		<p>an options appraisal giving full details of the remediation measures required and how they shall be carried out</p> <p>a verification plan providing details of the data to be collected in order to demonstrate that the works set out in the remediation strategy are complete and identifying any requirements for long-term monitoring of pollutant linkages, maintenance and arrangements for contingency action</p> <p>a programme for the submission of elements detailed in (3) and (4) below.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details, unless otherwise agreed with the relevant planning authority in consultation with the Environment Agency.</p> <p>Verification report</p> <p>(3) Prior to completion of the works, a verification report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of the remediation shall be submitted to and approved by the relevant planning authority in consultation with the Environment Agency. The report shall include results of sampling and monitoring carried out in accordance with the approved details to demonstrate that the site remediation criteria were met. It shall also include a plan for long-term monitoring of pollutant linkages, maintenance and arrangements for contingency action as identified in the verification plan.</p> <p>(4) The long-term monitoring and maintenance plan shall be implemented in accordance with the approved details, unless otherwise agreed with the relevant planning authority in consultation with the Environment Agency.</p> <p>Unexpected contamination</p> <p>(5) If, in carrying out any works on this site, contamination not previously identified is found to be present, then unless otherwise agreed by the relevant planning authority, no further development or works shall be carried out in the part of the site in which the contamination is identified until a remediation strategy is submitted to and approved by the relevant planning authority in consultation with the Environment Agency. The authorised development shall be carried out in accordance with the approved details, unless otherwise approved by the relevant planning authority.</p>
Archaeology	HAMPS3	Site-specific archaeological written scheme of investigation

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Title</i>	<i>Ref</i>	<i>Text</i>
		<p>(1) No excavation shall be carried out until a SSAWSI (which shall accord with the OAWSI) is submitted to and approved by the relevant planning authority in consultation with the HBMCE.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details by a suitably qualified person or body.</p>
Construction traffic management plan	HAMPS4	<p>(1) Work No. 3a shall not commence until a traffic management plan (which shall accord with the CoCP) is submitted to and approved by the relevant planning authority in consultation with TfL.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details, unless otherwise approved by the relevant planning authority in consultation with TfL.</p>
Travel plan	HAMPS5	<p>(1) Work No. 3a shall not commence until a site-specific construction workforce travel plan, which shall accord with the Draft Project Framework Travel Plan, is submitted to and approved by the relevant planning authority in consultation with TfL.</p> <p>(2) The approved travel plan(s) shall be implemented from commencement of Work No. 3a and 3b and remain in place for the duration of the construction works, unless otherwise approved by the relevant planning authority in consultation with TfL.</p>
Specification of accesses (construction and operational)	HAMPS6	<p>(1) No alterations shall be made to any existing access or any new access provided until details of the design, which shall accord with the design principles for this site, are submitted to and approved by the local highway authority. Any such works shall be completed prior to their use.</p> <p>(2)The authorised development shall be carried out in accordance with the approved details, unless otherwise agreed by the highway authority.</p>
Surface drainage water	HAMPS7	<p>(1) Construction of the permanent above-ground structures or landscaping shall not commence until details of the surface water drainage system for this site (including means of pollution control, an assessment of the hydrological and hydrogeological context and how the scheme shall be maintained and managed following completion), which shall accord with the design principles for this site, shall be submitted to and approved by the relevant planning authority in consultation with the Environment Agency.</p> <p>(2) The authorised development shall be carried out in accordance with the approved details, unless otherwise approved by the relevant planning authority in consultation</p>
