
Status: Point in time view as at 08/12/2016.

Changes to legislation: The Simple Pressure Vessels (Safety) Regulations 2016 is up to date with all changes known to be in force on or before 19 August 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

STATUTORY INSTRUMENTS

2016 No. 1092

HEALTH AND SAFETY CONSUMER PROTECTION

The Simple Pressure Vessels (Safety) Regulations 2016

Made - - - - *15th November 2016*
Laid before Parliament *16th November 2016*
Coming into force *8th December 2016*

THE SIMPLE PRESSURE VESSELS (SAFETY) REGULATIONS 2016

PART 1

1. Citation and commencement
2. Interpretation
3. Application

PART 2

Obligations of economic operators

Manufacturers

4. Design and manufacture in accordance with essential safety requirements and sound engineering practice
5. Technical documentation and conformity assessment for category A vessels
6. EU declaration of conformity, CE marking and inscriptions for category A vessels
7. Inscriptions for category B vessels
8. Retention by manufacturer of technical documentation and EU declaration of conformity
9. Compliance procedures for series production
10. Monitoring of vessels made available on the market
11. Labelling of vessels
12. Provision of instructions and safety information
13. Duty of manufacturer to take action in respect of vessels placed on the market which are considered not to be in conformity

Status: Point in time view as at 08/12/2016.

Changes to legislation: The Simple Pressure Vessels (Safety) Regulations 2016 is up to date with all changes known to be in force on or before 19 August 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

14. Provision of information and cooperation
15. Appointment by manufacturer of authorised representative
16. Obligations of authorised representative

Importers

17. Prohibition on placing on the market vessels which are not in conformity
18. Requirements which must be satisfied before an importer places a category A vessel on the market
19. Prohibition on an importer placing on the market a category A vessel considered not to be in conformity with the essential safety requirements
20. Requirements which must be satisfied before an importer places a category B vessel on the market
21. Information identifying importer
22. Instructions and safety information
23. Transport and storage conditions
24. Monitoring by importer of vessels made available on the market
25. Duty of importer to take action in respect of vessels placed on the market which are considered not to be in conformity
26. Retention by importer of technical documentation and EU declaration of conformity
27. Provision of information and cooperation

Distributors

28. Duty to act with due care
29. Requirements which must be satisfied before a distributor makes available on the market a category A vessel
30. Prohibition on a distributor making available on the market a category A vessel not considered to be in conformity with essential safety requirements
31. Requirements which must be satisfied before a distributor makes a category B vessel available on the market
32. Storage and transport conditions
33. Duty for distributor to take action in respect of vessels made available on the market which are not in conformity
34. Provision of information and cooperation

All economic operators

35. Cases in which obligations of manufacturers apply to importers and distributors
36. Translation of EU declaration of conformity
37. Identification of economic operators
38. Prohibition on improper use of CE marking

PART 3

Conformity of Category A Vessels

39. Presumption of conformity of category A vessels
40. Conformity assessment procedures prior to manufacture

Status: Point in time view as at 08/12/2016.

Changes to legislation: The Simple Pressure Vessels (Safety) Regulations 2016 is up to date with all changes known to be in force on or before 19 August 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

41. Conformity assessment procedures prior to placing a vessel on the market
42. Records and correspondence language requirements
43. EU declaration of conformity
44. Identification number

PART 4

Notification of Conformity Assessment Bodies

45. Notified bodies
46. Notification
47. Presumption of conformity of notified bodies
48. Contents of notification
49. Monitoring
50. United Kingdom Accreditation Service
51. Changes to notifications
52. Operational matters in relation to notified bodies
53. Subsidiaries and contractors

PART 5

Market surveillance and enforcement

54. Designation of market surveillance authority
55. Enforcement
56. Enforcement Powers
57. Exercise of enforcement powers
58. Evaluation of vessels presenting a risk
59. Enforcement action in respect of vessels which are not in conformity
60. EU safeguard procedure
61. Enforcement action in respect of vessels which are in conformity, but which present a risk
62. Enforcement action in respect of formal non-compliance
63. Restrictive measures
64. Offences
65. Penalties
66. Defence of due diligence
67. Liability of persons other than principal offender
68. Time limit for prosecution of offences
69. Service of documents
70. Recovery of expenses of enforcement
71. Action by enforcing authority
72. Appeals against notices
73. Appropriate court for appeals against notices
74. Compensation

PART 6

Miscellaneous

75. Review
 76. Transitional provision
 77. Revocations and savings
 78. Consequential Amendments
- Signature

SCHEDULE 1 — Essential Safety Requirements

PART 1 — Materials

1. Materials used in the manufacture of a vessel must be...
2. Pressurised parts
3. For steel vessels, the material must in addition meet the...
4. The materials must be accompanied by an inspection slip as...
5. Steel vessels
6. Aluminium vessels
7. Welding materials
8. Accessories contributing to the strength of the vessel
9. Non-pressurised parts
10. Symbols

PART 2 — Vessel Design

11. (1) A manufacturer must, when designing a vessel, define the...
12. A manufacturer must also take account of the following provisions—...
13. A manufacturer must take account of the fact that under...
14. Circumferential and longitudinal seams must be made using full penetration...
15. Wall thickness
16. Calculation method
17. Experimental method

PART 3 — Manufacturing processes

18. Vessels must be constructed and subjected to production checks in...
19. Preparation of the component parts
20. Welds on pressurised parts
21. (1) Welds must be performed by qualified welders or operators...
22. The manufacturer must also, during manufacture, ensure consistent weld quality...
23. Putting into service of the vessels

SCHEDULE 2 — Conformity Assessment Procedures

PART 1 — EU-Type Examination (Module B)

1. EU-type examination (Module B) is a conformity assessment procedure in...
2. (1) A manufacturer must lodge an application for EU-type examination...
3. (1) The technical documentation referred to in paragraph 2(2)(c) must—...
4. (1) The notified body must examine the technical documentation and...
5. The notified body must draw up an evaluation report that...
6. (1) Where the type meets the requirements of these Regulations,...
7. (1) A notified body must keep itself apprised of any...
8. (1) Each notified body must inform the Secretary of State...
9. A manufacturer must keep a copy of the EU-type examination...

PART 2 — Conformity to type based on internal production control plus supervised vessel testing (Module C1)

10. Conformity to type based on internal production control plus supervised...
11. Manufacturing
12. Vessel checks
13. CE marking and EU declaration of conformity

PART 3 — Conformity to type based on internal production control plus supervised vessel checks at random intervals (Module C2)

14. Conformity to type based on internal production control plus supervised...

Changes to legislation: The Simple Pressure Vessels (Safety) Regulations 2016 is up to date with all changes known to be in force on or before 19 August 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

15. Manufacturing
16. Vessel checks
17. CE marking and EU declaration of conformity
PART 4 — Conformity to type based on internal production control (Module C)
18. Conformity to type based on internal production control is a...
19. Manufacturing
20. CE marking and EU declaration of conformity
PART 5 — Interpretation
21. In this Schedule— (a) “design pressure” means the gauge pressure...

SCHEDULE 3 — EU Declaration of Conformity

1. EU declaration of conformity (No xxxx)
2. Name and address of the manufacturer and, where applicable, his...
3. This declaration of conformity is issued under the sole responsibility...
4. Object of the declaration (identification of the vessel allowing traceability;...
5. The object of the declaration described above is in conformity...
6. References to the relevant harmonised standards used or references to...
7. The notified body (name, number) performed (description of intervention) and issued the...
8. Additional information: Signed for and on behalf of: (place and...

SCHEDULE 4 — Notified bodies

PART 1 — Notified Body Requirements

1. A conformity assessment body must be established in the United...
 2. A conformity assessment body must be a third party body...
 3. (1) A conformity assessment body, its top level management and...
 4. A conformity assessment body, its top level management and the...
 5. A conformity assessment body must ensure that the activities of...
 6. A conformity assessment body and its personnel must carry out...
 7. A conformity assessment body must be capable of carrying out...
 8. A conformity assessment body must have at its disposal:
 9. A conformity assessment body must have the means necessary to...
 10. The personnel responsible for carrying out conformity assessment must have—...
 11. A conformity assessment body must be able to demonstrate the...
 12. The remuneration of the top level management and the personnel...
 13. A conformity assessment body must have, and must satisfy the...
 14. A conformity assessment body must ensure that its personnel observe...
 15. Paragraph 14 does not prevent the personnel from providing the...
 16. A conformity assessment body must participate in, or ensure that...
- ##### PART 2 — Operational obligations of notified bodies
17. A notified body must carry out conformity assessments in accordance...
 18. A notified body must carry out conformity assessments in a...
 19. A notified body must perform its activities taking due account...
 20. A notified body must respect the degree of rigour and...
 21. Where a notified body finds that essential safety requirements or...
 22. Where, in the course of the monitoring of conformity following...
 23. Where the notified body has required a manufacturer to take...
 24. Paragraph 25 applies where a notified body is minded to—...
 25. Where this paragraph applies, the notified body must—
 26. A notified body must inform the Secretary of State of—...
 27. A notified body must make provision in its contracts with...
