

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

## SCHEDULE 1

### RELEVANT PROVISIONS OF THE UNITED NATIONS CONVENTION ON THE LAW OF THE SEA, WITH MODIFICATIONS

#### *Article 5*

##### Normal Baseline

Except where otherwise provided in **the provisions of this Convention specified below**, the normal baseline for measuring the breadth of the territorial sea is the low-water line along the coast.....
