2014 No. 1663

**The Genetically Modified Organisms
(Contained Use) Regulations 2014**

PART 3

Conduct of Contained Use

Containment and control measures for contained use involving larger GMOs

20.—(1) A user who undertakes a contained use involving larger GMOs must apply the containment measures selected in the risk assessment for the contained use.

(2) A person responsible for the contained use must review the containment measures applied—

(a) at suitably regular intervals; and

(b) immediately, if that person suspects that—

(i) the containment measures are no longer adequate; or

(ii) in the light of new scientific or technical knowledge, the risk assessment is no longer valid.
