- (e) the consumer has applied for assistance and established their entitlement to it in accordance with regulation 4.

Assistance to be provided

3.—(1) Subject to regulation 5, a water or sewerage undertaker's charges scheme must ensure that the charges of any consumer who has established their entitlement to assistance in accordance with regulation 4 in relation to any premises—

- (a) are initially based, during the period of their entitlement to assistance, on the water or sewerage undertaker's average charges for household consumers for water supplies or sewerage services; and
- (b) are, if necessary, adjusted at the end of that period, so that the total charge for such supplies or services in relation to those premises for that period does not exceed the amount the consumer would have paid if the consumer had not applied for assistance.

(2) The method of arriving at a water or sewerage undertaker's average charges included in a charges scheme by virtue of paragraph (1)(a) must follow such principles as the Authority^(a) may from time to time determine.

(3) The Authority must give water and sewerage undertakers notice of any determination under paragraph (2).

(4) Subject to paragraph (5), the period of a consumer's entitlement to assistance begins when the consumer applies for assistance and ends 12 months later unless that is part way through a billing period, in which case it ends at the end of that billing period.

(5) Where a consumer ceases to be eligible for assistance part way through the period of entitlement which would otherwise apply under paragraph (4), the consumer's period of entitlement ends at the end of the billing period in which the consumer ceases to be eligible for assistance.

Method of establishing entitlement to assistance

4.—(1) An application for assistance under these Regulations must be made by the consumer to the relevant water undertaker, except that where the area of that water undertaker is wholly or mainly in Wales the application must be made to the relevant sewerage undertaker.

(2) When the consumer makes an application for assistance, the consumer must provide the water or sewerage undertaker with such information as the undertaker reasonably requires to establish the consumer's entitlement to assistance in accordance with regulation 2.

(3) The water or sewerage undertaker must take reasonable steps to verify the consumer's entitlement to assistance.

(4) The water or sewerage undertaker may refuse the application for assistance if—

- (a) it is not supported by a copy of the latest notice of entitlement, confirming a qualifying person's entitlement to receive one of the benefits or tax credits listed in regulation 2(3); or
- (b) the copy of the latest notice of entitlement, supporting the application—

(a) i.e. the Water Services Regulation Authority: see section 1A(1) of the Water Industry Act 1991, as inserted by section 34(1) of the Water Act 2003 (c.37).

- (i) in the case of benefits, is dated more than 12 months before the date of the application for assistance;
- (ii) in the case of tax credits, is dated more than 6 months before the date of the application for assistance.

(5) In the case of an application for assistance made in reliance upon regulation 2(2)(a) (child benefit), the water or sewerage undertaker may refuse the application if it is not supported by a copy of the latest notice of entitlement, confirming a qualifying person's entitlement to receive child benefit under Part 9 of the 1992 Act for three or more children under the age of 19 who reside in the premises in question.

(6) In the case of an application for assistance made in reliance upon regulation 2(2)(b)(i) (listed medical conditions), the water or sewerage undertaker may refuse the application if it is not supported by relevant information on—

- (a) the medical condition; and
- (b) its impact on increased water consumption at the premises.

(7) In the case of an application for assistance made in reliance upon regulation 2(2)(b)(ii) (other medical conditions), the water or sewerage undertaker may refuse the application if it is not supported by a certificate given by a registered medical practitioner in accordance with paragraph (8).

(8) A certificate under paragraph (7) must be in the form of a statement in writing bearing the signature of the registered medical practitioner, and containing the following particulars—

- (a) the name of the person in respect of whom the diagnosis is made (“the patient”);
- (b) the diagnosis of the patient's medical condition which obliges the patient to use a significant additional volume of water;
- (c) the date on which the certificate is given; and
- (d) the name and address of the registered medical practitioner.

(9) Where a consumer's entitlement to assistance in relation to any premises is established in an application to the relevant water undertaker, and the water undertaker and sewerage undertaker for those premises are different, the water undertaker must inform the sewerage undertaker providing details of—

- (a) the consumer's name;
- (b) the address of the premises; and
- (c) the starting date of the consumer's entitlement to assistance,

and if during the year the water undertaker becomes aware that the consumer has ceased to be entitled to assistance, the water undertaker must inform the sewerage undertaker of the consumer's loss of entitlement.

(10) Except in a case falling within regulation 3(5), the relevant undertaker must give adequate notice in advance to any consumer in receipt of assistance under these Regulations—

- (a) reminding the consumer of the need to renew their application for assistance if the consumer wants it to continue beyond the period referred to in regulation 3(4); and
- (b) telling the consumer how to do so.

(11) Where a medical practitioner verifies the medical condition of any person to whom regulation 2(2)(b) applies for the purposes of an application for assistance under this regulation, the medical practitioner is entitled to be paid a fee by the water or sewerage undertaker to whom the application is made equal to the amount for the time being determined, and notified to the undertaker, by the Secretary of State.

(12) Paragraph (11) does not apply in relation to the provision of a certificate under paragraph (7).

Social tariffs

5. A relevant water or sewerage undertaker's obligation under regulation 2(1) to make special provision in its charges scheme for providing assistance in accordance with these Regulations is discharged if—

- (a) the undertaker has included in its charges scheme, provisions designed to reduce charges for individuals who would have difficulty paying in full, pursuant to section 44 of the Flood and Water Management Act 2010(a)(the “social tariff”);
- (b) the social tariff is offered to individuals who would be able to establish an entitlement for assistance under regulations 2 and 4; and
- (c) the social tariff reduces the charges by at least the same amount as the assistance that would be provided under regulation 3(1).

Review

6.—(1) Before the end of the review period, the Secretary of State must—

- (a) carry out a review of these Regulations;
- (b) set out the conclusions of the review in a report; and
- (c) publish the report.

(2) The report must in particular—

- (a) set out the objectives intended to be achieved by the regulatory system established by these Regulations;
- (b) assess the extent to which those objectives are achieved; and
- (c) assess whether those objectives remain appropriate and, if so, the extent to which they could be achieved with a system that imposes less regulation.

(3) In this regulation, “review period” means the period of five years beginning with the day on which these Regulations come into force.

Revocations

7. The following Regulations are revoked—

- (a) the Water Industry (Charges) (Vulnerable Groups) Regulations 1999(b);
- (b) the Water Industry (Charges) (Vulnerable Groups) (Amendment) Regulations 2000(c);
