EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend various statutory instruments relating to public procurement, namely the Public Contracts Regulations 2006 (“the PCR”), the Utilities Contracts Regulations 2006 (“the UCR”), the Defence and Security Public Contracts Regulations 2011 (“the DSPCR”), the Public Contracts (Scotland) Regulations 2006 (“the Scottish PCR”) and the Utilities Contracts (Scotland) Regulations 2006 (“the Scottish UCR”).

^{M13}The PCR (as previously amended) implemented, for England, Wales and Northern Ireland, and the Scottish PCR (as previously amended) implemented for Scotland, Directive [2004/18/EC](#) of the European Parliament and Council on the co-ordination of procedures for the award of public works contracts, public supply contracts and public services contracts (OJ L 134, 30.4.2004, p114) and Council Directive [89/665/EEC](#) on the coordination of the laws, regulations and administrative provisions relating to the application of review procedures to the award of public supply and public works contracts (OJ No L 395, 30.12.1989, p33) as amended .

^{M14}The UCR (as previously amended) implemented, for England, Wales and Northern Ireland, and the Scottish UCR implemented for Scotland, Directive [2004/17/EC](#) of the European Parliament and Council coordinating the procurement procedures of entities operating in the water, energy, transport and postal services sectors (OJ L 134, 30.4.2004, p1) and Council Directive [92/13/EEC](#) coordinating the laws, regulations and administrative provisions relating to the application of Community rules on the procurement procedures of entities operating in the water, energy, transport and telecommunications sectors (OJ No L 76, 23.3.1992, p14) as amended .

The DSPCR implemented Directive [2009/81/EC](#) of the European Parliament and Council of 13 July 2009 on the coordination of procedures for the award of certain works contracts, supply contracts and service contracts in the field of defence and security (OJ No L 216, 20.8.2009, p.76). Regulations 12, 19 and 26 change the general time limit within which economic operators must start any Court proceedings which they wish to take under the PCR, UCR or DSPCR respectively. The new limit is 30 days beginning with the date when the economic operator first knew or ought to have known that grounds for starting the proceedings had arisen, but the Court may extend this to up to 3 months where it considers that there is a good reason for doing so. For these purposes (and also for the purposes of the special time limits applicable to proceedings for a declaration of ineffectiveness), proceedings are to be regarded as started when they are issued, and the economic operator must serve the claim form within 7 days after the date of issue. These changes result from the judgment of the Court of Justice of the European Union in Case C-406/08 (Uniplex) which held certain features of the limits formerly applicable under the PCR and UCR to be incompatible with EU Law.

Transitionally (by virtue of regulations 3 to 8), former time limits will continue to apply (subject to modification) where, before the commencement of these amendments, the economic operator already knew, or ought to have known, of the grounds for starting proceedings.

Regulations 13, 20 and 27 modify the requirement in the PCR, UCR and DSPCR respectively to send a standstill notice to tenderers, by excepting tenderers who have been excluded from the procurement process where the exclusion has been held to be lawful in proceedings under the Regulations or where the time limit for starting such proceedings has expired. Regulation 9 makes a transitional modification.

Regulations 14, 21 and 28 modify the requirement (imposed by the PCR, UCR and DSPCR respectively) on contracting authorities and utilities to refrain from entering into a contract the award of which is challenged by proceedings under the Regulations. The requirement will now arise when the authority or utility has become aware that a claim form has been issued.

Status: Point in time view as at 18/04/2016.

Changes to legislation: There are currently no known outstanding effects for the The Public Procurement (Miscellaneous Amendments) Regulations 2011. (See end of Document for details)

Regulations 15 and 22 amend the list of criminal offences relevant to the rejection of economic operators under regulation 23(1) of the PCR or regulation 26(1) of the UCR respectively. These amendments include updating the list to include relevant offences created or consolidated since those Regulations were made, and inserting references to offences relevant to Northern Ireland. Also, regulation 23(4) of the PCR and regulation 26(5) of the UCR are amended to take account of debt relief orders and debt relief restriction orders, and to bring the provisions relating to misrepresentation closer into line with the wording of the applicable Directive.

Regulations 16, 23, 29 and 30 amend the PCR, UCR, Scottish PCR and Scottish UCR respectively, primarily to reflect machinery of Government changes. These amendments include replacing references to the Office of Government Commerce with references to the Cabinet Office, and references to the Treasury with references to the Minister for the Cabinet Office. Regulations 17 and 24 update certain treaty references to reflect changes made by the Treaty of Lisbon, subject to the saving made by regulation 11.

Regulations 18 and 25 make miscellaneous minor amendments to the PCR and UCR respectively. An impact assessment has not been produced for this instrument as no significant impact on the private or voluntary sectors is foreseen.
