- (b) where the market surveillance authority is of the opinion that a person is likely to make available on the market a product which does not comply with an EU measure, a requirement to take such steps as the market surveillance authority may specify within

such period as it may specify, to secure that its being made available on the market is prohibited or restricted.

- (2) A stop notice may only be served where the person is—

 - (i) the activity as carried on by that person involves or is likely to involve the commission of an offence under regulation 11(1); or
 - (ii) that person is likely to make available on the market a product which does not comply with an EU measure.

 - (g) that the person would not, by reason of any defence, have been liable to be convicted of the offence had the stop notice not been served;
 - (h) that the decision was wrong for any other reason.

- (2) A stop notice ceases to have effect on the issue of a completion certificate.
- (3) A person on whom a stop notice is served may at any time apply for a completion certificate.

PART 3

Enforcement undertakings

Enforcement undertakings

19. The market surveillance authority may accept a written undertaking (an “enforcement undertaking”) given by a person to the market surveillance authority to take such action as may be specified in the undertaking within such period as may be specified where the market surveillance authority has reasonable grounds to suspect that the person has committed an offence under regulation 11(1).

20.—(1) An enforcement undertaking must specify—

- (a) action to be taken by the person to secure that the offence does not continue or recur;

- (a) that person may not at any time be convicted of the offence in respect of the act or omission to which the undertaking relates; and
- (b) the market surveillance authority may not impose on that person a compliance notice, stop notice or variable monetary penalty in respect of that act or omission.

Discharge of an enforcement undertaking

22.—(1) If the market surveillance authority is satisfied that an enforcement undertaking has been complied with it must issue a certificate to that effect.

(2) The market surveillance authority may require the person who has given the undertaking to provide sufficient information to determine that the undertaking has been complied with.

PART 4

Non-compliance penalties

Non-compliance penalties

25.—(1) If a person fails to comply with a compliance notice, stop notice, third party undertaking or enforcement undertaking, irrespective of whether a variable monetary penalty was also imposed, the market surveillance authority may serve a notice on that person imposing a monetary penalty (“a non-compliance penalty”).

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations implement the requirements of Directive 2010/30/EU of the European Parliament and of the Council on the indication by labelling and standard product information of the consumption of energy and other resources by energy-related products (OJ L 153, 18.6.2010, p1). They also implement elements of the market surveillance Regulation (EC) No 765/2008 of the European Parliament and of the Council setting out the requirements for accreditation and market surveillance relating to the marketing of products and repealing Regulation (EEC) No 339/93 (“RAMS”) (OJ L 128 13.8.2008, p 30). They give effect to any EU measures which are made pursuant to the Directive.

Regulation 3 provides that the Regulations apply to energy-related products which have a significant direct or indirect impact on the consumption of energy and other resources. Regulation 4 provides for enforcement. Regulation 5 provides that the market surveillance authority may authorise any suitable person to act for it.

Regulation 7 sets out the requirements which must be met by a supplier when supplying a product. Regulation 8 sets out the responsibilities of dealers when selling a product.

Status: Point in time view as at 01/12/2011.

Changes to legislation: There are currently no known outstanding effects for the
The Energy Information Regulations 2011. (See end of Document for details)

Regulation 9 provides that when products are offered for sale or hire directly or indirectly information about the energy consumption of a product must be brought to the attention of the end-user and made available as required by the EU measure set out in Schedule 1.

Regulation 10 prohibits the display of labels, marks, symbols or inscriptions which do not comply with these Regulations which would mislead or confuse end-users about the consumption of energy or other resources during use. Regulations 11 to 15 set out offences, penalties and related matters.

Regulation 17 requires the Secretary of State to review the operation and effect of these Regulations and publish a report within 5 years after they come into force and within every 5 years after that. Following a review it will fall to the Secretary of State to consider whether the Regulations should remain as they are, or be revoked or be amended. A further instrument would be needed to revoke the Regulations or to amend them.

Schedule 2 provides for powers of entry, search and seizure and the procedure for obtaining a warrant. Schedule 3 provides that the market surveillance authority may buy and test products to ensure compliance and recover the costs of testing non-compliant products from suppliers. Schedule 4 provides for civil sanctions which the market surveillance authority may impose in relation to an offence committed under regulation 11.

A full impact assessment of the effect that this instrument will have on the costs of business, the voluntary sector and the public sector is available at the Department for Business Innovation & Skills, 1 Victoria Street, London, SW1H 0ET and is published with the Explanatory Memorandum alongside the instrument on www.legislation.gov.uk
