## SCHEDULES

### SCHEDULE 3

#### REQUIREMENTS

#### Abbey Mills Pumping Station

25. The table below sets out the specific requirements for the Abbey Mills Pumping Station site—

<i>Title</i>	<i>Ref</i>	<i>Text</i>
CoCP Part B	ABMPS1	Until completion of construction the authorised development shall be carried out in accordance with the CoCP Part A subject to the site specific variations set out in CoCP Part B for this site, unless otherwise agreed with the relevant planning authority in consultation with other relevant stakeholders.
Detailed design approval for permanent above-ground structures	ABMPS2	<p>(1) Construction of any permanent above-ground structure shall not commence until details of the design (including size, external appearances and materials), which shall accord with the design principles for this site and the Site works parameter plan, are submitted to and approved by the relevant planning authority in consultation with the HBMCE.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details, unless otherwise approved by the relevant planning authority in consultation with the HBMCE.</p>
Contaminated land	ABMPS3	<p>Site-specific remediation strategy</p> <p>(1) No works shall be carried out at this site (except for demolition of existing buildings, works in the highway including site access, works to trees and installation of monitoring equipment), unless otherwise agreed, until the following are submitted to and approved by the relevant planning authority in consultation with the Environment Agency—</p> <p>a. a preliminary risk assessment and site investigation scheme which identifies—</p> <p>all previous uses</p> <p>potential contaminants associated with those uses</p> <p>a conceptual model of the site indicating sources, pathways and receptors</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Title	Ref	Text
		<p>a qualitative risk assessment of any potentially unacceptable risks arising from contamination at the site</p> <p>a proposed site investigation scheme providing information for a detailed quantitative assessment of the risk to all receptors that may be affected, including those off-site.</p> <p>b. a remediation strategy which includes—</p> <p>a detailed quantitative risk assessment</p> <p>an options appraisal giving full details of the remediation measures required and how they shall be carried out</p> <p>a verification plan providing details of the data to be collected in order to demonstrate that the works set out in the remediation strategy are complete and identifying any requirements for long-term monitoring of pollutant linkages, maintenance and arrangements for contingency action</p> <p>a programme for the submission of elements detailed in (3) and (4) below.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details, unless otherwise agreed with the relevant planning authority in consultation with the Environment Agency.</p> <p>Verification report</p> <p>(3) Prior to completion of the works, a verification report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of the remediation shall be submitted to and approved by the relevant planning authority in consultation with the Environment Agency. The report shall include results of sampling and monitoring carried out in accordance with the approved details to demonstrate that the site remediation criteria were met. It shall also include a plan for long-term monitoring of pollutant linkages, maintenance and arrangements for contingency action as identified in the verification plan.</p> <p>(4) The long-term monitoring and maintenance plan shall be implemented in accordance with the approved details, unless otherwise agreed with the relevant planning authority in consultation with the Environment Agency.</p> <p>Unexpected contamination</p> <p>(5) If, in carrying out any works on this site, contamination not previously identified is found to be present, then unless</p>

		<p>otherwise agreed by the relevant planning authority, no further development or works shall be carried out in the part of the site in which the contamination is identified until a remediation strategy is submitted to and approved by the relevant planning authority in consultation with the Environment Agency. The authorised development shall be carried out in accordance with the approved details, unless otherwise approved by the relevant planning authority.</p>
Archaeology	ABMPS4	<p>(1) No excavation shall be carried out until a SSAWSI (which shall accord with the OAWSI) is submitted to and approved by the relevant planning authority in consultation with the HBMCE.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details by a suitably qualified person or body.</p>
Construction traffic management plan	ABMPS5	<p>(1) Work No. 26a shall not commence until a traffic management plan (which shall accord with the CoCP) is submitted to and approved by the relevant planning authority in consultation with TfL.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details, unless otherwise approved by the relevant planning authority in consultation with TfL.</p>
Travel plan	ABMPS6	<p>(1) Work No. 26a shall not commence until a site-specific construction workforce travel plan, which shall accord with the Draft Project Framework Travel Plan, is submitted to and approved by the relevant planning authority in consultation with TfL.</p> <p>(2) The approved travel plan(s) shall be implemented from commencement of Work No. 26a and remain in place for the duration of the construction works, unless otherwise approved by the relevant planning authority in consultation with TfL.</p>
Surface drainage water	ABMPS7	<p>(1) Construction of the permanent above-ground structures or landscaping shall not commence until details of the surface water drainage system for this site (including means of pollution control, an assessment of the hydrological and hydrogeological context and how the scheme shall be maintained and managed following completion), which shall accord with the design principles for this site, are submitted to and approved by the relevant planning authority in consultation with the Environment Agency.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details, unless otherwise approved by the relevant planning authority in consultation</p>
