These Regulations also give effect to the following Commission Regulations relating to certain fluorinated greenhouse gases (“the Commission Regulations”)—

The Regulations provide that references to Commission Regulation 1493/2007 and to Commission Regulation 1494/2007 are references to those Commission Regulations as amended from time to time.

The Regulations extend to Great Britain. They also extend to Northern Ireland for the purposes of import and export controls and trade with any place outside the United Kingdom. The Regulations apply to offshore installations, Scottish offshore installations and Northern Ireland offshore installations. (The terms “offshore installation”, “Scottish offshore installation” and “Northern Ireland offshore installation” are defined in regulation 4).

The Regulations designate the competent authority for the 2014 Regulation (regulation 5). They also provide for the designation of certification, evaluation and attestation bodies required by the Commission Regulations (Part 3).

Part 4 of the Regulations sets out powers given to enforcing authorities to enforce the 2014 Regulation and the Commission Regulations. This includes, in regulation 25, the power to issue enforcement notices for failing to comply with the 2014 Regulation or the Commission Regulations. Those provisions are listed in Schedules 2 and 3. Certain breaches of the 2014 Regulation, as well as a failure to comply with an enforcement notice, are among the criminal offences set out in regulation 29.
