

## SCHEDULE 1

### Dangerous substances

## PART 3

### Notes to Parts 1 and 2

**15. Ammonium nitrate (350/2,500): technical grade.**

This applies to ammonium nitrate and mixtures of ammonium nitrate in which the nitrogen content as a result of the ammonium nitrate is—

- (a) between 24.5% and 28% by weight, and which contain not more than 0.4% combustible substances; or
- (b) more than 28% by weight, and which contain not more than 0.2% combustible substances.

It also applies to aqueous ammonium nitrate solutions in which the concentration of ammonium nitrate is more than 80% by weight.
