The Mines Regulations 2014

PART 2

HEALTH AND SAFETY MANAGEMENT

Permits to work

13.—(1) Where it is shown by the health and safety document that such a measure is necessary, the mine operator must make arrangements for a system of permits (referred to in this regulation as “permits to work”) to carry out—

- (a) hazardous operations; and
 - (b) operations which are usually straightforward but which may interact with other activities to cause serious hazards.
- (2) A permit to work must—
- (a) be issued by a suitable person in the management structure required by regulation 10; and
 - (b) specify the conditions to be fulfilled and the precautions to be taken before, during and after the work concerned.
