# 2010 No. 2214

## The Building Regulations 2010

### PART 6

#### Energy Efficiency Requirements

##### Interpretation of Part 6

**35.—(1)** In this Part—

“building” means the building as a whole or parts of it that have been designed or altered to be used separately;

<sup>F1</sup>[<sup>F2</sup>“building envelope” in relation to a building means the walls, floor, roof, windows, doors, roof windows and roof-lights;

“Crown authority” means the Crown Estate Commissioners, a Minister of the Crown, a government department, any other person or body whose functions are performed on behalf of the Crown (not being a person whose functions are performed on behalf of Her Majesty in her private capacity), or a person acting in right of the Duchy of Lancaster or the Duchy of Cornwall;

“Crown interest” means an interest belonging to Her Majesty in right of the Crown, or belonging to a Government Department, or held in trust for Her Majesty for the purposes of a government department;

“Crown building” means a building in which there is a Crown interest or a Duchy interest;

“Duchy interest” means an interest belonging to her Majesty in right of the Duchy of Lancaster, or belonging to the Duchy of Cornwall;]

“energy assessor” means an individual who is a member of an accreditation scheme approved by the Secretary of State in accordance with <sup>F3</sup>[<sup>F4</sup>regulation 22 (accreditation schemes) of the Energy Performance of Buildings (England and Wales) Regulations 2012]; <sup>F5</sup><sup>F6</sup> ...

<sup>F7</sup>[<sup>F8</sup>“energy performance certificate” means a certificate which complies with the requirements of regulation 9 (energy performance certificates) or 9A (energy performance certificates in respect of excluded buildings) of the Energy Performance of Buildings (England and Wales) Regulations 2012;”;

“energy performance of a building” means the calculated or measured amount of energy needed to meet the energy demand associated with a typical use of the building, which includes, inter alia, energy used for heating, cooling, ventilation, hot water and lighting;]

<sup>F9</sup>[<sup>F10</sup>“fabric energy efficiency” means the space heating and cooling requirements per square metre of floor area of a new dwelling;]

<sup>F11</sup>[<sup>F12</sup>“major renovation” means the renovation of a building where more than 25% of the surface area of the building envelope undergoes renovation; <sup>F13</sup> ...

“nearly zero-energy building” means a building that has a very high energy performance, as determined in accordance with a methodology approved under regulation 24, where the nearly

Status: Point in time view as at 08/06/2018.

Changes to legislation: The Building Regulations 2010, Section 35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

zero or very low amount of energy required should be covered to a very significant extent by energy from renewable sources, including energy from renewable sources produced on-site or nearby];

F9[F14“new dwelling” does not include a dwelling that is formed by a material change of use of a building].
