

THE SCHEDULE

AMENDMENTS TO PART 1 OF SCHEDULE 2 TO THE SUPPLY OF MACHINERY (SAFETY) REGULATIONS 2008

1. For point 4 of the General Principles at the start of Annex I (Essential health and safety requirements relating to the design and construction of machinery) substitute—

“4. This Annex is organised in several parts. The first one is of general scope and applicable to all kinds of machinery. The other parts refer to certain kinds of more specific hazards. Nevertheless, it is essential to examine the whole of this Annex in order to be sure of meeting all the relevant essential requirements. When machinery is being designed, the requirements of the general part and the requirements of one or more of the other parts shall be taken into account, depending on the results of the risk assessment carried out in accordance with point 1 of these General Principles. Essential health and safety requirements for the protection of the environment are applicable only to the machinery referred to in section 2.4.”
