SCHEDULES

SCHEDULE 1

Regulation 2(1)

Essential Requirements

General requirements

1. Equipment must be so designed and manufactured, having regard to the state of the art, as to ensure that—
 - (a) the electromagnetic disturbance generated does not exceed the level above which radio and telecommunications equipment or other equipment cannot operate as intended;
 - (b) it has a level of immunity to the electromagnetic disturbance to be expected in its intended use which allows it to operate without unacceptable degradation of its intended use.

Specific requirements for fixed installations

2. A fixed installation must be installed applying good engineering practices and respecting the information on the intended use of its components, with a view to meeting the essential requirements set out in paragraph 1 of this Schedule.

Changes to legislation:

The Electromagnetic Compatibility Regulations 2016, SCHEDULE 1 is up to date with all changes known to be in force on or before 14 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations.
