PART 6

CALCULATION OF CAPITAL AND INCOME

CHAPTER 1

CAPITAL

Introduction

45. This Chapter provides for the calculation of a person's capital for the purpose of section 5 of the Act (financial conditions) and section 8 of the Act (calculation of awards).

What is included in capital?

46.—(1) The whole of a person's capital is to be taken into account unless—

- (a) it is to be treated as income (see paragraphs (3) and (4)); or
- (b) it is to be disregarded (see regulation 48).

(2) A person's personal possessions are not to be treated as capital.

(3) Subject to paragraph (4), any sums that are paid regularly and by reference to a period, for example payments under an annuity, are to be treated as income even if they would, apart from this provision, be regarded as capital or as having a capital element.

(4) Where capital is payable by instalments, each payment of an instalment is to be treated as income if the amount outstanding, combined with any other capital of the person (and, if the person is a member of a couple, the other member), exceeds £16,000, but otherwise such payments are to be treated as capital.

Jointly held capital

47. Where a person and one or more other persons have a beneficial interest in a capital asset, those persons are to be treated, in the absence of evidence to the contrary, as if they were each entitled to an equal share of the whole of that beneficial interest.

Capital disregarded

48.—(1) Any capital specified in Schedule 10 is to be disregarded from the calculation of a person's capital (see also regulations 75 to 77).

(2) Where a period of 6 months is specified in that Schedule, that period may be extended by the Secretary of State where it is reasonable to do so in the circumstances of the case.

Status: Point in time view as at 11/04/2018.

*Changes to legislation: There are currently no known outstanding effects for the
The Universal Credit Regulations 2013, PART 6. (See end of Document for details)*

Valuation of capital

- 49.**—(1) Capital is to be calculated at its current market value or surrender value less—
- (a) where there would be expenses attributable to sale, 10%; and
 - (b) the amount of any encumbrances secured on it.
- (2) The market value of a capital asset possessed by a person in a country outside the United Kingdom is—
- (a) if there is no prohibition in that country against the transfer of an amount equal to the value of that asset to the United Kingdom, the market value in that country; or
 - (b) if there is such a prohibition, the amount it would raise if sold in the United Kingdom to a willing buyer.
- (3) Where capital is held in currency other than sterling, it is to be calculated after the deduction of any banking charge or commission payable in converting that capital into sterling.

Notional capital

- 50.**—(1) A person is to be treated as possessing capital of which the person has deprived themselves for the purpose of securing entitlement to universal credit or to an increased amount of universal credit.
- (2) A person is not to be treated as depriving themselves of capital if the person disposes of it for the purposes of—
- (a) reducing or paying a debt owed by the person; or
 - (b) purchasing goods or services if the expenditure was reasonable in the circumstances of the person's case.
- (3) Where a person is treated as possessing capital in accordance with this regulation, then for each subsequent assessment period (or, in a case where the award has terminated, each subsequent month) the amount of capital the person is treated as possessing (“the notional capital”) reduces—
- (a) in a case where the notional capital exceeds £16,000, by the amount which the Secretary of State considers would be the amount of an award of universal credit that would be made to the person (assuming they met the conditions in section 4 and 5 of the Act) if it were not for the notional capital; or
 - (b) in a case where the notional capital exceeds £6,000 but not £16,000 (including where the notional capital has reduced to an amount equal to or less than £16,000 in accordance with sub-paragraph (a)) by the amount of unearned income that the notional capital is treated as yielding under regulation 72.

Calculation of earned income - general principles

54.—(1) The calculation of a person's earned income in respect of an assessment period is, unless otherwise provided in this Chapter, to be based on the actual amounts received in that period.

(2) Where the Secretary of State—

- (a) makes a determination as to whether the financial conditions in section 5 of the Act are met before the expiry of the first assessment period in relation to a claim for universal credit; or
- (b) makes a determination as to the amount of a person's earned income in relation to an assessment period where a person has failed to report information in relation to that earned income,

that determination may be based on an estimate of the amounts received or expected to be received in that assessment period.

[^{F3}Surplus earnings

54A.—(1) This regulation applies in relation to a claim for universal credit where—

- (a) the claimant, or either of joint claimants, had an award of universal credit (the “old award”) that terminated within the 6 months ending on the first day in respect of which the claim is made;
- (b) the claimant has not, or neither of joint claimants has, been entitled to universal credit since the old award terminated; and
- (c) the total earned income in the month that would have been the final assessment period for the old award, had it not terminated, exceeded the relevant threshold.

(2) Where this regulation applies in relation to a claim, any surplus earnings determined in accordance with paragraph (3) are to be treated as earned income for the purposes of determining whether there is entitlement to a new award and, if there is entitlement, calculating the amount of the award.

(3) Surplus earnings are—

- (a) if the claim in question is the first since the termination of the old award, the amount of the excess referred to in paragraph (1)(c) (“the original surplus”);
- (b) if the claim in question is the second since the termination of the old award, the amount, if any, by which—
 - (i) the original surplus, plus
 - (ii) the total earned income in the month that would have been the first assessment period in relation to the first claim,

- exceeded the relevant threshold (“the adjusted surplus”);
- (c) if the claim in question is the third since the termination of the old award, the amount, if any, by which—
- (i) the adjusted surplus from the second claim, plus
 - (ii) the total earned income in the month that would have been the first assessment period in relation to the second claim,
- exceeded the relevant threshold;
- (d) if the claim in question is the fourth or fifth since the termination of the old award, an amount calculated in the same manner as for the third claim (that is by taking the adjusted surplus from the previous claim).
- (4) For the purposes of paragraph (3)—
- (a) if the claim in question is the first joint claim by members of a couple, each of whom had an old award (because each was previously entitled to universal credit as a single person or as a member of a different couple), the amounts of any surplus earnings from the old award or from a previous claim that would have been treated as earned income if they had each claimed as a single person are to be aggregated; and
 - (b) if the claim in question is—
 - (i) a single claim where the claimant had an old award, or made a subsequent claim, as a joint claimant, or
 - (ii) a joint claim where either claimant had an old award, or made a subsequent claim, as a member of a different couple,the original surplus, or any adjusted surplus, in relation to the old award is to be apportioned in the manner determined by the Secretary of State.
- (5) No amount of surplus earnings is to be taken into account in respect of a claimant who has, or had at the time the old award terminated, recently been a victim of domestic violence (within the meaning given by regulation 98).

(6) In this regulation—

“total earned income” is the earned income of the claimant or, if the claimant is a member of a couple, the couple’s combined earned income, but does not include any amount a claimant would be treated as having by virtue of regulation 62 (the minimum income floor);

“the nil UC threshold” is the amount of total earned income above which there would be no entitlement to universal credit, expressed by the following formula—

$$(M-U)63 \times 100 + WA$$

where—

M is the maximum amount of an award of universal credit;

U is unearned income;

WA is the work allowance; and

“the relevant threshold” is the nil UC threshold plus £300.]

- (a) any relievable pension contributions made by the person in that period;
- (b) any amounts paid by the person in that period in respect of the employment by way of income tax or primary Class 1 contributions under section 6(1) of the Contributions and Benefits Act; and

Employee involved in trade dispute

56. A person who has had employed earnings and has withdrawn their labour in furtherance of a trade dispute is, unless their contract of service has been terminated, to be assumed to have employed earnings at the same level as they would have had were it not for the trade dispute.

Self-employed earnings

57.—(1) This regulation applies for the purpose of calculating earned income that is not employed earnings and is derived from carrying on a trade, profession or vocation (“self-employed earnings”).

[^{F9}(2) A person’s self-employed earnings in respect of an assessment period are to be calculated as follows.

Step 1

Calculate the amount of the person’s profit or loss in respect of each trade, profession or vocation carried on by the person by—

- (a) taking the actual receipts in that assessment period; and
- (b) deducting any amounts allowed as expenses under regulation 58 or 59.

Where a trade, profession or vocation is carried on in a partnership, take the amount of the profit or loss attributable to the person’s share in the partnership.

Step 2

If the person has carried on more than one trade, profession or vocation in the assessment period, add together the amounts resulting from step 1 in respect of each trade, profession or vocation.

Step 3

Deduct from the amount resulting from step 1 or (if applicable) step 2 any payment made by the person to HMRC in the assessment period by way of national insurance contributions or income tax in respect of any trade, profession or vocation carried on by the person.

If the amount resulting from steps 1 to 3 is nil or a negative amount, the amount of the person’s self-employed earnings in respect of the assessment period is nil (and ignore the following steps).

Step 4

If the amount resulting from step 3 is greater than nil, deduct from that amount any relievable pension contributions made by the person in the assessment period (unless a deduction has been made in respect of those contributions in calculating the person’s employed earnings).

If the amount resulting from this step is nil or a negative amount, the person’s self-employed earnings in respect of the assessment period are nil (and ignore the following step).

Step 5

If the amount resulting from step 4 is greater than nil, deduct from that amount any unused losses (see regulation 57A), taking the oldest first.

Status: Point in time view as at 11/04/2018.

Changes to legislation: There are currently no known outstanding effects for the The Universal Credit Regulations 2013, PART 6. (See end of Document for details)

If the amount resulting from this step is greater than nil, that is the amount of the person's self-employed earnings for the assessment period.

If the amount resulting from this step is nil or a negative amount, the amount of the person's self-employed earnings in respect of the assessment period is nil.]

(4) The receipts referred to in [F10 paragraph (2)] include receipts in kind and any refund or repayment of income tax, value added tax or national insurance contributions relating to the trade, profession or vocation.

[F11(5) Where the purchase of an asset has been deducted as an expense in any assessment period and, in a subsequent assessment period, the asset is sold or ceases to be used for the purposes of a trade, profession or vocation carried on by the person, the proceeds of sale (or, as the case may be, the amount that would be received for the asset if it were sold at its current market value) are to be treated as a receipt in that subsequent assessment period.]

Notional earned income

60.—(1) A person who has deprived themselves of earned income, or whose employer has arranged for them to be so deprived, for the purpose of securing entitlement to universal credit or to an increased amount of universal credit is to be treated as possessing that earned income.

(2) Such a purpose is to be treated as existing if, in fact, entitlement or higher entitlement to universal credit did result and, in the opinion of the Secretary of State, this was a foreseeable and intended consequence of the deprivation.

(3) If a person provides services for another person and—

- (a) the other person makes no payment for those services or pays less than would be paid for comparable services in the same location; and
- (b) the means of the other person were sufficient to pay for, or pay more for, those services,

the person who provides the services is to be treated as having received the remuneration that would be reasonable for the provision of those services.

(4) Paragraph (3) does not apply where—

- (a) the person is engaged to provide the services by a charitable or voluntary organisation and the Secretary of State is satisfied that it is reasonable to provide the services free of charge or at less than the rate that would be paid for comparable services in the same location;
- (b) the services are provided by a person who is participating as a service user (see regulation 53(2)); or
- (c) the services are provided under or in connection with a person's participation in an employment or training programme approved by the Secretary of State.

^{F17}Information for calculating earned income - real time information etc

61.—(1) Unless paragraph (2) applies, a person must provide such information for the purposes of calculating their earned income at such times as the Secretary of State may require.

(2) Where a person is, or has been, engaged in an employment in respect of which their employer is a Real Time Information employer—

- (a) the amount of the person’s employed earnings from that employment for each assessment period is to be based on the information which is reported to HMRC under the PAYE Regulations and is received by the Secretary of State from HMRC in that assessment period; and
- (b) for an assessment period in which no information is received from HMRC, the amount of employed earnings in relation to that employment is to be taken to be nil.

(3) The Secretary of State may determine that paragraph (2) does not apply—

- (a) in respect of a particular employment, where the Secretary of State considers that the information from the employer is unlikely to be sufficiently accurate or timely; or
- (b) in respect of a particular assessment period where—
 - (i) no information is received from HMRC and the Secretary of State considers that this is likely to be because of a failure to report information (which includes the failure of a computer system operated by HMRC, the employer or any other person); or
 - (ii) the Secretary of State considers that the information received from HMRC is incorrect, or fails to reflect the definition of employed earnings in regulation 55, in some material respect.

(4) Where the Secretary of State determines that paragraph (2) does not apply, the Secretary of State must make a decision as to the amount of the person’s employed earnings for the assessment period in accordance with regulation 55 (employed earnings) using such information or evidence as the Secretary of State thinks fit.

(5) When the Secretary of State makes a decision in accordance with paragraph (4) the Secretary of State may—

- (a) treat a payment of employed earnings received by the person in one assessment period as received in a later assessment period (for example where the Secretary of State has received the information in that later period or would, if paragraph (2) applied, have expected to receive information about that payment from HMRC in that later period); or
- (b) where a payment of employed earnings has been taken into account in that decision, disregard information about the same payment which is received from HMRC.
