EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations further amend the Tonnage Tax (Training Requirement) Regulations 2000.

The principal effect of the Regulations is to allow a tonnage tax company to satisfy its training obligations by electing to provide training for three ratings in place of each officer trainee that it is required to train. The Regulations also amend the definition of eligible officer trainee to include an electro-technical officer and make a consequential amendment to the definition of first certificate of competence.
