**2010 No. 2605**

**The Seed Marketing Regulations 2010**

**PART 3**

**Marketing seed**

**Crop inspections**

**12.** A crop inspection for certification must be carried out by a licensed crop inspector; except for the inspection of—

- (a) a crop intended for the production of pre-basic or basic seed, or
- (b) a crop producing seed when the entry of the seed under regulation 11 was too late to allow the Secretary of State to grow a control plot,

when the inspection must be carried out by an official crop inspector appointed by the Secretary of State for the purposes of such inspection.
