# 2010 No. 2214

## The Building Regulations 2010

### PART 6

#### Energy Efficiency Requirements

##### **Methodology of calculation and expression of energy performance**

**24.**—(1) The Secretary of State shall approve—

- (a) a methodology of calculation of the energy performance of buildings, including methods for calculating asset ratings and operational ratings of buildings; and
- (b) ways in which the energy performance of buildings, as calculated in accordance with the methodology, shall be expressed.

(2) In this regulation—

“asset rating” means a numerical indicator of the amount of energy estimated to meet the different needs associated with a standardised use of the building; and

“operational rating” means a numerical indicator of the amount of energy consumed during the occupation of a building over a period of time.

**Status:**

Point in time view as at 09/07/2013. This version of this provision has been superseded.

**Changes to legislation:**

The Building Regulations 2010, Section 24 is up to date with all changes known to be in force on or before 28 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations.
