Variation conditions

Variation conditions

7.—(1) Subject to paragraph (5), this regulation applies where an application for a consent in respect of relevant infrastructure is considered by the authority.

(2) Subject to paragraph (4), where the authority grants the consent, it may grant it subject to a condition (a “variation condition”) in accordance with paragraph (3) if the authority is satisfied that—

- (a) there is evidence of demand existing or likely to arise for the grant of such consents for the construction of further relevant infrastructure to be designed for the conveyance or storage of carbon dioxide;
- (b) where the further relevant infrastructure is a pipeline, the whole or any part of the route to be taken by a further pipeline would be substantially the same as the route or any part of the route to be taken by the pipeline to which the application relates;
- (c) compliance with the variation condition will not prejudice the safety or environmental integrity of the relevant infrastructure; and
- (d) compliance with the variation condition will not prejudice the efficient operation of the relevant infrastructure concerned.

(3) A variation condition under paragraph (2) may require—

- (a) the capacity of the relevant infrastructure to which it relates or of any part of that relevant infrastructure to be greater than that proposed in the application for the consent;
- (b) the design of the relevant infrastructure to which it relates to be modified, including by the addition of a junction through which another pipeline may be connected to the relevant pipeline or to the relevant storage site; or
- (c) in relation only to a controlled carbon dioxide pipeline, any of the route of the pipeline to be different from that so proposed.

(4) Before exercising the powers conferred by paragraph (2) and regulation 9(1), the authority must give an opportunity to be heard to—

- (a) the applicant for the consent;
- (b) any other person who made representations to the authority as to the matters set out in paragraphs (2) or (3);

8.—(1) This regulation applies where an application is made for the grant of planning permission for the construction of a relevant pipeline.

(2) Subject to paragraph (4) the authority may, at any time before planning permission for the construction of the pipeline is granted, serve a notice (a “pipeline variation notice”) on the person who made the application for planning permission if the authority is satisfied that—

- (a) there is evidence of demand existing or likely to arise for the grant of planning permission or a consent for the construction of further pipelines to be designed for the conveyance of carbon dioxide;
- (b) the whole or any part of the route to be taken by a further pipeline will be substantially the same as the route or any part of the route to be taken by the pipeline to which the application relates;
- (c) compliance with the pipeline variation notice will not prejudice the safety or environmental integrity of the relevant pipeline; and
- (d) compliance with the pipeline variation notice will not prejudice the efficient operation of the pipeline concerned.

(3) A pipeline variation notice under paragraph (2) may direct that—

- (a) the capacity of the relevant pipeline to which it relates or of any part of that relevant pipeline must be greater than that proposed in the application for the grant of planning permission; or
- (b) the design of the relevant pipeline to which it relates should be modified, including by the addition of a junction through which another pipeline may be connected to the pipeline.

- (a) specify the sums or the method of determining the sums which the authority considers should be paid to the holder by the third party for the purpose of defraying so much of the costs of constructing the relevant infrastructure as is attributable to the variation condition or pipeline variation notice;
 - (b) require the third party to make, within the period specified for the purpose in the notice, arrangements which the authority considers are appropriate to secure that those sums will be paid to the holder if the holder constructs the relevant infrastructure or a relevant part of it, or satisfies the authority that the holder will construct it, in accordance with the variation condition or pipeline variation notice;
 - (c) provide that the holder may, if those arrangements are not made by the third party within the period specified in the notice, elect (in the manner specified in the notice) that the variation condition or pipeline variation notice is, as specified in the notice, to be withdrawn or to have effect with such modifications as are so specified with a view to eliminating the consequences of the representations of the third party; and
 - (d) authorise the holder, if the authority is satisfied that the relevant infrastructure or a relevant part of it has been or will be constructed in accordance with the variation condition or pipeline variation notice, to recover those sums from the third party.

- 13.**—(1) This regulation applies where—
- (a) a person has made an access application in respect of a relevant pipeline or relevant storage site; and
 - (b) the authority is considering whether to serve a notice under regulation 12(8) which would secure to the applicant the right sought in the application.
- (2) If it appears to the authority—
- (a) that relevant infrastructure that is the subject of the access application can and should be modified so as to increase its capacity, or
 - (b) that the relevant infrastructure that is the subject of the access application can and should be modified by installing in it a junction or other apparatus through which another pipeline may be connected to the relevant pipeline or to the relevant storage site,
- then (subject to paragraph (3)) the authority may serve on the owner of the relevant infrastructure and the applicant a notice in accordance with paragraphs (4) and (5) (a “modification notice”).
- (3) The authority may not serve a modification notice that requires the authorised capacity of a relevant storage site to be increased.
- (4) A modification notice must—
- (a) specify the modifications which the authority considers should be made to the relevant infrastructure;

- (b) specify the sums or the method of determining the sums which the authority considers should be paid to one or more of the owners by the applicant for the purpose of defraying the cost of the modifications;
 - (c) require the applicant to make, within the period specified for the purpose in the notice, arrangements which the authority considers appropriate to secure that those sums will be paid to one or more of the owners if the owner carries out the modifications or satisfies the authority that they will be carried out;
 - (d) require the owner, if the applicant makes those arrangements within that period, to carry out the modifications within a period specified for the purpose in the notice; and
 - (e) authorise one or more of the owners, if the authority is satisfied that the owner has carried out or will carry out the modifications, to recover those sums from the applicant.
- (5) A modification notice may also contain provision for the purpose of ensuring that if the carrying out of the modifications prejudices any of the matters referred to in regulation 12(7)(a) or (b), any person who suffers loss as a result may recover from the applicant payments by way of compensation, of such amounts as are determined in accordance with the notice.
- (6) If a modification notice contains provision by virtue of paragraph (5) the authority must give a copy of the notice to every person who has a right to have anything conveyed by the pipeline or stored in the storage site.
- (7) Before giving a copy of a modification notice under paragraph (6), the authority must—
- (a) remove from the copy any provision included in the notice by virtue of paragraph (4)(b); and
 - (b) after giving the owner and the applicant an opportunity to be heard, remove from the copy any other provision included in the notice which the authority considers may prejudice the commercial interests of the owner or the applicant if not removed.
- (8) In considering whether to serve a modification notice, the authority must—
- (a) take into account (so far as relevant) the matters referred to in regulation 12(5)(a) to (i); and
