
STATUTORY INSTRUMENTS

2011 No. 2860

ENERGY

The Renewable Heat Incentive
Scheme Regulations 2011 (revoked)^{F1}

Made - - - - 27th November 2011

Coming into force in accordance with regulation 1

THE RENEWABLE HEAT INCENTIVE
SCHEME REGULATIONS 2011 (REVOKED)

PART 1

Introductory provisions

1. Citation and commencement
2. Interpretation
3. Renewable heat incentive scheme

PART 2

Eligibility and matters relating to eligibility

CHAPTER 1

Eligible installations

4. Eligible installations

CHAPTER 2

Eligibility criteria for technologies

5. Eligible installations generating heat from solid biomass
- 5A RHI emission certificates
6. Eligible installations generating heat from solid biomass contained in municipal waste
7. Eligible installations generating heat using solar collectors
8. Eligible installations generating heat using ground source heat pumps
- 8A Eligible installations generating heat using air source heat pumps

Changes to legislation: There are currently no known outstanding effects for the The Renewable Heat Incentive Scheme Regulations 2011 (revoked). (See end of Document for details)

9. Eligible installations which are CHP systems
- 9A Eligible installations which are new solid biomass CHP systems
10. Eligible installations generating heat using geothermal sources
11. Eligible installations generating heat using biogas
12. Other eligibility requirements for technologies
13. Certification for installation of Microgeneration heating equipment
14. Plants comprised of more than one plant
15. Excluded plants

CHAPTER 3

Eligibility criteria in relation to metering and steam measuring

16. Metering of plants in simple systems
17. Metering of plants in complex systems
- 17A Metering in respect of new applications for accreditation
- 17B Metering in respect of new applications for accreditation in respect of ground source or air source heat pumps
18. Shared meters
19. Metering of CHP systems generating electricity only before 15th July 2009
20. Matters relating to all heat meters and steam measuring equipment
21. Additional metering requirements for plants generating heat from biogas

PART 3

Accreditation and registration

22. Applications for accreditation
23. Treatment of grants from public funds
24. Changes in ownership
- 24A Changes in location of accredited RHI installations
25. Producers of biomethane
26. Preliminary accreditation
- 26A Preliminary registration of biomethane producers

PART 4

Ongoing obligations for participants

CHAPTER 1

Ongoing obligations relating to the use of solid biomass to generate heat

27. Interpretation
28. Participants using solid biomass contained in ... waste
29. Participants using solid biomass in accredited RHI installations with an installation capacity of 1MWth or above
30. Participants using solid biomass in accredited RHI installations with an installation capacity of between 45kWth and 1MWth

CHAPTER 2

Ongoing obligations relating to the use of biogas to generate heat and the production of biomethane for injection

31. Biogas produced from gasification or pyrolysis
32. Participants generating heat from biogas
33. Biomethane producers

CHAPTER 3

Ongoing obligations relating to other matters

34. Ongoing obligations: general
- 34A Ongoing obligations: emissions from biomass
35. Ongoing obligations in relation to metering
36. Ongoing obligations in relation to the provision of information

CHAPTERNonBreakingSpace4

Sustainable solid biomass etc

- 36A Interpretation
- 36B Ongoing obligation to use sustainable solid biomass or biogas or to produce sustainable biomethane
- 36C Information to be provided to the Authority in relation to the use of sustainable solid biomass etc
- 36D Sustainability audit reports
- 36E Schemes for listing approved sustainable fuels

PART 5

Periodic support payments

37. Payment of periodic support payments to participants
- 37A Calculation of initial tariffs on or after the relevant date
- 37AA Calculation of initial tariffs for certain installations and biomethane producers with tariff start dates before 1st January 2018
- 37B Calculation of A for tariff start dates before the fifth relevant date
- 37BA Calculation of A for tariff start dates on or after 1st January 2018
- 37C Calculation of B
- 37D Calculation of C
- 37E Expenditure forecast statement and tariff change notice
- 37F Determination of increase in expenditure forecasts for 1st September 2014 expenditure forecast statement
38. Periodic support payments for accredited RHI installations in simple systems
39. Periodic support payments accredited RHI installations for complex systems
- 39A Periodic support payments for new accredited RHI installations
- 39B Periodic support payments for CHP systems using biomass or biogas in combination with other sources of energy
- 39C CHP systems accredited in relation to the Renewables Obligation
- 39D Periodic support payments for new solid biomass CHP systems

Changes to legislation: There are currently no known outstanding effects for the The Renewable Heat Incentive Scheme Regulations 2011 (revoked). (See end of Document for details)

- 40. Fossil fuel contamination of solid biomass and fossil fuel used for permitted ancillary purposes
- 41. Fossil fuel contamination adjustment to periodic support payments for producers and combusters of biogas produced from gasification and pyrolysis
- 42. Periodic support payments to producers of biomethane
- 42A Calculation of heat loss in certain circumstances

PART 6

Additional RHI capacity

- 43. Treatment of additional RHI capacity
- 43A Additional capacity for biomethane production

PART 7

Enforcement

- 44. Power to temporarily withhold periodic support payments to investigate alleged non-compliance
- 45. Power to suspend periodic support payments where ongoing failure to comply
- 46. Power to permanently withhold or reduce a participant's periodic support payments
- 47. Revocation of accreditation or registration
- 48. Overpayment notices and offsetting

PART 8

Revocation of sanctions

- 49. Revocation of Part 7 sanctions

PART 9

Inspection

- 50. Power to inspect accredited RHI installations and equipment used to produce biomethane

PART 10

Reviews

- 51. Right of review

PART 10A

Restriction of entry to the scheme

- 51A Circumstances in which entry to the scheme is restricted
- 51B Interpretation

PART 11

Administrative Functions of the Authority and notices

- 52. Publication of guidance and tariffs
- 52A Provision of information to the Authority etc

53. Reporting obligations
54. Additional information
55. Notices
- Signature

SCHEDULES

SCHEDULE A1 — Content of RHI emission certificates

1. The name and address of the testing laboratory by which...
2. The name and signature of the person authorised by the...
3. The date of issue of the certificate together with a...
4. Where the testing laboratory is accredited to BS EN ISO...
5. The name, model, manufacturer and installation capacity of the plant...
6. The date of the testing.
7. Confirmation that emissions of NO_x and PM have been...
8. The requirements of this paragraph are that testing is carried...
9. The requirements of this paragraph are that—
10. Confirmation that the test was carried out at no less...
11. Confirmation that when tested as specified in paragraphs 7 to...
12. The actual emissions of PM and NO_x measured when...
13. A list of— (a) the types of fuel used during...
14. The moisture content of the fuel used during testing and...
15. A statement indicating whether or not the plant tested was...
16. A list of plants, other than the plant tested, in...

SCHEDULE 1 — Information required for accreditation and registration

1. (1) This Schedule specifies the information that may be required...

SCHEDULE 2 — Provision of information in relation to the use of biomass in certain circumstances

1. Information to be provided to the Authority where biomass is used for combustion or production of biomethane
2. The information is information identifying to the best of the...
3. The information specified in paragraph 2 must be collated by...
4. The information specified in paragraph 2 must be provided for...
5. For the purpose of this Schedule— ... “ environmental quality...

SCHEDULE NonBreakingSpace2A — Greenhouse gas criteria

1. Solid biomass, biogas or biomethane meets the greenhouse gas criteria...
2. Lifecycle greenhouse gas emissions shall be calculated as follows—
3. For the purposes of paragraph 2— (a) η h is...
4. In this Schedule— (a) “actual value method” means the method...

SCHEDULE 2B — Land criteria

PART NonBreakingSpace1 — Interpretation

1. In this Schedule, material is added to solid biomass for...
2. In this Schedule— “continuously forested area” means land of an...
3. For the purposes of this Schedule— (a) solid biomass was...

PART NonBreakingSpace2 — Land criteria for solid biomass which is wood or wholly derived from wood, excluding energy crops

4. Solid biomass which is wood or wholly derived from wood...
5. (1) For the purposes of paragraph 4, solid biomass which...

Changes to legislation: There are currently no known outstanding effects for the The Renewable Heat Incentive Scheme Regulations 2011 (revoked). (See end of Document for details)

6. Material added to solid biomass for an exempt purpose shall...
7. A management plan meets the requirements specified in this paragraph...
8. For the purposes of paragraph 7(h) and (i), each of...
9. In this Part, “Forest Europe Sustainable Forest Management Criteria” means...

PARTNonBreakingSpace3 — Land criteria for other solid biomass including energy crops

10. Solid biomass which is not wood or derived wholly from...
11. Material added to solid biomass for an exempt purpose shall...
12. Solid biomass is obtained from a protected source if it...
13. This paragraph applies if the production of the solid biomass...
14. This paragraph applies if the cultivation and harvesting of the...

SCHEDULE 3 — Tariffs

SCHEDULENonBreakingSpace3A — New tariffs for plants generating heat from solid biomass with a capacity of 1 MWth or above, ground source heat pumps and solar collectors

SCHEDULENonBreakingSpace3B — New tariffs for new solid biomass CHP systems, deep geothermal energy, biogas combustion with a capacity of 200kWth and above and air source heat pumps

SCHEDULENonBreakingSpace3C — New biomethane tariffs

SCHEDULENonBreakingSpace3D — New tariffs

SCHEDULE 4 — Total expenditure

SCHEDULENonBreakingSpace5 — Expenditure in relation to individual technologies

- PART 1 — Small biomass plants
- PART 2 — Medium biomass plants
- PART 3 — Large biomass plants
- PART 4 — Heat pumps (except air source heat pumps)
- PART 5 — Plants using solar collectors
- PART 6 — Producers of biomethane for injection and plants which generate heat from biogas
- PART 7 — New biomass CHP systems
- PART 8 — Deep geothermal plants
- PART 9 — Air source heat pumps

Explanatory Note

Changes to legislation:

There are currently no known outstanding effects for the The Renewable Heat Incentive Scheme Regulations 2011 (revoked).
