2015 No. 1553

The Pyrotechnic Articles (Safety) Regulations 2015

PART 2

Obligations of economic operators

Chapter 1

Manufacturers

Labelling of pyrotechnic articles other than pyrotechnic articles for vehicles

11.—(1) Before placing a pyrotechnic article on the market, a manufacturer must ensure that it is labelled —

- (a) visibly, legibly and indelibly;
- (b) clearly and understandably; and
- (c) subject to paragraphs (3) and (4), in the official language of the member State in which the pyrotechnic article is to be made available to the end-user.

(2) The manufacturer must ensure that the labelling of the pyrotechnic article includes, as a minimum, the information specified in Schedule 3 (labelling: required information).

(3) The information specified in paragraph 1(a) and (b) of Schedule 3 must be provided in a language which can be easily understood by the end-users and the competent national authority in the member State in which the pyrotechnic article is to be made available to such end-users.

(4) The information specified in paragraph 1(f) of Schedule 3 must be provided in a language which can be easily understood by consumers and other end-users in the member State in which the pyrotechnic article is to be made available to such consumers and other end-users.

(5) Where the pyrotechnic article is to be made available to end-users in the United Kingdom the language which can be easily understood by consumers and other end-users is English.

(6) Where it is not possible for information specified in paragraph 1(a) and (b) of Schedule 3 to be indicated on the pyrotechnic article (including where this is as a result of other labelling requirements referred to in Schedule 3 having taken up the available space on the pyrotechnic article), the manufacturer must ensure that that information is indicated on its packaging or in a document accompanying the pyrotechnic article.

(7) Where the pyrotechnic article does not provide sufficient space for the other labelling requirements specified in Schedule 3 (including where this is as a result of the information specified in paragraph 1(a) and (b) of Schedule 3 having taken up the available space on the pyrotechnic article), the manufacturer must ensure that the information is provided on the smallest piece of packaging.

(8) This regulation does not apply to pyrotechnic articles for vehicles.
