a record, in writing, of the steps it took under paragraphs (2), (3) and (5) of regulation 11E (considerations before a person carries out work).
- (10) In relation to higher-risk building work, on appointing any other person, the person making the appointment must give to the client (and the client must keep) a record, in writing, of the steps the person making the appointment took under regulation 11E(2) (considerations before a person carries out work).

Considerations before a person carries out work

- 11E.—**(1) This regulation applies where a person (P) is proposing to use any person (A) to carry out any building work or design work.
- (2) Before permitting A to carry out any work—

- (a) P must take all reasonable steps to satisfy themselves that A—
 - (i) fulfils the requirements in regulation 11F(1) and (2) (competence: general requirement), or
 - (ii) is an individual who is in training to fulfil the requirements in regulation 11F(1) and (2) and arrangements have been put in place to supervise A, and
 - (b) where the work relates to a higher-risk building, P must—
 - (i) ask A whether a serious sanction has occurred, in relation to them, within the 5 years ending on the date of the appointment; and
 - (ii) consider any information available to P relating to any misconduct of A (including any serious sanction).
- (3) Before permitting A to undertake any work, P must additionally take all reasonable steps to satisfy themselves that A is able to fulfil the duties of regulation 11J (general duty to plan, manage and monitor).
- (4) Where A is to be appointed as the principal designer, the client must take all reasonable steps to satisfy themselves that A fulfils the requirements in regulations 11F(1) and (2) (competence: general requirement) and 11G(1) (competence: principal designer) in relation to the design work.
- (5) Where A is to be appointed as the principal contractor, the client must take all reasonable steps to satisfy themselves that A fulfils the requirements in regulations 11F(1) and (2) (competence: general requirement) and 11H(1) (competence: principal contractor) in relation to the building work.
- (6) Any request to undertake any building work or any design work must not be accepted by A if A does not satisfy the requirements in regulation 11F(1) and (2) (competence: general requirement) at the time of the appointment (except where those requirements do not apply to A by virtue of regulation 11F(3)).
- (7) A must not act—
- (a) as the principal designer in relation to any design work if A does not satisfy the requirements in regulations 11F(1) and (2) (competence: general requirement) and 11G(1) (competence: principal designer) at the time of the appointment as the principal designer;
 - (b) as the principal contractor in relation to any building work if A does not satisfy the requirements in regulations 11F(1) and (2) (competence: general requirement) and 11H(1) (competence: principal contractor) at the time of the appointment as the principal contractor.
- (8) In this regulation “serious sanction” means—
- (a) the issue to A of a compliance notice which referred to contravention or likely contravention of a requirement of Part A (structure) or Part B (fire safety) of Schedule 1;
 - (b) the issue to A of a stop notice;
 - (c) the conviction of A for any offence under—
 - (i) the Act;
 - (ii) the Health and Safety at Work etc. Act 1974;
 - (iii) the Building Safety Act 2022;
 - (iv) the Regulatory Reform (Fire Safety) Order 2005;
 - (d) a report published by an inquiry under the Inquiries Act 2005 finds that A’s action or inaction resulted in one or more deaths or was likely to have been a contravention of any requirement of—
 - (i) the Act;
 - (ii) Part A (structure) or Part B (fire safety) of Schedule 1;

- (iii) the Health and Safety at Work etc. Act 1974;
- (iv) the Building Safety Act 2022;
- (v) the Regulatory Reform (Fire Safety) Order 2005.

CHAPTER 3

Competence

Competence: general requirement

11F.—(1) Any person carrying out any building work or any design work must have—

- (a) where the person is an individual, the skills, knowledge, experience and behaviours necessary,
- (b) where the person is not an individual, the organisational capability,

to carry out—

- (i) the building work in accordance with all relevant requirements;
- (ii) the design work so that the building work to which the design relates, if built, would be in accordance with all relevant requirements.

(2) Any person carrying out any building work as a contractor or any design work as a designer must have—

- (a) where the person is an individual, the skills, knowledge, experience and behaviours necessary,
- (b) where the person is not an individual, the organisational capability,

to fulfil the duties of a contractor or designer, as the case may be, under these Regulations in relation to the work.

(3) The requirements in paragraphs (1) and (2) do not apply to an individual (T) who is in training to fulfil those requirements.

(4) The person who asked T to carry out any building work or, as the case may be, any design work must ensure T is adequately supervised when carrying out the work.

(5) A person who is in training to fulfil the requirements of a principal contractor or a principal designer may not be appointed as a principal contractor or a principal designer.

Competence: principal designer

11G.—(1) A principal designer must have—

- (a) where the person is an individual, the skills, knowledge, experience and behaviours necessary,
- (b) where the person is not an individual, the organisational capability,

to fulfil the duties of a principal designer under these Regulations in relation to the design work included in the project.

(2) Where the principal designer (D) is not an individual, D must designate an individual who has the task of managing its functions as the principal designer.

(3) Before making the designation under paragraph (2), D must take all reasonable steps to satisfy themselves that the individual to be designated has the skills, knowledge, experience and behaviours necessary to manage the function of principal designer on behalf of D in such a way as to ensure

D fulfils the duties of the principal designer under these Regulations in relation to the design work included in the project.

Competence: principal contractor

11H.—(1) A principal contractor must have—

- (a) where the person is an individual, the skills, knowledge, experience and behaviours necessary,
- (b) where the person is not an individual, the organisational capability,

to fulfil the duties of a principal contractor under these Regulations in relation to the building work included in the project.

(2) Where the principal contractor (C) is not an individual, C must designate an individual under C's control who has the task of managing its functions as the principal contractor.

(3) Before making the designation under paragraph (2), C must take all reasonable steps to satisfy himself that the individual to be designated has the skills, knowledge, experience and behaviours necessary to manage the function of principal contractor on behalf of C in such a way as to ensure C fulfils the duties of the principal contractor under these Regulations in relation to the building work included in the project.

Ceasing to be competent: notification

11I.—(1) Where at any time a person (A) ceases to satisfy the requirements in regulation 11F(1), 11F(2), 11G(1) or, as the case may be, 11H(1) in relation to any building work or any design work, A must—

- (a) in a case where A is the principal designer or the principal contractor, notify the client;
- (b) in a case where there is more than one contractor and A is a designer, notify the person who asked them to carry out the design work and the principal designer;
- (c) in a case where there is more than one contractor and A is a contractor, notify the person who asked them to carry out the building work and the principal contractor;
- (d) in any other case, notify the person who asked them to carry out the work.

(2) If at the time of the notification under paragraph (1)(b) there is no principal designer appointed, that paragraph has effect as if the reference to the principal designer were a reference to the client.

(3) If at the time of the notification under paragraph (1)(c) there is no principal contractor appointed, that paragraph has effect as if the reference to the principal contractor were a reference to the client.

CHAPTER 4

Duties of dutyholders

General duty

11J.—(1) Any person carrying out any building work must ensure the work carried out by them (and by any workers under their control) is planned, managed and monitored so as to be in compliance with all relevant requirements.

(2) Any person carrying out any design work must take all reasonable steps to ensure the design work carried out by them (and by any workers under their control) is planned, managed and monitored so that the design is such that if the building work to which the design relates were

built in accordance with that design the building work would be in compliance with all relevant requirements.

(3) Any person carrying out any building work must cooperate with the client, designers and contractors (including the principal designer and principal contractor, if any) to the extent necessary to ensure that the work is in compliance with all relevant requirements.

(4) Any person carrying out any design work must cooperate with the client, designers and contractors (including the principal designer and principal contractor, if any) to the extent necessary to ensure that the design is such that if the building work to which the design relates were built in accordance with that design the building work would be in compliance with all relevant requirements.

Additional duties of designers

11K.—(1) A designer must not start design work unless satisfied that the client is aware of the duties owed by the client for the building work to which the design relates under all relevant requirements.

(2) When carrying out design work the designer must take all reasonable steps to ensure that the design is such that if the building work to which the design relates were built in accordance with that design the building work would be in compliance with all relevant requirements.

(3) In providing a design, a designer must take all reasonable steps to provide sufficient information about the design, construction and maintenance of the building to assist the client, other designers and contractors to comply with all relevant requirements.

(4) Where a designer is carrying out only part of the design of the building work which comprises a project, the designer must consider other design work which directly relates to that building work and report any concerns as to compliance with all relevant requirements to the principal designer.

(5) If requested to do so, a designer must provide advice to the principal designer or the client on whether any work, to which a design they are preparing or modifying relates, is higher-risk building work.

Additional duties of contractors

11L.—(1) A contractor must not start any building work unless satisfied that the client is aware of the duties owed by the client under all relevant requirements.

(2) A contractor must—

- (a) ensure the building work they carry out is in compliance with all relevant requirements; and
- (b) provide each worker under their control with appropriate supervision, instructions and information so as to ensure that the building work is in compliance with all relevant requirements.

(3) In relation to building work, a contractor must take all reasonable steps to provide sufficient information about the work to assist the client, other contractors and designers to comply with all relevant requirements.

(4) Where a contractor is carrying out only part of the building work which comprises a project, the contractor must consider other work which directly relates to that building work and report any concerns as to compliance with all relevant requirements to the principal contractor.

(5) If requested to do so, a contractor must provide advice to the principal contractor or the client on whether any work is higher-risk building work.

Additional duties of a principal designer

- 11M.**—(1) The principal designer must—
- (a) plan, manage and monitor the design work during the design phase; and
 - (b) coordinate matters relating to the design work comprised in the project so that all reasonable steps are taken to ensure that the design is such that if the building work to which the design relates were built in accordance with that design the building work would be in compliance with all relevant requirements.
- (2) The principal designer must take all reasonable steps to ensure that—
- (a) designers, and any other person involved in relation to design work, cooperate with the client, the principal designer, the principal contractor and each other;
 - (b) the design work of all designers is coordinated so that the design is such that if the building work to which the design relates were built in accordance with that design the building work would be in compliance with all relevant requirements; and
 - (c) designers, and any other person involved in relation to design work, comply with the duties under these Regulations.
- (3) The principal designer must liaise with the principal contractor and share with the principal contractor any information relevant to—
- (a) the planning, management and monitoring of the building work, and
 - (b) the coordination of building work and design work for the purpose of ensuring compliance with all relevant requirements.
- (4) Where the principal contractor provides comments to the principal designer in relation to compliance with the relevant requirements, the principal designer must have regard to those comments.
- (5) The principal designer must—
- (a) if requested, assist the client in providing information to other designers and contractors;
 - (b) when the principal designer's appointment ends, no later than 28 days after the end of the appointment, give to the client a document explaining the arrangements it put in place to fulfil the duties under paragraphs (1) to (3).
- (6) Where a replacement principal designer is appointed, they must review the arrangements the previous principal designer put in place for fulfilling the duties under paragraphs (1) to (3) so that all reasonable steps are taken to ensure that the design is such that if the building work to which the design relates were built in accordance with that design the building work would be in compliance with all relevant requirements.

Additional duties of a principal contractor

- 11N.**—(1) The principal contractor must—
- (a) plan, manage and monitor the building work during the construction phase, and
 - (b) coordinate matters relating to the building work comprised in the project to ensure the building work is in compliance with all relevant requirements.
- (2) The principal contractor must take all reasonable steps to ensure—
- (a) contractors and any other person involved in relation to the building work cooperate with the client, the principal designer, the principal contractor and each other (including any successor in a role);
 - (b) the building work of all contractors is coordinated so that the work is in compliance with all relevant requirements; and

- (c) contractors and any other person involved in relation to building work comply with the duties under these Regulations.
- (3) The principal contractor must liaise with the principal designer and share with the principal designer any information relevant to—
 - (a) the planning, management and monitoring of the design work, and
 - (b) the coordination of building work and design work for the purpose of ensuring compliance with all relevant requirements.
- (4) Where the principal designer provides comments to the principal contractor in relation to compliance with the relevant requirements the principal contractor must have regard to those comments.
- (5) The principal contractor must—
 - (a) if requested, assist the client in providing information to other designers and contractors;
 - (b) when the principal contractor’s appointment ends, no later than 28 days after the end of the appointment, give to the client a document explaining the arrangements it put in place to fulfil the duties under paragraphs (1) to (3).
- (6) Where a replacement principal contractor is appointed it must review the arrangements the previous principal contractor put in place for fulfilling the duties under paragraphs (1) to (3) to ensure that the building work is in compliance with all relevant requirements.

Notification of change of dutyholder

110.—(1) This paragraph applies where, in relation to any building work, at any time after an application for building control approval is made or a building notice is given the client for a project changes.

(2) Where paragraph (1) applies the new client must give a notice to the relevant authority which includes—

- (a) the location of the building work;
- (b) the name, address, telephone number and (if available) email address of the new client and the date of they became the client;
- (c) the name, address, telephone number and (if available) email address of the previous client and the date they ceased to be the client;
- (d) where the notice is given by someone on behalf of the new client, a statement signed by the new client confirming they agree to the notice being made and that the information contained in the notice is correct.

(3) This paragraph applies where, in relation to any building work, at any time after an application for building control approval is made or a building notice is given the client appoints a principal contractor (or sole contractor) or a principal designer (or sole or lead designer).

(4) Subject to paragraph (5), where paragraph (3) applies the client must give a notice to the relevant authority which includes—

- (a) the location of the building work;
- (b) the name, address, telephone number and (if available) email address of the person appointed (PA) and the date of appointment;
- (c) except where PA is the first person appointed to the role, the name, address, telephone number and (if available) email address of the person who held the role before PA (“outgoing dutyholder”) and the date their appointment ended;

Changes to legislation: *The Building Regulations 2010 is up to date with all changes known to be in force on or before 01 July 2024. - (d) where the notice is given by someone on behalf of the client, a statement signed by the client confirming they agree to the notice being given and that the information contained in the notice is correct.
- (5) Where the client is a domestic client (DC), the following applies instead of paragraph (4)—
 - (a) an outgoing dutyholder must provide the information referred to in paragraph (4)(c) to the DC within 5 calendar days of the date their appointment ends;
 - (b) DC must provide the information referred to under paragraph (4)(c) to PA on the date of appointment of PA or as soon as practicable after that date;
 - (c) subject to paragraph (6), PA must give a notice to the relevant authority which includes—
 - (i) the location of the building work;
 - (ii) the name, address, telephone number and (if available) email address of PA and the date of appointment;
 - (iii) except where PA is the first person appointed to the role, the name, address, telephone number and (if available) email address of the outgoing dutyholder and the date their appointment ended;
 - (iv) a statement explaining the notice is given on behalf of a domestic client.
- (6) Where PA has not received the information required to be provided under paragraph (5)(b) by the time the notice under paragraph (5)(c) is to be given, the statement given by PA under paragraph (5)(c)(iv) must also include an explanation to that effect.
- (7) A notice required under paragraph (2), (4) or (5)(c) must be given to the relevant authority within the period of 14 calendar days beginning with the date of the appointment or, as the case may be, the date when the person became the client.
- (8) This regulation does not apply to higher-risk building work.

CHAPTER 5

General

Minor work

11P. A client is not required to comply with this Part where the building work or design work consists only of work described in Schedule 4.

Interpretation of this Part

11Q.—(1) In this Part—

“the CDM Regulations” means the Construction (Design and Management) Regulations 2015;
 “building information” means information in the client’s possession or which is reasonably obtainable by or on behalf of the client, which is relevant to the building work or the design work, including information about—

- (a) the work;
- (b) planning and management of the project;
- (c) issues relating to compliance with any relevant requirement and how they were addressed;

“CDM principal contractor” means a contractor appointed as principal contractor under the CDM Regulations;

“CDM principal designer” means a designer appointed as principal designer under the CDM Regulations;

“design” includes drawings, design details, specifications and bills of quantities (including specification of articles or substances) relating to a building, and calculations prepared for the purpose of a design;

“design phase” means any period during which design work is carried out for a project and may continue during the construction phase;

“relevant requirements” means, to the extent relevant to the building work or design work in question, the requirements of regulations 4, 6, 7, 8, 22, 23, 25B, 26, 26A, 28, 36, 41(2)(a), 42(2)(a), 43(2)(a), 44A, 44ZA, 44ZC and 44D to 44I and Schedule 1.

(2) References in this Part to an appointment under regulation 11D (principal designer and principal contractor) includes an appointment which is certified under regulation 11D(2).

(3) For the purposes of this Part, “organisational capability” means appropriate management policies, procedures, systems and resources to ensure—

(a) individuals under the control of the organisation who are carrying out any building work or any design work comply with—

(i) regulation 11F(1) and (2) (competence: general requirement),

(ii) in case of the principal designer, regulations 11F(1) and (2) and 11G(1);

(iii) in case of the principal contractor, regulations 11F(1) and (2) and 11H(1);

(b) individuals under the control of the organisation who are in training to develop the necessary skills, knowledge, experience and behaviours are appropriately supervised.

(4) For the purposes of this Part the necessary behaviours include—

(a) compliance with relevant requirements, including refusing to carry out—

(i) any building work which is not in compliance with any relevant requirement;

(ii) any design work if the building work to which the design relates cannot be carried out in compliance with all relevant requirements;

(b) cooperation with other persons in relation to the work;

(c) refusing to carry out work which is beyond their skills, knowledge or experience, and asking for the assistance of other persons where necessary.]

PART 3

Notices, Plans and Certificates

Giving of a building notice or [^{F87} an application for building control approval] **E**

12.—(1) This regulation applies to a person who intends to—

(a) carry out building work;

(b) replace or renovate a thermal element in a building to which the energy efficiency requirements apply;

(c) make a change to a building's energy status; or

(d) make a material change of use.

(2) Subject to the following provisions of this regulation, a person to whom this regulation applies shall—

(a) give to the [^{F88}relevant authority] a building notice in accordance with regulation 13; or

(b) [^{F89}give an application for building control approval with full plans to the relevant authority] in accordance with regulation 14.

(3) A person intending to carry out building work in relation to a building to which the Regulatory Reform (Fire Safety) Order 2005^{M8} applies, or will apply after the completion of the building work, shall [^{F90}give an application for building control approval with full plans].

(4) A person intending to carry out building work which includes the erection of a building fronting onto a private street shall [^{F91}give an application for building control approval with full plans].

(5) A person intending to carry out building work in relation to which paragraph H4 of Schedule 1 imposes a requirement shall [^{F92}give an application for building control approval with full plans].

(6) A person intending to carry out building work is not required to give a building notice or [^{F93}an application for building control approval with full plans] where the work consists only of work—

- (a) described in column 1 of the Table in Schedule 3 if the work is to be carried out by a person described in the corresponding entry in column 2 of that Table;
- (b) described in Schedule 4^{F94}[^{F95}; or
- (c) described in column 1 of the Table in Schedule 3A if the work is to be inspected by a person described in the corresponding entry in column 2 of that Table (a “third party certifier”) who has been appointed by the person intending to carry out the building work before the commencement of that work].

[^{F96}(6A) A person intending to carry out building work in relation to which Part P of Schedule 1 imposes a requirement is required to give a building notice or [^{F97}an application for building control approval with full plans] where the work consists of—

- (a) the installation of a new circuit;
- (b) the replacement of a consumer unit; or
- (c) any addition or alteration to existing circuits in a special location.]

(7) Where [^{F98}regulation 22 of the Building (Registered Building Control Approvers etc.) (England) Regulations 2024] (local authority powers in relation to partly completed work) applies, the owner shall comply with the requirements of that regulation instead of with this regulation.

(8) Where—

- (a) a person proposes to carry out building work which consists of emergency repairs;
- (b) it is not practicable to comply with paragraph (2) before commencing the work; and
- (c) paragraph (6) does not apply,

the person shall give a building notice to the [^{F99}relevant authority] as soon as reasonably practicable after commencement of the work.

(9) In this regulation—

“fronting” has the meaning given in section 203(3) of the Highways Act 1980^{M9}; ^{F100} ...

“private street” has the meaning given in section 203(2) of the Highways Act 1980^{M10}^{F101} ...
[^{F102}; and

“special location” means—

- (a) within a room containing a bath or shower, the space surrounding a bath tap or shower head, where the space extends—
 - (i) vertically from the finished floor level to—
 - (aa) a height of 2.25 metres; or

- (bb) the position of the shower head where it is attached to a wall or ceiling at a point higher than 2.25 metres from that level; and
 - (ii) horizontally—
 - (aa) where there is a bath tub or shower tray, from the edge of the bath tub or shower tray to a distance of 0.6 metres; or
 - (bb) where there is no bath tub or shower tray, from the centre point of the shower head where it is attached to the wall or ceiling to a distance of 1.2 metres; or
- (b) a room containing a swimming pool or sauna heater.]

Particulars and plans where a building notice is given

13.—(1) A building notice shall state the name and address of the person intending to carry out the work and shall be signed by that person or on that person's behalf, and shall contain or be accompanied by—

- (a) a statement that it is given for the purpose of regulation 12(2)(a);
- (b) a description of the proposed building work, renovation or replacement of a thermal element, change to the building's energy status or material change of use; ^{F103}[^{F104}and]
- (c) particulars of the location of the building to which the proposal relates and the use or intended use of that building ^{F105}[^{F106}; and
- (d) in the case of a new dwelling—
 - (i) a statement whether or not any optional requirement applies to the building work, and if so which, or
 - (ii) a statement that planning permission has not yet been granted for the work, and that the information required by subparagraph (i) will be supplied before the end of a period of twenty eight days beginning on the day after that permission is granted].

^{F107}[^{F108}(1A) In the case of a new dwelling, where a statement under paragraph (1)(d)(ii) has accompanied the building notice, a statement in the terms required by paragraph (1)(d)(i) must be provided to the [^{F109}local authority][^{F109}relevant authority] before the end of a period of twenty eight days beginning on the day after planning permission is granted for the building work, and the statement must state that it is supplementary to the information given in respect of the work pursuant to paragraph (1)(d).]

(2) In the case of the erection or extension of a building, a building notice shall be accompanied by—

- (a) a plan to a scale of not less than 1:1250 showing—
 - (i) the size and position of the building, or the building as extended, and its relationship to adjoining boundaries;
 - (ii) the boundaries of the curtilage of the building, or the building as extended, and the size, position and use of every other building or proposed building within that curtilage;
 - (iii) the width and position of any street on or within the boundaries of the curtilage of the building or the building as extended;
 - (b) a statement specifying the number of storeys (each basement level being counted as one storey), in the building to which the proposal relates; and
 - (c) particulars of—
 - (i) the provision to be made for the drainage of the building or extension; and
 - (ii) the steps to be taken to comply with any local enactment which applies.
- [^{F110}(2A) In the case of the erection of a dwelling, or a building that is to contain one or more dwellings, a building notice shall be accompanied by—
- (a) particulars of any public electronic communications network in relation to which a connection is to be provided,
 - (b) if an exemption in regulation 44ZB is proposed to be relied on, evidence in support of the exemption, and
 - (c) if regulation 44ZC is proposed to be relied on—
 - (i) evidence of the matters mentioned in regulation 44ZC(6)(a) and (b), and
 - (ii) if paragraph RA1(1)(c)(i) or (ii) of Schedule 1 is also proposed to be relied on, evidence of the steps taken to establish whether, and if so where, a distribution point for a gigabit-capable public electronic communications network (as defined by regulation 44C) is likely to be installed, in a location relevant for the purposes of paragraph RA(1)(c), within the period of 2 years beginning with the day on which the notice is given.]
- (3) Where a building notice has been given, a person carrying out building work, renovation or replacement of a thermal element, change to the building's energy status or making a material change of use shall give the [^{F111}local authority][^{F111}relevant authority], within such time as they specify, such plans as are, in the particular case, necessary for the discharge of their functions in relation to building regulations and are specified by them in writing.
- (4) Neither a building notice nor plans which accompany it or are given under paragraph (3) are to be treated [^{F112}for the purposes of section 16 of the Act as having been deposited][^{F112}as an application for building control approval with full plans] in accordance with building regulations.
- (5) A building notice shall cease to have effect on the expiry of three years from the date on which that notice was given to the [^{F113}local authority][^{F113}relevant authority], unless before the expiry of that period—
- (a) the building work to which the notice related was commenced; or
 - (b) the change to the building's energy status or the material change of use described in the notice was made.

and, in connection with that proposal, an application for building control approval with full plans is given to a relevant authority.

(2) Subject to paragraph (3), where this regulation applies the relevant authority must consult the enforcing authority before determining the application for building control approval with full plans given to the relevant authority.

(3) The duty to consult imposed by paragraph (2) does not apply where the relevant authority is the enforcing authority.

(4) In this regulation “enforcing authority” has the same meaning as in article 25 of the Regulatory Reform (Fire Safety) Order 2005.]

[^{F125}Notices in relation to building work] **E**

16.—(1) Subject to paragraphs (8) and (9), a person who proposes to carry out building work shall not [^{F126}start that work] unless—

- (a) that person has given the [^{F127}relevant authority] notice of intention to [^{F128}start work]; and
- (b) at least two days have elapsed since the end of the day on which the notice was given.

[^{F129}(2) Subject to paragraph (8), a person carrying out building work must notify the [^{F130}relevant authority] as required by the authority in accordance with paragraph (3).

(3) Subject to the conditions in paragraphs (3A) and (3B), where a [^{F131}relevant authority] receives notice of intention to [^{F132}start work] under paragraph (1) they may give the person carrying out the work a notice in writing which—

- (a) requires that person to notify the authority that a specified stage of the work (other than a stage specified in paragraphs (4) and (5)) has been reached; and
- (b) may specify one or more periods of time, applying to each such required notification, which may be either or both of the following—
 - (i) a period before or after the work has been carried out within which the notification must be made; and
 - (ii) a period during which the work concerned must not be covered up.

(3A) A [^{F133}relevant authority] may only specify a stage of the building work in accordance with paragraph (3)(a) if at the time they do so they intend to carry out an inspection of that stage.

(3B) For the purposes of paragraph (3A) the [^{F134}relevant authority]'s intention to carry out an inspection of a stage of building work must be based on their assessment of the risk of breach of these Regulations if they do not inspect the work.]

[^{F135}(3C) Not more than five days after the day on which work is to be regarded as commenced the person carrying out the work must give a notice to that effect to the relevant authority.

(3D) The relevant authority may take such steps, including—

- (a) requiring information;
- (b) laying open of work for inspection,

as the authority thinks appropriate to check whether the work is to be regarded as commenced.

(3E) If the relevant authority are not satisfied the work is to be regarded as commenced they must give the person carrying out the work a notice to that effect (“rejection notice”) within four weeks of the date the notice under paragraph (3C) is given, and the rejection notice must give the reasons for rejection.

(3F) Where a notice is given under paragraph (3C) and the period referred to in paragraph (3E) expires without a rejection notice being given, then the work is to be regarded as commenced.

(3G) If the person carrying out the work accepts the rejection notice they may not give a further notice under paragraph (3C) unless, having regard to the reasons given by the relevant authority, they are satisfied the work is to be regarded as commenced.

(3H) A person who gave the notice under paragraph (3C) may appeal to the First-tier Tribunal against the decision of the relevant authority to reject the notice provided the appeal is made within 21 relevant days beginning with the day after the day on which the relevant authority gives the rejection notice.

(3I) The First-tier Tribunal may allow an appeal under paragraph (3H) only if it is satisfied that the decision appealed against was wrong on one or more of the following grounds—

- (a) that the decision was based on an error of fact;
- (b) that the decision was wrong in law;
- (c) that the decision was unreasonable; or
- (d) that the decision was made without following the procedures set out in the Act or regulations made under that Act.

(3J) For the purposes of paragraphs (3C) to (3I) the provisions of regulation 46A (lapse of building control approval: commencement of work) apply to determine whether work is to be regarded as commenced.]

(4) Subject to paragraph (8), a person carrying out building work shall, not more than five days after that work has been completed, give the [F136relevant authority][F137] a notice which complies with paragraph (4A)].

[F138(4A) The notice under paragraph (4) must include—

- (a) the name, address, telephone number and (if available) email address of the client;
- (b) the name, address, telephone number and (if available) email address of the principal contractor (or sole contractor) and the principal designer (or sole or lead designer);
- (c) a statement that the building work is complete;
- (d) a statement, signed by the client, confirming that to the best of the client’s knowledge the work complies with all applicable requirements of the building regulations;
- (e) a statement given by each principal contractor (or sole contractor) for the work and each principal designer (or sole or lead designer) for the work, signed by the person to which the declaration relates, which includes—
 - (i) the name, address, telephone number and (if available) email address of that person;
 - (ii) the dates of their appointment, and
 - (iii) confirmation—
 - (aa) in the case of a principal contractor (or sole contractor), that they fulfilled their duties as a principal contractor under Part 2A (dutyholders and competence) of these Regulations;
 - (bb) in the case of a principal designer (or sole or lead designer), that they fulfilled their duties as a principal designer under Part 2A (dutyholders and competence) of these Regulations.]

(5) Where a building is being erected^{F139} [F140 to which the Regulatory Reform (Fire Safety) Order 2005^{M11} applies, or will apply after the completion of the work], and that building (or any part of it) is to be occupied before completion, the person carrying out that work shall give the [F141 relevant authority] [F142 a notice which complies with paragraph (5A) at least 5 days] before the building or any part of it is occupied.

[F143(5A) The notice under paragraph (5) must include—

- (a) the name, address, telephone number and (if available) email address of the client;
- (b) the name, address, telephone number and (if available) email address of the principal contractor (or sole contractor) and the principal designer (or sole or lead designer);
- (c) the date when the building or any part of it is to be occupied;
- (d) a statement, signed by the client, confirming that to the best of the client's knowledge, regardless of the completion of the current building work, regulation 38 and Part B of Schedule 1 are currently complied with in relation to those parts of the building which are to be occupied before completion of the work;
- (e) a statement given by each principal contractor (or sole contractor) for the work and each principal designer (or sole or lead designer) for the work, signed by the person to which the declaration relates, which includes—
 - (i) the name, address, telephone number and (if available) email address of that person;
 - (ii) the dates of their appointment, and
 - (iii) confirmation—
 - (aa) in the case of a principal contractor (or sole contractor), that they fulfilled their duties as a principal contractor under Part 2A (dutyholders and competence) of these Regulations;
 - (bb) in the case of a principal designer (or sole or lead designer), that they fulfilled their duties as a principal designer under Part 2A (dutyholders and competence) of these Regulations.]

(6) A person who fails to comply with paragraphs (1) [F144 or (2)] shall comply within a reasonable time with any notice given by the [F145 relevant authority] requiring that person to cut into, lay open or pull down so much of the work as prevents them from ascertaining whether these Regulations have been complied with.

(7) If the [F146 relevant authority] have given notice specifying the manner in which any work contravenes the requirements in these Regulations, a person who has carried out any further work to secure compliance with these Regulations shall within a reasonable time after the completion of such further work give notice to the [F146 relevant authority] of its completion.

(8) Paragraphs (1) to (4) apply only to a person who is required by regulation 12 to give a building notice or [F147 an application for building control approval with full plans].

(9) Paragraph (1) does not apply where regulation 12(8) applies.

Unauthorised building work **E**

18.—(1) This regulation applies where it appears to a [^{F167}relevant authority] that unauthorised building work has been carried out on or after 11th November 1985.

(2) Where this regulation applies, the owner (in this regulation referred to as “the applicant”) may apply in writing to the [^{F168}relevant authority] for a regularisation certificate in accordance with this regulation, and shall send with the application—

- (a) a statement that the application is made in accordance with this regulation,
- (b) a description of the unauthorised work,
- (c) so far as is reasonably practicable, a plan of the unauthorised work, and
- (d) so far as is reasonably practicable, a plan showing any additional work required to be carried out to secure that the unauthorised work complies with the requirements relating to building work in the building regulations which were applicable to that work when it was carried out (in this regulation referred to as “the relevant requirements”).

(3) Where a [^{F169}relevant authority] receive an application in accordance with this regulation, they may require the applicant to take such reasonable steps, including laying open the unauthorised work for inspection by the authority, making tests and taking samples, as the authority think appropriate to ascertain what work, if any, is required to secure that the relevant requirements are met.

(4) When the applicant has taken any such steps required by the [^{F170}relevant authority] as are described in paragraph (3), and having had regard to any direction given in accordance with sections 8 and 9 of, and Schedule 2 to, the Act dispensing with or relaxing a requirement in building regulations which applies to the unauthorised work, the [^{F170}relevant authority] shall notify the applicant—

- (a) of the work which in their opinion is required to comply with the relevant requirements or those requirements as dispensed with or relaxed, or
- (b) that they cannot determine what work is required to comply with the relevant requirements or those requirements as dispensed with or relaxed, or
- (c) that no work is required to secure compliance with the relevant requirements or those requirements as dispensed with or relaxed.

(5) Where the [^{F171}relevant authority] have been able to satisfy themselves, after taking all reasonable steps for that purpose that—

- (a) the relevant requirements have been satisfied (taking account of any work carried out and any dispensation or relaxation given in accordance with sections 8 and 9 of, and Schedule 2 to, the Act), or
- (b) no work is required to secure that the unauthorised work satisfies the relevant requirements (taking account of any such dispensation or relaxation),

they may give a certificate to that effect (in this regulation referred to as “a regularisation certificate”).

(6) A regularisation certificate shall be evidence (but not conclusive evidence) that the relevant requirements specified in the certificate have been complied with.

[^{F174}(8) In this regulation “unauthorised building work”—

- (a) where the relevant authority is the local authority, means building work, other than work in relation to which an initial notice, an amendment notice, a public body’s notice or a regulator’s notice has effect, which is done without—
 - (i) a building notice being given to the local authority;
 - (ii) an application for building control approval with full plans of the work being given to the local authority; or
 - (iii) a notice of intention to start work being given to the local authority, in accordance with regulation 16(1), where a building notice has been given or an application for building control approval with full plans of the work has been given;
- (b) where the relevant authority is the regulator, means building work which is work in relation to which a regulator’s notice has effect but which is done without—
 - (i) a building notice being given to the regulator;
 - (ii) an application for building control approval with full plans of the work being given to the regulator; or

[^{F175} Appeal against refusal to grant certain certificates

18A.—(1) A person (“the appellant”) who has—

- (a) notified a local authority under regulation 16(4) and the authority has refused to give a certificate under regulation 17 (completion certificates);
- (b) notified a local authority under regulation 16(5) and the authority has refused to give a certificate under regulation 17A (certificate for building occupied before work is completed); or
- (c) applied to a local authority under regulation 18(2) (unauthorised building work) for a certificate and the authority has refused to give the certificate,

may appeal to the regulator against the decision of the local authority to refuse to provide the certificate provided the appeal is made within 21 relevant days beginning with the day after the day on which the local authority notifies the appellant of the refusal.

(2) The regulator may allow an appeal under paragraph (1) only if it is satisfied that the decision appealed against was wrong on one or more of the following grounds—

- (a) that the decision was based on an error of fact;
- (b) that the decision was wrong in law;
- (c) that the decision was unreasonable; or
- (d) that the decision was made without following the procedures set out in the Act or regulations made under that Act.

(3) If the regulator allows an appeal it may quash or vary the decision.

(4) An appellant aggrieved with the decision of the regulator on an appeal under this regulation may appeal that decision to the First-tier Tribunal within 21 relevant days beginning with the day after the day on which the regulator notifies the appellant of its decision.

(5) The First-tier Tribunal may allow an appeal referred to in paragraph (4) only if it is satisfied that the decision appealed against was wrong on one or more of the following grounds—

- (a) that the decision was based on an error of fact;
- (b) that the decision was wrong in law;
- (c) that the decision was unreasonable; or

- (a) the name, address, telephone number and (if available) email address of the appellant;
- (b) a statement explaining why the appellant considers the work proposed in the original application or notice does not include higher-risk building work;
- (c) where the appellant is ^{F176}a registered building control approver], a statement confirming the client agrees to the appeal being made.

(3) In addition to the information provided for in paragraph (2) the appeal must be accompanied by—

- (a) a copy of the original application or notice given to the local authority (including all documentation that accompanied the application or notice);
 - (b) all the information provided to the local authority in relation to the application or notice;
 - (c) all the correspondence with the local authority in relation to that application or notice;
 - (d) a copy of the notice sent to the regulator under paragraph (4).
- (4) At least two working days before submitting an appeal under section 101A(2) of the Act the appellant must give notice to the regulator of their intention to do so.
- (5) Where the appellant submits an appeal under section 101A of the Act through electronic facilities provided by the Secretary of State for that purpose, they are taken to have consented to the use of electronic communications for all purposes relating to the appeal that are capable of being carried out electronically.
- (6) The deemed consent in paragraph (5) may be revoked by the appellant giving the Secretary of State two weeks' notice in writing specifying that the notice is given under this regulation.
- (7) An appeal under section 101A of the Act is to be determined by consideration of written representations.
- (8) The Secretary of State must give the local authority which refused to consider the original application or notice the opportunity to make written representations in relation to the appeal.
- (9) The Secretary of State may give any other person an opportunity to make written representations in relation to the appeal.
- (10) The Secretary of State may, by notice in writing, require the local authority in question to provide specified information, or provide copies of specified documents, by the date specified in the notice (that date must be no fewer than 7 days after the date the notice is given).
- (11) Before determining the appeal the Secretary of State may—
- (a) hold any meeting with the appellant, the local authority or any other person,
 - (b) undertake any site visit,
- as the Secretary of State considers appropriate.
- (12) The Secretary of State must determine the appeal within 8 weeks of the date on which the appeal is received and the decision in relation to the appeal must be given in writing to the appellant.
- (13) For the purposes of section 101A(6) of the Act, an appeal to the High Court under section 101A(6) of the Act may be made within 28 relevant days beginning with the day after the day on which the Secretary of State gives the decision to the appellant under paragraph (12).
- (14) The Secretary of State may appoint a person to determine the appeal instead of the Secretary of State.
- (15) At any time before a person appointed under this regulation has determined the appeal the Secretary of State may—
- (a) revoke that person's appointment;
 - (b) appoint another person to determine the appeal instead.
- (16) A person appointed under paragraph (14) has the same powers and duties in relation to determination of an appeal under section 101A of the Act as the Secretary of State and, in particular, where the appeal is determined by a person appointed under this regulation their decision is to be treated as the decision of the Secretary of State.]

Provisions applicable to self-certification schemes

20.—(1) This regulation applies to the extent that the building work consists only of work of a type described in column 1 of the Table in Schedule 3 and the work is carried out by a person who is described in the corresponding entry in column 2 of that Table in respect of that type of work.

[^{F187}(1A) Where this regulation applies and the building work in question relates to a higher-risk building, the client must make the person carrying out the work aware that the building is a higher-risk building.]

(2) Where this regulation applies, the [^{F188}local authority][^{F188}building control authority] are authorised to accept, as evidence that the requirements of regulations 4 and 7 have been satisfied, a certificate to that effect by the person carrying out the work.

(3) Where this regulation applies, the person carrying out the work shall, not more than 30 days after the completion of the work—

- (a) give to the occupier a copy of the certificate referred to in paragraph (2); and
- (b) give to the [^{F189}local authority][^{F189}building control authority]—
 - (i) notice to that effect, or
 - (ii) the certificate referred to in paragraph (2).

^{F190}[^{F191}(3A) A [^{F192}local authority][^{F192}building control authority] shall store in a retrievable form copies of the notices and certificates given to it in accordance with paragraph (3)(b).

(3B) If the whole or part of the work was paid for using a green deal plan, the person carrying out the work must include—

- (a) in the certificate referred to in paragraph (2); and
- (b) in the notice given to the [^{F193}local authority][^{F193}building control authority] referred to in paragraph (3)(b)(i),

a statement to that effect.

^{F194}[^{F195}(3C) Such a statement that relates to a part of the work must specify which part was paid for using the green deal plan.]

PART 6

Energy Efficiency Requirements

Application of energy efficiency requirements

- 21.**—(1) The energy efficiency requirements apply to—
- (a) the erection of any building of a kind falling within this paragraph;
 - (b) the extension of any such building, other than an extension to which paragraph (4) applies; and
 - (c) the carrying out of any work to or in connection with any such building or extension.
- (2) A building falls within paragraph (1) if it—
- (a) is a roofed construction having walls;
 - (b) uses energy to condition the indoor climate; and
 - (c) does not fall within one or more of the categories listed in paragraph (3).
- (3) The categories referred to in paragraph (2)(c) are—
- (a) buildings which are—
 - (i) listed in accordance with section 1 of the Planning (Listed Buildings and Conservation Areas) Act 1990 ^{M13};
 - (ii) in a conservation area designated in accordance with section 69 of that Act; or
 - (iii) included in the schedule of monuments maintained under section 1 of the Ancient Monuments and Archaeological Areas Act 1979 ^{M14},where compliance with the energy efficiency requirements would unacceptably alter their character or appearance;
 - (b) buildings which are used primarily or solely as places of worship;
 - (c) temporary buildings with a planned time of use of two years or less, industrial sites, workshops and non-residential agricultural buildings with low energy demand;
 - (d) stand-alone buildings other than dwellings with a total useful floor area of less than 50m².
- (4) This paragraph applies to any extension of a building falling within class 7 in Schedule 2 except a conservatory or porch—
- (a) where any wall, door or window separating the conservatory or porch from that building has been removed and not replaced with a wall, door or window; ^{F208F209} ...
 - (b) into which the building's heating system has been extended ^{F210} ^{F211} to heat the conservatory or porch; or

(c) in which a fixed heating appliance has been provided to heat the conservatory or porch.]

(5) In this regulation, the following terms have the same meaning as in ^{F212}[^{F213}European Parliament and Council Directive 2010/31/EU of 19 May 2010 on the energy performance of buildings (recast)] —

- (i) “industrial sites”;
- (ii) “low energy demand”;
- (iii) “non-residential agricultural buildings”;
- (iv) “places of worship”;
- (v) “stand-alone”;
- (vi) “total useful floor area”;
- (vii) “workshops”.

Requirements relating to a change to energy status

22. Where there is a change to a building's energy status, such work, if any, shall be carried out as is necessary to ensure that the building complies with the applicable requirements of Part L of Schedule 1.

^{F214}[^{F215}Requirements for the renovation or replacement of thermal elements

23.—(1) Where the renovation of an individual thermal element—

- (a) constitutes a major renovation; or
- (b) amounts to the renovation of more than 50% of the element's surface area;

the renovation must be carried out so as to ensure that the whole of the element complies with paragraph L1(a)(i) of Schedule 1, in so far as that is technically, functionally and economically feasible.

(2) Where the whole or any part of an individual thermal element is proposed to be replaced and the replacement—

- (a) constitutes a major renovation; or
- (b) (in the case of part replacement) amounts to the replacement of more than 50% of the thermal element's surface area;

the whole of the thermal element must be replaced so as to ensure that it complies with paragraph L1(a)(i) of Schedule 1, in so far as that is technically, functionally and economically feasible.]

Methodology of calculation and expression of energy performance

24.—(1) The Secretary of State shall approve—

- (a) a methodology of calculation of the energy performance of buildings, including methods for calculating asset ratings and operational ratings of buildings; and
- (b) ways in which the energy performance of buildings, as calculated in accordance with the methodology, shall be expressed.

(2) In this regulation—

“asset rating” means ^{F216}[^{F217}an energy performance indicator determined from] the amount of energy estimated to meet the different needs associated with a standardised use of the building; and

^{F218}[^{F219}“operational rating” means an energy performance indicator determined from the amount of energy consumed during the occupation of a building over a period of time and the energy demand associated with a typical use of the building over that period.]

25A.—(1) Before construction of a new building starts, the person who is to carry out the work must analyse and take into account the technical, environmental and economic feasibility of using high-efficiency alternative systems (such as the following systems) in the construction, if available—

- (a) decentralised energy supply systems based on energy from renewable sources;
- (b) cogeneration;
- (c) district or block heating or cooling, particularly where it is based entirely or partially on energy from renewable sources; and
- (d) heat pumps.

^{F226} (2) The person carrying out the work must—

- (a) where the new building is a higher-risk building, ensure the application for building control approval in relation to the work is accompanied by a notice which states that the analysis referred to in paragraph (1) has been undertaken, is documented, and the documentation is available to the regulator for verification purposes;
- (b) in any other case, not later than the beginning of the day before the day on which the work starts, give the building control authority a notice which states that the analysis referred to in paragraph (1) has been undertaken, is documented, and the documentation is available to the authority for verification purposes; and
- (c) ensure that a copy of the analysis is available for inspection at all reasonable times on request by an officer of the building control authority.]

(3) An authorised officer of the ^{F227}building control authority] may require production of the documentation in order to verify that this regulation has been complied with.

^{F228} (3A) Where the regulator is the building control authority by virtue of section 91ZB of the Act (the regulator: building control authority for other work), it must send a copy of each notice it receives under this regulation in relation to a building to the local authority for the area in which the building is situated.]

- (4) The analysis referred to in paragraph (1)—
 - (a) may be carried out for individual buildings or for groups of similar buildings or for common typologies of buildings in the same area; and
 - (b) in so far as it relates to collective heating and cooling systems, may be carried out for all buildings connected to the system in the same area.
- (5) In this regulation—
 - (a) “cogeneration” means simultaneous generation in one process of thermal energy and one or both of the following—
 - (i) electrical energy;
 - (ii) mechanical energy;
 - (b) “district or block heating or cooling” means the distribution of thermal energy in the form of steam, hot water or chilled liquids, from a central source of production through a network of multiple buildings or sites, for the use of space or process heating or cooling;

^{F265} Target primary energy rate calculations for new buildings **E**

27C.—(1) This regulation applies where a building is erected.

^{F266}(2) The person carrying out the work must—

- (a) where the new building is a higher-risk building, ensure the application for building control approval in relation to the work is accompanied by a notice which specifies—
- (i) the target primary energy rate for the building, calculated and expressed in accordance with the methodology approved pursuant to regulation 24,
 - (ii) the calculated target primary energy rate for the building as designed, calculated and expressed in accordance with the methodology approved pursuant to regulation 24, and
 - (iii) a list of specifications to which the building is to be constructed;

- (b) in any other case, not later than the day before the work starts, give the building control authority a notice which specifies the matters set out in paragraphs (i) to (iii) of sub-paragraph (a).
- (3) The person carrying out the work must—
- (a) where the new building is a higher-risk building, ensure the application for a completion certificate in relation to the work is accompanied by—
- (i) a notice which specifies—
- (aa) the target primary energy rate for the building, calculated and expressed in accordance with the methodology approved pursuant to regulation 24,
- (bb) the calculated target primary energy rate for the building as constructed, calculated and expressed in accordance with the methodology approved pursuant to regulation 24, and

PART 7

Water Efficiency

Water efficiency of new dwellings **E**

[^{F297}**36.**—(1) The potential consumption of wholesome water by persons occupying a new dwelling must not exceed the requirement in paragraph (2).

(2) The requirement referred to in paragraph (1) is either—

- (a) 125 litres per person per day; or
- (b) in a case to which paragraph (3) applies, the optional requirement of 110 litres per person per day,

as measured in either case in accordance with a methodology approved by the Secretary of State.

(3) This paragraph applies where the planning permission under which the building work is carried out—

- (a) specifies the optional requirement in paragraph (2)(b); and
- (b) makes it a condition that that requirement must be complied with.

(4) In this Part, “new dwelling” does not include a dwelling that is formed by a material change of use of a building within the meaning of regulation 5(g).]

PART 8

Information to be Provided by the Person Carrying Out Work

Fire safety information **E**

38.—(1) This regulation applies where building work—

- (a) consists of or includes the erection or extension of a relevant building; or
- (b) is carried out in connection with a relevant change of use of a building,

and Part B of Schedule 1 imposes a requirement in relation to the work.

[^{F307}(2) The person carrying out the work must give fire safety information to the responsible person no later than—

- (a) where the building, proposed building or extension to which the building work relates is not occupied during the building work, the date of completion of the work or the date of occupation of the building or the extension, whichever is the earlier;
- (b) in any other case, the date of completion of the work.

(2A) The responsible person must give the person carrying out the work a notice acknowledging receipt of the fire safety information and confirming the information provided is sufficient to enable them to understand, operate and maintain the building (and the fire safety systems in it) after the building work in question.

(2B) Subject to paragraph (2D), the person carrying out the work must give a notice to the relevant authority—

- (a) confirming that they have given the fire safety information to the responsible person pursuant to paragraph (2), and
- (b) stating that they have received the notice from the responsible person pursuant to paragraph (2A) or where they have not received the notice, stating the steps taken to obtain the notice from the responsible person and the dates they were taken.

(2C) The notification under paragraph (2B) must be given no later than—

- (a) where regulation 20 (provisions applicable to self-certification schemes) applies to the work, 30 days after the date referred to in paragraph (2),
- (b) in any other case, five days after the date referred to in paragraph (2).

(2D) Paragraphs (2B) and (2C) do not apply where regulation 20A (provisions applicable to third party certification schemes) applies to the work and instead paragraphs (2E) to (2G) apply.

(2E) Where this paragraph applies, the person carrying out the work must notify the third party certifier appointed under regulation 12(6)(c)—

- (a) confirming that they have given the fire safety information to the responsible person pursuant to paragraph (2), and

44.—(1) This regulation applies to building work in relation to which paragraph F1(2) of Schedule 1 imposes a requirement, but does not apply to the provision or extension of any fixed

system for mechanical ventilation or any associated controls where testing and adjustment is not possible.

(2) This regulation also applies to building work in relation to which paragraph L1(b) of Schedule 1 imposes a requirement, but does not apply to the provision or extension of any fixed building service where testing and adjustment is not possible or would not affect the energy efficiency of that fixed building service.

(3) Where this regulation applies the person carrying out the work shall, for the purpose of ensuring compliance with paragraph F1(2) or L1(b) of Schedule 1, give to the [^{F329}building control authority] a notice confirming that the fixed building services have been commissioned in accordance with a procedure approved by the Secretary of State.

[^{F330}(4) The notice must be given—

- (a) in the case where the building work is higher-risk building work for which an application for a completion certificate is required, to the regulator with the application;
- (b) in any other case, to the building control authority—
 - (i) not later than the date on which the notice required by regulation 16(4) is required to be given; or
 - (ii) where that regulation does not apply, not more than 30 days after completion of the work.

(5) Where the regulator is the building control authority by virtue of section 91ZB of the Act (the regulator: building control authority for other work), it must send a copy of each notice it receives under this regulation in relation to a building to the local authority for the area in which the building is situated.]

[F337] Exemptions from paragraphs RA1 and RA2 of Schedule 1

44ZB.—(1) The requirements of paragraphs RA1 and RA2 of Schedule 1 (gigabit-ready physical infrastructure and connection to gigabit-capable network) do not apply to buildings—

- (a) to be occupied by the Ministry of Defence or the armed forces of the Crown, or
- (b) to be otherwise occupied for purposes connected to national security.

(2) The requirements of paragraph RA1 of Schedule 1 do not apply in relation to a building if all the following conditions are met—

- (a) the building is situated in an area that is isolated from public electronic communications networks of any of the kinds mentioned in regulation 44ZC(2) or (3),
- (b) paragraph RA2 of that Schedule does not apply because the case falls within regulation 44ZC(4), and
- (c) the prospect of a connection with a network of any of the kinds mentioned in regulation 44ZC(2) or (3) is considered too remote to justify equipping the building with gigabit-ready physical infrastructure or an access point.

Textual Amendments

- F337** Regs. 44ZB, 44ZC inserted (E.) (26.12.2022) by [The Building etc. \(Amendment\) \(England\) \(No. 2\) Regulations 2022 \(S.I. 2022/984\)](#), reg. 1(4), [Sch. para. 5](#) (with reg. 3)

Cases in which paragraph RA2 of Schedule 1 modified or excluded

44ZC.—(1) The requirement in paragraph RA2 of Schedule 1 has effect subject to paragraphs (2) to (4).

(2) Where a person carrying out building work of the kind described in the second column of paragraph RA1 of Schedule 1 (“the developer”)—

- (a) is unable to secure the provision of a connection with a gigabit-capable public electronic communications network for a cost not exceeding the cost cap, but
- (b) is able to secure the provision of a connection with a high-speed public electronic communications network for such a cost,

paragraph RA2 of Schedule 1 is to be read as requiring the provision of a connection with a high-speed public electronic communications network.

- (3) Where the developer—
- (a) is unable to secure the provision of a connection with a high-speed public electronic communications network for a cost not exceeding the cost cap, but
 - (b) is able to secure the provision of a connection with a USO-standard public electronic communications network for such a cost,

paragraph RA2 of Schedule 1 is to be read as requiring the provision of a connection with a USO-standard public electronic communications network.

(4) Where the developer is unable to secure the provision of a connection with a USO-standard public electronic communications network for a cost not exceeding the cost cap, paragraph RA2 of Schedule 1 does not apply.

- (5) In paragraphs (2) to (4)—
- “high-speed public electronic communications network” means a public electronic communications network that is a high-speed electronic communications network;
- “USO-standard public electronic communications network” means a public electronic communications network that provides at least the minimum download speed for the time being specified by virtue of section 65(2B)(a) of the Communications Act 2003 in the universal service order (as defined by section 151(1) of that Act).

(6) The developer is to be treated as being able to secure the provision of a connection mentioned in any of paragraphs (2) to (4) for a cost not exceeding the cost cap unless—

- (a) the developer has invited at least two suitable providers to make, before the end of the 30th day after the date of the invitation, an offer to provide a connection of the kind mentioned in the paragraph in question, and
- (b) none of those providers has before that time offered to provide that connection free of charge or at a cost not exceeding the cost cap.

(7) The cost cap is £2,000 in respect of each dwelling.

(8) In calculating the cost to the developer of securing the provision of a connection—

- (a) there is to be included value added tax;
- (b) there is to be excluded—
 - (i) the cost to the developer of installing gigabit-ready physical infrastructure in accordance with paragraph RA1 of Schedule 1,
 - (ii) administrative costs of the developer, and
 - (iii) the cost to an end-user (as defined by section 151(1) of the Communications Act 2003) of the provision of a public electronic communications service.

(9) In paragraph (6)(a) “suitable provider” means the provider of a public electronic communications network whom the developer reasonably considers to be likely to be able to provide the connection referred to.]

Infrastructure for the charging of electric vehicles

Textual Amendments

- F345** Pt. 9B inserted (E.) (15.6.2022) by [The Building Regulations etc. \(Amendment\) \(England\) \(No. 2\) Regulations 2021 \(S.I. 2021/1392\)](#), regs. 1(2), **2(3)** (with regs. 1(4), 4)

Application of paragraph S1 of Schedule 1 (the erection of new residential buildings)

44D.—(1) The requirements of paragraph S1 of Schedule 1 apply in relation to the erection of a new residential building with associated parking as follows.

(2) The number of electric vehicle charge points that must be installed is the maximum number of electric vehicle charge points that it is possible to install at an average sum of £3600 or less for the connection cost of each electric vehicle charge point connection (“the £3600 cap”).

(3) If it is not possible to completely fulfil the requirements of paragraph S1(2) of Schedule 1 as a result of the operation of the £3600 cap, cable routes for electric vehicle charge points must be installed in the associated parking spaces that would otherwise be required to have electric vehicle charge points, but for the operation of the £3600 cap.

(4) Where the new residential building has, or will have, associated parking that is situated within a covered car park—

- (a) if there are or will be any associated parking spaces situated in a position other than in a covered car park—
 - (i) the requirements of paragraph S1 of Schedule 1 must first be applied in relation to those parking spaces; then
 - (ii) if the number of associated parking spaces, which are situated in a position other than in a covered car park, is insufficient to completely fulfil the requirements of paragraph S1(2) of Schedule 1, cable routes for electric vehicle charge points must be installed in—
 - (aa) the number of parking spaces in the covered car park which, when added to the number of associated parking spaces which are situated in a position other than in the covered car park, corresponds to the total number of dwellings with associated parking, where the total number of associated parking spaces is 10 or less;
 - (bb) all the associated parking spaces in the covered car park, where the total number of associated parking spaces is both less than the number of dwellings with associated parking and 10 or less; and
 - (cc) all the associated parking spaces in the covered car park, where the total number of associated parking spaces is more than 10;
- (b) if all the associated parking spaces are situated in a covered car park, cable routes for electric vehicle charge points must be installed—
 - (i) where there are 10 or fewer parking spaces—
 - (aa) in the number of associated parking spaces in the covered car park which corresponds to the total number of dwellings with associated parking;
 - (bb) in all the parking spaces where there are fewer parking spaces than there are dwellings;
 - (ii) in all the parking spaces in the covered car park, where there are more than 10 parking spaces.

Application of paragraph S2 of Schedule 1 (dwellings resulting from a material change of use)

44E.—(1) The requirements of paragraph S2 of Schedule 1 apply to a building, or a part of a building, undergoing a material change of use to result in one or more dwellings as follows.

- (2) The requirements of paragraph S2 of Schedule 1 apply—
 - (a) if—
 - (i) the circumstances specified in regulation 5(a), (b) or (g) apply; and
 - (ii) the material change of use involves building work being done which includes work being done to any of the following—
 - (aa) to a car park that is located within the site boundary of the building, where the nature of the work is such that it would be reasonable to expect that work to include enabling the requirements of paragraph S2 of Schedule 1 to be fulfilled;
 - (bb) the electrical infrastructure of a car park, where that car park is located within the site boundary of the building;
 - (cc) the electrical infrastructure of the building, where a car park is located inside the building;

- (b) subject to paragraph (3), if an electric vehicle charge point for each dwelling resulting from a building, or a part of a building, undergoing a material change of use can be accommodated within the incoming electrical supply to the building without having to upgrade the capacity of the incoming electrical supply to the building; and
 - (c) if the building is not one in relation to which paragraph (4) applies.
- (3) If paragraph (2)(a) and (c) applies, but electric vehicle charge points for some but not all of the dwellings resulting from a building, or a part of a building, undergoing a material change of use can be accommodated within the incoming electrical supply to that building—
- (a) the requirements of paragraph S2 of Schedule 1 apply in respect of the maximum number of electric vehicle charge points that can be accommodated within the incoming electrical supply; and
 - (b) cable routes for electric vehicle charge points must be installed in the associated parking spaces that would otherwise have been required under paragraph S2 of Schedule 1 to have had electric vehicle charge points installed.
- (4) The requirements of paragraph S2 of Schedule 1 do not apply if a building, or a part of a building, is—
- (a) listed in accordance with section 1 of the Planning (Listed Buildings and Conservation Areas) Act 1990;
 - (b) in a conservation area designated in accordance with section 69 of that Act; or
 - (c) included in the schedule of monuments maintained under section 1 of the Ancient Monuments and Archaeological Areas Act 1979,
- where compliance with the requirements of paragraph S2 of Schedule 1 would unacceptably alter the building's character or appearance.
- (5) If the building, or a part of a building, undergoing a material change of use to result in one or more dwellings has, or will have, associated parking that is situated within a covered car park—
- (a) if there are or will be any associated parking spaces situated in a position other than in a covered car park—
 - (i) the requirements of paragraph S2 of Schedule 1 must first be applied in relation to those associated parking spaces; then
 - (ii) if the number of associated parking spaces, which are situated in a position other than in a covered car park, is insufficient to completely fulfil the requirements of paragraph S2 of Schedule 1, cable routes for electric vehicle charge points must be installed in—
 - (aa) all the associated parking spaces in the covered car park, where the total number of parking spaces is less than the number of such dwellings with associated parking; or
 - (bb) the number of associated parking spaces in the covered car park which, when added to the number of associated parking spaces which are situated in a position other than in a covered car park, corresponds to the total number of such dwellings with associated parking;
 - (b) if all the associated parking spaces are situated in a covered car park, cable routes for electric vehicle charge points must be installed in—
 - (i) all those associated parking spaces, where there are fewer parking spaces than there are such dwellings with associated parking; or
 - (ii) the number of those associated parking spaces that corresponds to the total number of such dwellings with associated parking.

Application of paragraph S3 of Schedule 1 (residential buildings undergoing major renovation)

44F.—(1) The requirements of paragraph S3 of Schedule 1 apply to a residential building undergoing major renovation as follows.

- (2) The requirements of paragraph S3 of Schedule 1 apply if—
 - (a) the major renovation involves building work being done which includes work being done to any of the following—
 - (i) a car park that is located within the site boundary of the building, where the nature of the work is such that it would be reasonable to expect that work to include enabling the requirements of paragraph S3 of Schedule 1 to be fulfilled;
 - (ii) the electrical infrastructure of a car park, where the car park is located within the site boundary of the building;
 - (iii) the electrical infrastructure of the building, where a car park is located inside the building;
 - (b) the residential building will have more than 10 associated parking spaces upon completion of that work;
 - (c) subject to paragraph (3), all the required electric vehicle charge points can be accommodated within the incoming electrical supply to the building;
 - (d) the cost of installing all the required electric vehicle charge points and cable routes for electric vehicle charge points does not exceed 7% of the total cost of the major renovation; and
 - (e) the residential building is not one in relation to which paragraph (5) applies.
- (3) If paragraph (2)(a), (b) and (e) applies, but all the required electric vehicle charge points cannot be accommodated within the incoming electrical supply to the building—
 - (a) the requirements of paragraph S3 of Schedule 1 apply in respect of the maximum number of electric vehicle charge points that can be accommodated within the incoming electrical supply to the building; and
 - (b) cable routes for electric vehicle charge points must be installed in all remaining associated parking spaces.
- (4) If the cost of installing the required electric vehicle charge points and cable routes for electric vehicle charge points exceeds 7% of the total cost of the major renovation—
 - (a) the residential building is exempt from the requirement to install any electric vehicle charge point; and
 - (b) cable routes for electric vehicle charge points must be installed in all associated parking spaces, except where the cost of that installation exceeds 7% of the total cost of the major renovation.
- (5) The requirements of paragraph S3 of Schedule 1 do not apply to a residential building which is undergoing major renovation for the principal purpose of improving the fire safety of the external walls or roof of the building.
- (6) If a residential building undergoing major renovation has, or will have more than 10 associated parking spaces—
 - (a) if there are or will be any associated parking spaces situated in a position other than in a covered car park—
 - (i) the requirements of paragraph S3 of Schedule 1 must first be applied in relation to those associated parking spaces; then

Application of paragraph S4 of Schedule 1 (erection of new buildings which are not residential buildings or mixed-use buildings)

44G.—(1) The requirements of paragraph S4 of Schedule 1 apply to the erection of a new building which is not a residential building or a mixed-use building (“new building”) as follows.

(2) If such a new building has, or will have, within its site boundary, more than 10 parking spaces—

- (a) if there are or will be any parking spaces situated in a position other than in a covered car park—
 - (i) the requirements of paragraph S4 of Schedule 1 must first be applied in relation to those parking spaces; then
 - (ii) if the number of parking spaces which are situated in a position other than in a covered car park is insufficient to completely fulfil the requirements of paragraph S4 of Schedule 1, cable routes for electric vehicle charge points must be installed in a sufficient number of parking spaces in the covered car park in order to ensure compliance with the requirements of paragraph S4(b) of Schedule 1;
- (b) if all the parking spaces are situated in a covered car park, cable routes for electric vehicle charge points must be installed in a minimum of one fifth of the total number of those parking spaces.

Application of paragraph S5 of Schedule 1 (buildings undergoing major renovation which are not residential buildings or mixed-use buildings)

44H.—(1) The requirements of paragraph S5 of Schedule 1 apply to a building undergoing major renovation, which is not a residential building or a mixed-use building, as follows.

(2) The requirements of paragraph S5 of Schedule 1 apply to such a building if—

- (a) the major renovation involves building work being done which includes work being done to any of the following—
 - (i) a car park that is located within the site boundary of the building, where the nature of the work is such that it would be reasonable to expect the requirements of paragraph S5 of Schedule 1 to be fulfilled;
 - (ii) the electrical infrastructure of a car park, where the car park is located within the site boundary of the building;
 - (iii) the electrical infrastructure of the building, where a car park is located inside the building;
 - (b) upon completion of that major renovation, the building will have more than 10 parking spaces situated within the site boundary of the building;
 - (c) the cost of installing the required electric vehicle charge point and cable routes for electric vehicle charge points does not exceed 7% of the total cost of the major renovation.
- (3) If the cost of installing the required electric vehicle charge point and cable routes for electric vehicle charge points exceeds 7% of the total cost of the major renovation—

- (a) such a building is exempt from the requirement to install the electric vehicle charge point; and
 - (b) cable routes for electric vehicle charge points must be installed in a minimum of one fifth of the total number of parking spaces, except where the cost of that installation exceeds 7% of the total cost of the major renovation.
- (4) If such a building has, or will have, within its site boundary, more than 10 parking spaces—
- (a) if there are or will be any parking spaces situated in a position other than in a covered car park—
 - (i) the requirements of paragraph S5 of Schedule 1 must first be applied in relation to those parking spaces; then
 - (ii) if the number of parking spaces which are situated in a position other than in a covered car park is insufficient to completely fulfil the requirements of paragraph S5 of Schedule 1, cable routes for electric vehicle charge points must be installed in the number of parking spaces in the covered car park in order to ensure compliance with the requirements of paragraph S5(b) of Schedule 1;
 - (b) if all the parking spaces are situated in a covered car park, cable routes for electric vehicle charge points must be installed in a minimum of one fifth of the total number of those parking spaces.

Application of paragraph S6 of Schedule 1 (the erection of new mixed-use buildings and mixed-use buildings undergoing major renovation)

44I.—(1) The requirements of paragraph S6 of Schedule 1 apply to the erection of a new mixed-use building and a mixed-use building undergoing major renovation as follows.

(2) The requirements of paragraph S6 of Schedule 1 apply if, upon completion, such a mixed-use building will have at least one parking space situated within the site boundary of the building.

(3) If such a mixed-use building has, or will have, within its site boundary, a covered car park—

- (a) if there are or will be any parking spaces situated in a position other than in a covered car park—
 - (i) the requirements of paragraph S6 of Schedule 1 must first be applied in relation to those parking spaces; then
 - (ii) if the number of parking spaces, which are situated in a position other than in a covered car park, is insufficient to completely fulfil the requirements of paragraph S6 of Schedule 1, cable routes for electric vehicle charge points must be installed in accordance with—
 - (aa) regulation 44D(4)(a), in relation to the associated parking spaces for one or more dwellings in a new mixed-use building;
 - (bb) regulation 44F(6)(a), in relation to the associated parking spaces for one or more dwellings in a mixed-use building undergoing major renovation;
 - (cc) regulation 44G(2)(a), in relation to the parking spaces for one or more premises that are not dwellings in a new mixed-use building;
 - (dd) regulation 44H(4)(a), in relation to the parking spaces for one or more premises that are not dwellings in a mixed-use building undergoing major renovation;
- (b) if all the parking spaces are situated in a covered car park, cable routes for electric vehicle charge points must be installed in accordance with—

Minimum standards of an electric vehicle charge point

44J.—(1) For the purposes of this Part and Part S of Schedule 1, an electric vehicle charge point must meet the following minimum standards.

(2) It must be capable of providing a reasonable power output for each parking space for which it is intended to be used.

(3) It must be run on a dedicated circuit.

(4) It must be compatible with all vehicles which may require access to it.

Interpretation of this Part and Part S of Schedule 1

44K. In this Part and Part S of Schedule 1—

“associated parking”, or “associated parking space”, in relation to a building, means any parking space that is available within the site boundary of the building, for the use by the occupant of, or a visitor to, a dwelling in the building, including any parking space which is for the use of any occupant of, or any visitor to, any dwelling in a building containing more than one dwelling;

“building envelope” in relation to a building means the walls, floor, roof, windows, doors, roof windows and roof-lights;

“cable route” means a safe, unobstructed route from the power supply to the envisaged electric vehicle charge point location, for electrical cabling to be installed in the future;

“carport” means a shelter for one or more vehicles that—

- (a) has a roof;
- (b) has one or more open sides; and
- (c) is not situated underneath or inside a building;

“connection cost” means the cost of upgrades needed to the electricity system in order to accommodate an electric vehicle charge point, excluding the cost of any building work or the cost of the electric vehicle charge point itself;

“covered car park” means one or more parking spaces which are situated beneath a roof, but it does not include a carport or a residential garage;

“electric vehicle” means a vehicle that is capable of being propelled by electrical power derived from a storage battery;

“electric vehicle charge point” means a device intended for charging a vehicle that is capable of being propelled by electrical power derived from a storage battery (or for discharging electricity stored in such a vehicle);

“major renovation” means the renovation of a building where more than 25% of the surface area of the building envelope undergoes renovation;

“mixed-use building” means a building which contains—

- (a) one or more dwellings; and
- (b) one or more premises that are not dwellings;

“residential building”—

- (a) means a building which contains one or more dwellings; and
- (b) does not include a mixed-use building;

“residential garage” means a structure with at least three enclosed sides and a roof for housing one or more vehicles, for the sole use of the occupant of, or a visitor to, a single dwelling;

“site boundary”, in relation to a building in respect of which building work is being carried out, means the boundary of the land, upon which that building is situated, that is controlled or owned by the same person who owns—

- (a) that building; or
- (b) in the case of the erection of a new building, the land upon which building work is being carried out;

“vehicle” means a vehicle that is intended or adapted for use on roads.]

PART 10

Miscellaneous

Testing of building work

[^{F346}45. The local authority may make such tests of any building work as may be necessary to establish whether it complies with regulation 7 or any of the applicable requirements contained in Schedule 1.]

Textual Amendments

(2) Where the work consists of the construction of a complex building, work is to be regarded as commenced in relation to that building or the first stage of building work for that building when the foundations supporting the building and the structure of the lowest floor level of that building (but not the other buildings or structures to be supported by those foundations) are completed.

(3) Where the work consists of—

- (a) the construction of a building and paragraph (2) does not apply; or
- (b) horizontal extension of a building,

work is to be regarded as commenced when the sub-surface structure of the building or the extension including all foundations, any basement level (if any) and the structure of ground floor level is completed.

(4) Where the work consists of any other building work then work is to be regarded as commenced, where a statement under—

- (a) regulation 14(1)(f)(vii), or
- (b) regulation 12(1)(e)(viii) of the Building (Higher-Risk Buildings Procedures) (England) Regulations 2023,

sets out details of the work which the client considers amounts to 15% of the proposed work, when the work detailed in the statement is completed.

(5) In this regulation—

“approved plans” means plans which were part of or accompanied the application for building control approval with full plans of the building work and which was granted building control approval, or plans approved under a requirement imposed on such an approval;

“complex building” means—

- (a) a building which is to be constructed on the same foundation plinth or podium as any other building or structure;
- (b) a building which has more than one storey below ground level;
- (c) a building where it is proposed use is primarily as a public building where the public or a section of the public has access to the building (whether or not on payment) provided that the building has a capacity for 100 or more visitors;

“public building” means—

- (a) a shop or shopping centre,
- (b) premises where food or drink are sold for consumption on the premises, including a nightclub, social club or dance hall;
- (c) a stadium, theatre, cinema, concert hall;
- (d) a sports ground;

Compliance notices and stop notices: giving of notices and notification of others

47D.—(1) Paragraph (2) applies where a compliance notice under section 35B of the Act or a stop notice under section 35C(1) of the Act is to be given in relation to work on a site or premises and another form of service under section 94(1) of the Act is not appropriate.

(2) Where, after reasonable inquiries, the building control authority is satisfied that there is no one to whom a compliance notice or stop notice can be delivered, the notice, or a copy of it, may be affixed to a conspicuous part of the site or premises where the work to which the notice relates is carried out.

(3) Where a building control authority gives a compliance notice or stop notice, the authority must take reasonable steps to notify the following persons as to the giving of the notice—

- (a) the client, the principal contractor (or sole contractor) and the principal designer (or sole or lead designer) for the work to which the notice relates;
- (b) where the regulator is the building control authority, the local authority for the area in which the building is situated or the proposed building is to be situated;
- (c) where the notice relates to a contravention of Part B of Schedule 1 in relation to a building to which the Regulatory Reform (Fire Safety) Order 2005 applies or will apply after completion of the work, the enforcing authority (within the meaning of article 25 of that Order) for the building or the proposed building;
- (d) where the client is—
 - (i) in relation to any work, a private registered provider of social housing,
 - (ii) in relation to work other than the erection of a new building, any other registered provider of social housing,the Regulator of Social Housing;
- (e) where the client is a landlord in relation to any dwelling contained in the building, the local housing authority for the area in which the building is located; and
- (f) where the notice relates to work to an existing higher-risk building, the accountable person who is responsible for the part of the building where the work is carried out.

(4) In this regulation—

“accountable person” has the meaning in given in section 72 of the Building Safety Act 2022;
“the Regulator of Social Housing” is the body established under section 80A of the Housing and Regeneration Act 2008.

Appeal to the First-tier Tribunal in relation to a compliance notice or stop notice

47F.—(1) An appeal to the First-tier Tribunal under section 39A(1) or (5) of the Act must be made by the relevant date.

(2) The First-tier Tribunal may allow an appeal referred to in paragraph (1) only if it is satisfied that the giving of the compliance notice or stop notice in question was wrong on one or more of the following grounds—

- (a) that the notice was given based on an error of fact;
- (b) that the giving of the notice was wrong in law;
- (c) that the giving of the notice was unreasonable;
- (d) that the notice was given without following the procedures set out in the Act or regulations made under that Act (except regulation 47D(3)).

(3) If the First-tier Tribunal allows an appeal referred to in paragraph (1) it may quash or vary the compliance notice or stop notice.

(4) In this regulation the “relevant date” is—

- (a) in the case of an appeal under section 39A(1), within 21 relevant days beginning with the date the compliance notice is given; and
- (b) in the case of an appeal under section 39A(5), within 21 relevant days beginning with the date the stop notice is given.
