FORMULA FOR CALCULATING THE APPROPRIATE SUM FOR THE POINT TO POINT FIXED LINKS LICENCE

PART 1

FORMULA

1. In this Schedule—
 - (a) “the appropriate sum” means the amount in pounds sterling, which is payable for a Point to Point Fixed Links licence, calculated in accordance with the formula set out in paragraph 2; and
 - (b) “Availability” means the minimum percentage of time that the fixed link is capable of functioning as set out in the licensee’s licence.
2. The formula is $AS = Sp \times Bwf \times Bf \times Plf \times Avf$ where—

“AS” means the appropriate sum;

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

“*Avf*” means the Availability Factor, being the number in Column 2 of the table set out in Part 5 as determined by the Availability (in per cent) as set out in Column 1 of that table;

“*Bf*” means the Band Factor, being the number in Column 2 of the table set out in Part 2 as determined by the range of frequency band (in GHz), if any, of a fixed link set out in Column 1 of that table in which the licensee’s band falls as declared by the licensee on application for a licence;

“*Bwf*” means the Bandwidth Factor, subject to paragraph 3, being the number corresponding to the bandwidth (in MHz) of a co-ordinated two-way fixed link (or a part thereof) as declared by the licensee on application for a licence;

“*MPL*” means the Minimum Path Length, being the number corresponding to the applicable (depending on the amount of data that can be transmitted over the bandwidth (“the data rate”) or over the channel width for analogue systems) length of the path (in kilometres) specified in Columns 2 and 3 of tables 1 or 2 set out in Part 4 as determined by the range of frequency band (in GHz), if any, of a fixed link set out in Column 1 of those respective tables in which the licensee’s band falls as declared by the licensee on application for a licence;

“*PL*” means the Path Length, being the number corresponding to the distance (in kilometres) between two fixed points of the link as declared by the licensee on application for a licence;

“*Plf*” means the Path Length Factor, being the number in Column 2 of the table set out in Part 3 as determined by the relationship between the *PL* and the *MPL* as set out in Column 1 of that table except for the Channel Islands and the Isle of Man, where *Plf* is 1; and

“*Sp*” means the Spectrum Price, being a fixed sum of £88 per 2 x 1 MHz bandwidth for each co-ordinated two-way fixed link.

3. Where the number of the bandwidth (in MHz) of a co-ordinated two-way fixed link (or a part thereof) as set out in the licensee’s licence is less than 1.0, the number of the Bandwidth Factor shall be 1.0.
