Annual rate of child pension: short-term

150.—(1) The short-term rate of child pension—

- (a) applies if a member (D) dies in service or dies as a pensioner member; and
- (b) is payable as follows—
 - (i) if a surviving adult pension does not become payable on D's death, for the first 6 months after D's death;
 - (ii) if a surviving adult pension becomes payable on D's death and continues to be payable for the first 3 months after D's death, for those 3 months; or

(2) The short-term rate of child pension is

- (a) if D dies in service—

AR is D's annual rate of pensionable earnings as at the date of D's death (disregarding any reduction by reason of sick leave, maternity leave, paternity leave, ^{F1}... [^{F2}shared parental leave [^{F3}, parental bereavement leave] or adoption leave]); and

[^{F4}*EC* is the number of D's eligible children;]

- (b) if D dies as a pensioner member—

AR is D's annual rate of retirement pension payable as at the date of D's death (disregarding any reduction by virtue of a pension-sharing order);

“annual rate of retirement pension” means annual rate of phased retirement earned pension or annual rate of full retirement earned pension.
