EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations classify waste as household waste, industrial waste or commercial waste for the purposes of Part 2 of the Environmental Protection Act 1990 (“the Act”) and in consequence determine the meaning of “controlled waste” for the purposes of Part 2 of the Act (the definition of “controlled waste” is in section 75(4)).

They also prescribe the types of household waste for which a charge for collection may be made and provide that certain litter and refuse is to be treated under Part 2 in the same way as waste collected under section 45 of the Act.

Regulation 3 provides that certain waste is not to be classified as household, industrial or commercial waste, in particular waste which falls outside the scope of Directive 2008/98/EC on waste (OJ No L 312, 22.11.08, p3).

Regulation 4 gives effect to Schedule 1 which, read with section 75(5), (6) and (7) of the Act, establishes the classification of waste as household, industrial or commercial.

Paragraph 2 of Schedule 1 describes waste which is to be classified according to its place of production. It is subject to any inconsistent classification made by paragraphs 3 or 4.

Paragraph 3 of Schedule 1 describes waste which is to be classified according to its nature or the activity producing it. It is subject to any inconsistent classification made by paragraph 4.

Paragraph 4 of Schedule 1 prescribes household waste for which a collection charge may be made and specifies household waste which is to be treated as commercial waste only for the purposes of charging for disposal.
